Cory, *Charles B.* Descriptions of several new birds from Santo Domingo. Auk, 1, **1884**, 1–5.
—— The generic name Ligea. Auk, 1, **1884**, 290.
—— The birds of the West Indies, including the Bahama Islands, the Greater and the Lesser Antilles, excepting the islands of Tobago and Trinidad. Auk, 3, **1886**, 1–59, 187–245, 337–381, 454–472; 4, **1887**, 37–51, 108–120, 223–232, 311–328, 381; 5, **1888**, 48–82, 155–159.
—— Description of a new North American species of Ardetta. Auk, 3, **1886**, 262, 408.
—— Descriptions of new species of birds from the West Indies. Auk, 3, **1886**, 381–382.
—— Descriptions of thirteen new species of birds from the island of Grand Cayman, West Indies. Auk, 3, **1886**, 497–501.
—— A list of the birds collected in the island of Grand Cayman, West Indies, by W. B. Richardson, during the summer of 1886. Auk, 3, **1886**, 501–502.
—— On a collection of birds from several little-known islands of the West Indies. Ibis, 4, **1886**, 471–475.
—— A new Vireo from Grand Cayman, West Indies. Auk, 4, **1887**, 6–7.
—— Description of a new species of Rhamphocinclus from St. Lucia, West Indies. Auk, 4, **1887**, 94–95.
—— A list of the birds collected by Mr. W. B. Richardson, in the island of Martinique, West Indies. Auk, 4, **1887**, 95–96.
—— More news of Ardea Wuerdemanni. Auk, 4, **1887**, 159.
—— Descriptions of six supposed new species of birds from the islands of Old Providence and St. Andrews, Caribbean Sea. Auk, 4, **1887**, 177–180.
—— A list of the birds taken by Mr. Robert Henderson, in the islands of Old Providence and St. Andrew's, Caribbean Sea, during the winter of 1886–87. Auk, 4, **1887**, 180–181.
—— Description of a new Euetheia from Old Providence Island. Auk, 4, **1887**, 245, 381.
—— An apparently new Elainea from Barbadoes, West Indies. Auk, 5, **1888**, 47.
—— Description of a supposed new form of Margarops from Dominica. Auk, 5, **1888**, 47.
—— The European kestrel in Massachusetts. Auk, 5, **1888**, 110, 205.
—— Description of a new Myiarchus from the West Indies. Auk, 5, **1888**, 266.
—— A list of the birds collected by Mr. C. J. Maynard in

the islands of Little Cayman and Cayman Brack, West Indies. Auk, 6, **1889**, 30–32.
—— Notes on West Indian birds. Auk, 6, **1889**, 218–219; 8, **1891**, 41–46.
—— Antrostomus vociferus in Porto Rico. Auk, 6, **1889**, 276.
—— A new duck for Massachusetts, Nomonyx dominicus. Auk, 6, **1889**, 336.
—— Eggs of the Florida dusky duck. Auk, 7, **1890**, 204.
—— On a collection of birds made during the winter of 1889–90, by Cyrus S. Winch, in the islands of St. Thomas, Tortola, Anegada, and Virgin Gorda, West Indies. Auk, 7, **1890**, 373–375.
—— On the West Indian species of the genus Certhiola or Cœreba. Auk, 8, **1891**, 37–41.
—— A collection of birds taken by Cyrus S. Winch in the islands of Anguilla, Antigua, and St. Eustatius, West Indies, during April, May, June, and a part of July, 1890. Auk, 8, **1891**, 46–47.
—— A list of the birds collected in the islands of St. Croix and St. Kitts, West Indies, during March and April, and in Guadeloupe during August, September, and October, 1890. Auk, 8, **1891**, 47–49.
—— A list of birds taken and observed in Cuba and the Bahama Islands, during March and April, 1891. Auk, 8, **1891**, 292–296.
—— List of the birds collected by C. S. Winch in the Caicos Islands and Inagua, Bahamas, during January and February, and in Abaco, in March, 1891. Auk, 8, **1891**, 296–298.
—— Capture of a fourth specimen of Ardetta neoxena. Auk, 8, **1891**, 309.
—— Descriptions of new birds from the Bahama Islands, with remarks on the species of Speotyto which occur in the West Indies. Auk, 8, **1891**, 348–349.
—— List of the birds obtained by Mr. C. S. Winch on the islands of Great Bahama and Abaco, Bahama Islands, during June, and on Eleuthera in July, 1891. Auk, 8, **1891**, 350–351.
—— List of birds collected on the island of Inagua, Bahama Islands, from May 1 to July 10, 1891. Auk, 8, **1891**, 351.
—— On a collection of birds made on the islands of Anguilla and Cay Sal or Salt Cay, Bahama Islands, by Mr. Cyrus S. Winch, during May, 1891. Auk, 8, **1891**, 352.
—— An abnormal specimen of Coccyzus Maynardi. Auk, 8, **1891**, 394.
—— Another Massachusetts record for the mockingbird. Auk, 8, **1891**, 395.
—— A list of birds taken on Maraguana, Watling's Island, and Inagua, Bahamas, during July, August, September, and October, 1891. Auk, 9, **1892**, 48–49.
—— Remarks on a collection of birds made by Wilmot W. Brown, jun., on Mona and Porto Rico during February and a part of March, 1892. Auk, 9, **1892**, 228–229, 420.
—— Description of an apparently new Centurus from Great Bahama Island, Bahamas. Auk, 9, **1892**, 270.
—— In Cuba with Dr. Gundlach. Auk, 9, **1892**, 271–273.
—— A list of the birds collected on the island of Tobago, West Indies, by W. W. Brown, jun., during April and May, 1892. Auk, 10, **1893**, 220, 407.
—— Florida notes. Auk, 12, **1895**, 186–187.
—— Description of two new species of birds from San Domingo. Auk, 12, **1895**, 278–279.

—— Boulder clays. On the microscopic structure of certain boulder-clays and the organisms contained in them. [1885.] Chicago Ac. Sci. Bull., 1, [**1883–86**], 57–69; Minn. Geol. Nat. Hist. Surv. Rep., 13, **1885**, 150–163.
—— The Saskatchewan country. Science, 5, **1885**, 340–342.
—— Preliminary report on the physical and geological features of that portion of the Rocky Mountains, between latitudes 49° and 51° 30′. Canada Geol. Surv. Rep., 1, **1886**, B 1–B 169.
—— 'Chinook winds.' Science, 7, **1886**, 33–34.
—— On the occurrence of phosphates in nature. [1884.] Ottawa Field-Nat. Club Trans., 2, [**1887**], 91–98.
—— On certain borings in Manitoba and the Northwest Territory. [1886.] Canada Roy. Soc. Proc. & Trans., 4, **1887** (*Sect.* 4), 85–99.
—— On the Canadian Rocky Mountains, with special reference to that part of the range between the forty-ninth parallel and the head-waters of the Red Deer river. [1886.] Canad. Rec. Sci., 2, **1887**, 285–300.
—— Report on a geological examination of the northern part of Vancouver Island and adjacent coasts. Canada Geol. Surv. Rep., 2, **1887**, B 1–B 107.
—— Notes to accompany a geological map of the northern portion of the Dominion of Canada, east of the Rocky Mountains. Canada Geol. Surv. Rep., 2, **1887**, R 1–R 62.
—— Note on the occurrence of jade in British Columbia, and its employment by the natives. Canad. Rec. Sci., 2, **1887**, 364–370.
—— [On the Liassic fossils of M'Clintock's Expedition.] [1887.] Dublin Soc. Sci. Proc., 5, **1886–87**, 497–498.
—— Note on the Cascade anthracite basin, Rocky Mountains. Amer. Geologist, 1, **1888**, 332–333.
—— Forest trees of the far North-West. Garden & Forest, 1, **1888**, 58–59.
—— Recent observations on the glaciation of British Columbia and adjacent regions. Geol. Mag., 5, **1888**, 347–350.
—— The geological observations of the Yukon Expedition, 1887. Science, 11, **1888**, 185–186.
—— Report on an exploration in the Yukon district, N.W.T., and adjacent northern portion of British Columbia, 1887. [1888.] Canada Geol. Surv. Rep., 3, **1889**, B 1–B 277.
—— Notes on the ore-deposit of the Treadwell mine, Alaska. Amer. Geologist, 4, **1889**, 84–88.
—— On the earlier Cretaceous rocks of the north-western portion of the Dominion of Canada. Amer. Jl. Sci., 38, **1889**, 120–127.
—— The mineral wealth of British Columbia. With an annotated list of localities of minerals of economic value. Canada Geol. Surv. Rep., 3, **1889**, R 1–R 163, xiv.
—— Glaciation of high points in the southern interior of British Columbia. Geol. Mag., 6, **1889**, 350–352.
—— Platinum in British Columbia. Science, 13, **1889**, 290.
—— On the glaciation of the northern part of the Cordillera, with an attempt to correlate the events of the Glacial Period in the Cordillera and Great Plains. Amer. Geologist, 6, **1890**, 153–162.
—— Notes on the Cretaceous of the British Columbian region. The Nanaimo group. Amer. Jl. Sci., 39, **1890**, 180–183.
—— Report on a portion of the West Kootanie district, British Columbia, 1889. Canada Geol. Surv. Rep., 4, **1890**, B 1–B 66.
—— On some of the larger unexplored regions of Canada. Ottawa Natlist., 4, **1890**, 29–40.
—— Chalk from the Niobrara Cretaceous of Kansas. Science, 16, **1890**, 276.
—— Note on the geological structure of the Selkirk range. [1890.] Amer. Geol. Soc. Bull., 2, **1891**, 165–176.
—— On the later physiographical geology of the Rocky Mountain region in Canada, with special reference to changes in elevation and to the history of the Glacial Period; being the presidential address for the year. [1890.] Canada Roy. Soc. Proc. & Trans., 8, **1891** (*Sect.* 4), 3–74.
—— On the sequence of strata forming the Quebec group

of Logan and Billings, with remarks on the fossil remains found therein. [1891.] Ottawa Natlist., 6, **1892**, 41–43.

—— Note on the distribution of the upturned Cretaceous beds of British America. Amer. Jl. Sci., 43, **1892**, 433–435.

—— Notes on the geology of Middleton Island, Alaska. [1892.] Amer. Geol. Soc. Bull., 4, **1893**, 427–431.

—— The extinct northern sea-cow and early Russian explorations in the North Pacific. [1894.] Ottawa Natlist., 7, **1893**, 151–161.

—— Geological notes on some of the coasts and islands of Behring Sea and its vicinity. [1893.] Amer. Geol. Soc. Bull., 5, **1894**, xii, 117–146.

—— Notes on the occurrence of mammoth-remains in the Yukon district of Canada and in Alaska. [1893.] Geol. Soc. Quart. Jl., 50, **1894**, 1–8.

—— Geographical work in Canada in 1893. Geogr. Jl., 3, **1894**, 206–209.

—— Volcanic rocks of the Huronian. Science, 23, **1894**, 50.

—— Interglacial climatic conditions. Amer. Geologist, 16, **1895**, 65–66.

—— Note on the amount of elevation which has taken place along the Rocky Mountain range in British America since the close of the Cretaceous period. Amer. Jl. Sci., 49, **1895**, 463–465.

—— Note on the glacial deposits of southwestern Alberta. Jl. Geol. (Chicago), 3, **1895**, 507–511.

—— Report on the area of the Kamloops map-sheet, British Columbia. [1895.] Canada Geol. Surv. Rep., 7, **1896**, B 1–B 427.

—— Some observations tending to show the occurrence of secular climatic changes in British Columbia. Canada Roy. Soc. Proc. & Trans., 2, **1896** (*Sect.* 4), 159–166.

—— Recent explorations in Canada. Introductory sketch. [1897.] Ottawa Natlist., 10, **1896**, 201–203.

—— Presidential address to the Geol. Sect. Brit. Ass. Rep., **1897**, 628–640.

—— Are the bowlder clays of the Great Plains marine? Jl. Geol. (Chicago), 5, **1897**, 257–262.

—— Remarkable landslip in Portneuf county, Quebec. [1898.] Amer. Geol. Soc. Bull., 10, **1899**, 484–490.

—— Duplication of geologic formation names. Science, 9, **1899**, 592–593.

Dawson, *George M[ercer]*, & **Dawson,** *(Sir) J[ohn] William.* *See* below.

Dawson, *George M[ercer]*, & **McConnell,** *R. G.* Report on the region in the vicinity of the Bow and Belly rivers, North-West Territory. Embracing the country from the base of the Rocky Mountains eastward to Lon. 110° 45′, and from the 49th parallel northward to Latitude 51° 20′. [1884.] Canada Geol. Surv. Rep., **1882–84**, C 1–C 169, x.

—— Ueber zwei am Himmel nicht aufgefundene Sterne der Durchmusterung. Astr. Nachr., 128, **1891**, 311–312.
—— Bearbeitung der Bonner Ortsbestimmungen der Sonne. Leipzig, Astr. Ges. Vrtljschr., 26, **1891**, 279–283.
—— [Ueber den neuen Stern in Auriga.] Astr. Nachr., 129, **1892**, 61–62.
—— Ueber die Vorausberechnung der Cometen-Helligkeiten. Astr. Nachr., 131, **1893**, 33–42; Bonn Niederrhein. Ges. Sber., **1893**, 10–13.
—— Zur Photometrie der Cometen. Astr. Nachr., 131, **1893**, 309–310.
—— Ueber die Eigenbewegung des Sterns BD. +44°. 1408. Astr. Nachr., 132, **1893**, 153–156.
—— Ueber die Zweckmässigkeit einer Ableitung der Sonnenparallaxe aus der Mondgleichung der Erde und über die Werthbestimmung der letzteren. Astr. Nachr., 132, **1893**, 235–238.
—— Zwei neue Veränderliche im Schwan. Astr. Nachr., 133, **1893**, 381–382.
—— Meridianbeobachtungen des Cometen 1892 III (Holmes). Astr. Nachr., 137, **1895**, 171–172.
—— Ueber die Masse und die Beschaffenheit des Saturnringes. Bonn Niederrhein. Ges. Sber., **1895**, 67–73.
—— Das Grundmaass in der Himmelsmechanik. Bonn Niederrhein. Ges. Sber., **1895**, 84–93.
—— Notiz betr. eine Aehnlichkeit der Bahnen des neuen Cometen 1895 . . . (Brooks) und des Cometen von 1652. Astr. Nachr., 139, **1896**, 159–160.
—— Darlegung einer neuen Methode zur directen Bestimmung der absoluten Lage des Zeniths. Astr. Nachr., 142, **1897**, 145–150.
—— Ueber neue Nadirspiegel und künstliche Horizonte sowie über eine neue Methode der Fehlerbestimmung am Meridiankreise. Astr. Nachr., 142, **1897**, 377–380.
—— Ueber eine neue Methode zur directen Bestimmung des wahren Horizontes. Astr. Nachr., 143, **1897**, 217–220.
—— Neue Methode zur Bestimmung des wahren Collimationsfehlers für fundamentale Rectascensionen. Astr. Nachr., 143, **1897**, 219–224.
—— Ueber einen neuen Veränderlichen in Lacerta. Astr. Nachr., 144, **1897**, 237–340.
—— Ueber den Stern BD. +45°.624. Astr. Nachr., 145, **1898**, 253–254.
—— Ueber den Stern BD. +32°.1526ª = Lalande Nr. 14225. Astr. Nachr., 145, **1898**, 351–352.
—— Verbesserungen und Bemerkungen zur Bonner Durchmusterung. Astr. Nachr., 146, **1898**, 193–200; 149, **1899**, 247–248.
—— Ueber die Grösse und die Figur des scheinbaren Himmelsgewölbes. Deutsch. Natf. Verh., **1898** (*Th.* 2, *Hälfte* 1), 9–14.
—— Ein neuer Veränderlicher im Schwan. Astr. Nachr., 148, **1899**, 253–254.
—— Notiz zu U Dracon's und X Geminorum. Astr. Nachr., 148, **1899**, 331–332.
—— Die Leoniden im Jahre 1899. Astr. Nachr., 151, **1900**, 121–124.
—— Beobachtungen und Untersuchungen über den Lichtwechsel von R Lacertæ. Astr. Nachr., 151, **1900**, 259–364.
—— Beobachtungen der drei spätesten Maxima von Mira Ceti der vorigen Sichtbarkeitsperiode. Astr. Nachr., 151, **1900**, 357–360.
—— Beobachtung und Periode des neuen Veränderlichen in Cygnus. Astr. Nachr., 152, **1900**, 125–126.

—— Bemerkungen zu dem neuen Veränderlichen in Cygnus. Astr. Nachr., 152, **1900**, 125–126.
—— Erste Elemente und Ephemeride des neuen Veränderlichen im Schwan. Astr. Nachr., 152, **1900**, 205–206.
—— Bemerkungen zur Nova Aquilæ von 1899 und über die neuen Sterne. Astr. Nachr., 153, **1900**, 281–284.
—— Zweite Elemente des Veränderlichen 2.1900 Cygni. Astr. Nachr., 154, **1901**, 91–94.
—— Ueber den neuen Veränderlichen 16.1900 Cygni. Astr. Nachr., 154, **1901**, 93–94.

Deichmüller, *Johannes Victor.* Nachträge zur Dyas III. Branchiosaurus Petrolei, *Gaudry sp.*, aus der Unteren Dyas von Autun, Oberhof und Niederhässlich. Dresden Min. Mus. Mitth., 6, **1884**, 17 pp.

—— Nouveaux fossiles des Calcaires de Pair (Clavier). [1894–98.] Liége, Soc. Géol. Belg. Ann., 21, **1893–94** (*Mém.*), 287–296; 23, **1895–96**, xxxii–xxxiii; 24, **1896–97**, xxxviii–xxxix; 25, **1897–98**, xxxiv–xxxvi; 26, **1898–99**, lviii–lix.
—— Sur les fossiles du Calcaire à Paléchinides de Poulseur. [1895.] Liége, Soc. Géol. Belg. Ann., 22, **1894–95**, l.
—— Recherches sur les fossiles du marbre noir.....de Petit-Modave. [1895–99.] Liége, Soc. Géol. Belg. Ann., 22, **1894–95**, lxiv–lxviii; 26, **1898–99**, lix–lx.

—— Quelques nouveaux fossiles Siluriens à Ombret. [1896.] Liége, Soc. Géol. Belg. Ann., 23, **1895–96**, cxviii–cxix.
—— Découverte de Syringopora dans le Calcaire Carbonifère Supérieur de Visé. [1896.] Liége, Soc. Géol. Belg. Ann., 23, **1895–96**, cxxvi–cxxvii.
—— Sur deux Diplodus et un Chomatodus de l'ampélite alunifère de Chokier, et deux Cladodus de Visé. [1897.] Liége, Soc. Géol. Belg. Ann., 24, **1896–97** (*Mém.*), 219–223.
—— Quelques petits fossiles de Visé. [1898.] Liége, Soc. Géol. Belg. Ann., 25, **1897–98**, cxxii–cxxvi.
—— Découverte de Protaster dans l'assise d'Esneux (*Fa* 1 *c*), à Tohogne. [1898.] Liége, Soc. Géol. Belg. Ann., 26, **1898–99**, lvi–lvii.
—— Fossiles Viséens de Seille (*V* 2 *c*) et de Comblain-au-Pont (*V* 1 *by*). [1899.] Liége, Soc. Géol. Belg. Ann., 26, **1898–99**, cix–cxiii.
—— Sur un cristal de quartz du Houiller Inférieur (*H*1*a*) de Souvré (Visé). [1899.] Liége, Soc. Géol. Belg. Ann., 26, **1898–99**, clii–cliii.
—— Quelques fossiles nouveaux du Famennien, rencontrés dans les assises (*Fa* 2 *a*), (*Fa* 2 *c*), (*Fa* 1 *b*), à la Hesse (Tohogne), au Bois de Mont (Clavier) et à Clémodeau (Villers-le-Temple). [1900.] Liége, Soc. Géol. Belg. Ann., 27, **1899–1900**, clvi–clxi.
