Divers, *Edward*, & **Haga,** *Tamemasa*. On hyponitrites. Chem. Soc. Jl., 45, **1884**, 78–87.
—— Note on the action of stannous chloride upon nitric acid. Chem. News, 52, **1885**, 86.
—— Conversion of Pelouze's nitrosulphates into hyponitrites and sulphites. Chem. Soc. Jl., 47, **1885**, 203–205.
—— The formation of hyponitrites from nitric oxide. Chem. Soc. Jl., 47, **1885**, 361–364, 938.
—— The existence of barium and lead nitrososulphates. Chem. Soc. Jl., 47, **1885**, 364–365.
—— On the behaviour of stannous chloride towards nitric oxide, and towards nitric acid. Chem. Soc. Jl., 47, **1885**, 623–630, 938.
—— Preliminary note on the reaction between mercurous nitrate and nitric oxide, and between mercurous nitrate and nitrites. Chem. Soc. Proc., 1, **1885**, 95–96, iii.
—— Reduction of nitrites to hydroxylamine by hydrogen sulphide. [1886.] Chem. Soc. Jl., 51, **1887**, 48–51; Tōkyō, Coll. Sci. Jl., 1, **1887**, 109–112.
—— The reaction between sulphites and nitrites of metals other than potassium. Chem. Soc. Jl., 51, **1887**, 659–663; Berlin, Chem. Ges. Ber., 20, **1887**, 1992–1996.
—— Oxyamidosulphonates and their conversion into hyponitrites. [1889.] Chem. Soc. Jl., 55, **1889**, 760–773, 789; Tōkyō, Coll. Sci. Jl., 3, **1890**, 211–229.
—— Imidosulphonates. Chem. Soc. Jl., 61, **1892**, 943–988; 63, **1893**, [1453]; 69, **1896**, 1620–1634, [1756]; Tōkyō, Coll. Sci. Jl., 6, **1894**, 49–113; 9, **1895–98**, 195–217.
—— Oximidosulphonates or sulphazotates. Chem. Soc. Jl., 65, **1894**, 523–572, [1059]; Tōkyō, Coll. Sci. Jl., 7, **1895**, 15–86.
—— Potassium nitrososulphate. [1895.] Chem. Soc. Jl., 67, **1895**, 452–459; Berlin, Chem. Ges. Ber., 28, **1895**, 996–1004, 2331; Tōkyō, Coll. Sci. Jl., 9, **1895–98**, 85–95.
—— Sodium nitrososulphate. [1895.] Chem. Soc. Jl., 67, **1895**, 1095–1097; Tōkyō, Coll. Sci. Jl., 9, **1895–98**, 97–100.
—— The constitution of the nitrososulphates. [1895.] Chem. Soc. Jl., 67, **1895**, 1098–1104; Tōkyō, Coll. Sci. Jl., 9, **1895–98**, 101–110.
—— The reduction of nitrososulphates. [1896.] Chem. Soc. Jl., 69, **1896**, 1610–1620, [1756]; 71, **1897** (*Pt.* 2), 1241; Tōkyō, Coll. Sci. Jl., 9, **1895–98**, 277–290.
—— Amidosulphonic acid. Chem. Soc. Jl., 69, **1896**, 1634–1653, [1756]; 71, **1897** (*Pt.* 2), 1241; Tōkyō, Coll. Sci. Jl., 9, **1895–98**, 219–257.
—— Economical preparation of hydroxylamine sulphate. Chem. Soc. Jl., 69, **1896**, 1665–1666; 71, **1897** (*Pt.* 2), 1241; Tōkyō, Coll. Sci. Jl., 9, **1895–98**, 291–293.
—— Preparation of hyponitrite from nitrite through hydroxyamidosulphonate. [1898.] Chem. Soc. Jl., 75, **1899** (*Pt.* 1), 77–82; Tōkyō, Coll. Sci. Jl., 11, **1898–99**, 1–8.
—— Potassium nitrito-hydroximidosulphates and the non-existence of dihydroxylamine derivatives. [1900.] Chem. Soc. Jl., 77, **1900** (*Pt.* 1), 432–440; Tōkyō, Coll. Sci. Jl., 13, **1900–01**, 211–224.
—— Identification and constitution of Fremy's sulphazotised salts of potassium, [his sulphazate, sulphazite, etc.]. [1900.] Chem. Soc. Jl., 77, **1900** (*Pt.* 1), 440–446; Tōkyō, Coll. Sci. Jl., 13, **1900–01**, 225–233.
—— The interaction between sulphites and nitrites. [1900.] Chem. Soc. Jl., 77, **1900** (*Pt.* 1), 673–691; Tōkyō, Coll. Sci. Jl., 13, **1900–01**, 281–310.
—— Decomposition of hydroxyamidosulphates by copper sulphate. [1900.] Chem. Soc. Jl., 77, **1900** (*Pt.* 2), 978–984; Tōkyō, Coll. Sci. Jl., 13, **1900–01**, 497–506.
Divers, *Edward*, & **Kawakita,** *Michitada*. *On the constitution of the fulminates. [1883.] Chem. Soc. Jl., 45, **1884**, 13–19.
—— On Liebig's production of fulminating silver without the use of nitric acid. [1883–84.] Chem. Soc. Jl., 45, **1884**, 27–30, 76–77.
—— On the decomposition of silver fulminate by hydrochloric acid. [1884.] Chem. Soc. Jl., 45, **1884**, 75–76; 47, **1885**, 69–77.
—— On the composition of Japanese bird-lime. Chem. Soc. Jl., 53, **1888**, 268–277; Tōkyō, Coll. Sci. Jl., 2, **1889**, 17–30.
Divers, *Edward*, & **Nakamura,** *Teikichi*. On an apparently new hydrocarbon from distilled Japanese petroleum. Chem. Soc. Jl., 47, **1885**, 924–926.

Divers, *Edward,* & **Ogawa,** *Masataka.* Ethyl ammonium-sulphite. Chem. Soc. Jl., 75, **1899** (*Pt.* 1), 533–537; Tōkyō, Coll. Sci. Jl., 11, **1898–99,** 197–204.

—— Ammonium amidosulphite. [1900.] Chem. Soc. Jl., 77, **1900** (*Pt.* 1), 327–335; Tōkyō, Coll. Sci. Jl., 13, **1900–01,** 187–199.

—— Products of heating ammonium sulphites, thiosulphate, and trithionate. [1900.] Chem. Soc. Jl., 77, **1900** (*Pt.* 1), 335–340; Tōkyō, Coll. Sci. Jl., 13, **1900–01,** 201–209.

—— Ammonium imidosulphite. [1900.] Chem. Soc. Proc., 16, **1901,** 113.

Divers, *Edward,* & **Shimidzu,** *Tetsukichi.* On calcium hydrosulphides. Chem. Soc. Jl., 45, **1884,** 270–291, 721.

—— Magnesium hydrosulphide solution, and its use in chemico-legal cases as a source of hydrogen sulphide. Chem. Soc. Jl., 45, **1884,** 699–702.

—— On the use of sulphuric acid in place of nitric acid to oxidise sulphides for the estimation of their metals. Chem. News, 51, **1885,** 193.

—— Reactions of selenious acid with hydrogen sulphide, and of sulphurous acid with hydrogen selenide. Chem. Soc. Jl., 47, **1885,** 441–447; Berlin, Chem. Ges. Ber., 18, **1885,** 1212–1219, 2510.

—— The specific action of a mixture of sulphuric and nitric acids upon zinc in the production of hydroxylamine. Chem. Soc. Jl., 47, **1885,** 597–623, 938.

—— On the constitution and reactions of liquid nitric peroxide. Chem. Soc. Jl., 47, **1885,** 630–636, 938.

—— On the action of pyrosulphuric acid upon certain metals. Chem. Soc. Jl., 47, **1885,** 636–639.

—— Mercury sulphites, and the constitution of sulphites. Chem. Soc. Jl., 49, **1886,** 533–590, [877].

—— Mercury sulphites, and the constitution of oxygenous salts. [1886.] Tōkyō, Coll. Sci. Jl., 1, **1887,** 101–107.

Divers, *Edward,* & **Shimosé,** *Masachika.* On the reaction between hydrogen chloride and selenium sulphoxide. Chem. Soc. Jl., 45, **1884,** 194–197, 721; Berlin, Chem. Ges. Ber., 17, **1884,** 862–865.

—— Selenium selenochloride. Chem. Soc. Jl., 45, **1884,** 198–200; Berlin, Chem. Ges. Ber., 17, **1884,** 866–868.

—— On selenium sulphoxide. Chem. Soc. Jl., 45, **1884,** 201–204; Berlin, Chem. Ges. Ber., 17, **1884,** 858–862.

—— A new and simple method for the quantitative separation of tellurium from selenium. Chem. Soc. Jl., 47, **1885,** 439–441, 938; Berlin, Chem. Ges. Ber., 18, **1885,** 1209–1211, 2510.

Divine, *Julia.* Ueber die Athmung des Krötenherzens. Arch. Anat. Physiol. (*Physiol. Abth.*), **1898,** 533–534; Jl. Physiol., 23, **1898–99,** [12]-[13]; Schweiz. Natf. Ges. Verh., **1898,** 124–125.

Divine, *R[obert] E.* A process for the determination of carbon dioxide in carbonates. Amer. Chem. Soc. Jl., 22, **1900,** 473–476.

—— A method of determining free alkali in soaps. Amer. Chem. Soc. Jl., 22, **1900,** 693–695.

Diviš, *J[oh.] V[inc.].* Saccharisation des Rübensaftes auf barometrischer Grundlage. Ztschr. Zuckerind. Böhm., 10, **1885–86,** 1–3.

—— Eudiometer zur Untersuchung des Saturationsgases. Ztschr. Zuckerind. Böhm., 10, **1885–86,** 173–177.

—— Automatische Controle der Abdampfstationen, etc., mittelst des Bareoskops mit kreisförmiger Scala. [1892.] Ztschr. Ver. Rübenzuckerind., 43, **1893,** 43–46.

Diviš, *Julius.* Einiges über Seildraht und Drahtseile. Oesterr. Ztschr. Bergwesen, 48, **1900,** 561–567, 578–582, 591–594.

Dix, *Francis.* Observations on rainfall. Norf. Norw. Nat. Soc. Trans., 4, **1889,** 676–677.

Dix, *Tandy L.* On the correlation of alcohol, rheumatism and phthisis. N. Y. Med. Jl., 42, **1885,** 182–185.

—— Comments on Dr. Dettweiler's method of treating pulmonary consumption. N. Y. Med. Jl., 47, **1888,** 463.

—— Predisposition in tuberculosis. N. Y. Med. Jl., 48, **1888,** 292–294.

Dixey, *Frederick Augustus.* On the phylogenetic significance of the wing-markings in certain genera of the Nymphalidæ. Ent. Soc. Trans., **1890,** 89–129.

—— Preliminary note on the relation of the ungual corium to the periosteum of the ungual phalanx. [1892.] Roy. Soc. Proc., 52, **1893,** 392–393.

—— On the phylogenetic significance of the variations produced by difference of temperature in Vanessa Atalanta. [An appendix to Mr. Merrifield's paper, p. 55.] Ent. Soc. Trans., **1893,** 69–73.

—— On the relation of mimetic characters to the original form. Brit. Ass. Rep., **1894,** 692–693.

—— On the epidermis of the plantar surface and the question of use-inheritance. Brit. Ass. Rep., **1894,** 698.

—— On the phylogeny of the Pierinæ, as illustrated by their wing-markings and geographical distribution. Ent. Soc. Trans., **1894,** 249–334.

—— Mr. Merrifield's experiments in temperature-variation as bearing on theories of heredity. Ent. Soc. Trans., **1894,** 439–446.

—— Some aspects of hibernation. [1896.] Ent. Record, 7, **1895–96,** 169–173.

—— On the relation of mimetic patterns to the original form. Ent. Soc. Trans., **1896,** 65–79.

—— Mimetic attraction. [*With discussion.*] Ent. Soc. Trans., **1897,** 317–332, xxvii–xxxii, xxxiv–xlvii.

—— Lepidoptera, with remarks on local and seasonal forms in the genus Byblia, *Hübn.* Zool. Soc. Proc., **1898,** 372–383.

—— [On a collection of insects and arachnids made in 1895 and 1897 by Mr. C. V. A. Peel, F.Z.S., in Somaliland, with descriptions of new species.] 3. Lepidoptera Rhopalocera. Zool. Soc. Proc., **1900,** 10–17.

Dixey, *Frederick Augustus,* **Burr,** *Malcolm,* & **Pickard-Cambridge,** (*Rev.*) *Frederick Octavius.* On a collection of insects and arachnids made by Mr. E. N. Bennett in Socotra, with descriptions of new species. Zool. Soc. Proc., **1898,** 372–391.

—— The flora of Northamptonshire. Northampton. Nat. Hist. Soc. Jl., 3, **1884–85**, 27–38, 79–85, 104–107, 143–149, 179–182, 219–221, 276–279; 4, **1886–87**, 5–8, 87–90, 116–121, 173–177, 235–238, 325–329; 5, **1888–89**, 29–36, 117–124, 149–155, 235–243, 249–257, 309–316; 6, **1890–91**, 7–14, 56–58, 65–68, 100–103, 172–174, 249–253, xi; 7, **1892–93**, 64–66, 136–139, 161–164, 250–253, 292–298.

—— The botanical work of George Don of Forfar. [1884–85.] Scott. Natlist., 7, **1883–84**, 126–129, 176–178, 217–223, 258–269; 8, **1885–86**, 12–20.

—— Botanical notes. [Carex vesicaria, *var.* dichroa, *Anders.*] [1884.] Scott. Natlist., 7, **1883–84**, 229.

—— Plants of east Gloucester and north Wilts. Jl. Bot., 23, **1885**, 274–275; 24, **1886**, 24.

—— Notes on the Scottish plants. [1885–87.] Scott. Natlist., 8, **1885–86**, 76–77; 9, **1887–88**, 42–43, 92.

—— Notes on the flora of Northamptonshire. Jl. Bot., 24, **1886**, 370–375.

—— Plants of west Ross. [1886.] Scott. Natlist., 8, **1885–86**, 251–254.

—— Falcaria Rivini, *Host.*, in east Kent. Jl. Bot., 25, **1887**, 182.

—— Polypodium dryopteris, *Linn.*, in Oxon. Jl. Bot., 25, **1887**, 314–315.

—— Limnanthemum peltatum, *Gmel.*, in Northants. Jl. Bot., 25, 1887, 348.
—— Note on botanical nomenclature. Jl. Bot., 25, 1887, 348–349.
—— Pulicaria dysenterica, *Gaertn.*, *var.* longiradiata. Midland Natlist., 10, 1887, 78.
—— Notes on the flora of Easterness, Elgin, Banff and west Ross. Jl. Bot., 26, 1888, 17–26, 116.
—— The nomenclature of Sparganium. Jl. Bot., 26, 1888, 115.
—— East Kent plants. Jl. Bot., 26, 1888, 349.
—— Notes on the flora of Ben Laiogh, etc. Jl. Bot., 26, 1888, 364–369.
—— Calamagrostis borealis, *Læstad.*, in Scotland. Jl. Bot., 27, 1889, 117–118.
—— Festuca heterophylla, *Lamk.*, in Oxfordshire. Jl. Bot., 27, 1889, 153.
—— Plants of Easterness and Elgin. Jl. Bot., 27, 1889, 200–205.
—— Plants of north Bucks. Jl. Bot., 27, 1889, 315.
—— A Northamptonshire Potamogeton. Jl. Bot., 27, 1889, 377.
—— Plants of Peeblesshire. [1889.] Scott. Natlist., 10, 1889–90, 43–46.
—— Spergula pentandra, *L.*, as an Irish plant. [1890.] Ann. Bot., 4, 1889–91, 378–383; Jl. Bot., 28, 1890, 343–345.
—— Notes on Scotch plants. Jl. Bot., 28, 1890, 39–47.
—— Crepis fœtida, *L.*, in Northamptonshire. Jl. Bot., 28, 1890, 121.
—— Carex tomentosa, *L.*, in E. Gloster. Jl. Bot., 28, 1890, 218.
—— Notes on Oxford plants. Jl. Bot., 28, 1890, 227–234.
—— Helianthemum guttatum in Anglesea. Jl. Bot., 28, 1890, 315.
—— A tour through Spain: with special reference to the flora of the country. Midland Natlist., 13, 1890, 157–160.
—— Agrostis canina, *L.*, *var.* scotica, *Hackel in litt.* [1890.] Scott. Natlist., 10, 1889–90, 239.
—— Pseudathyrium flexile, *Syme*, in Easterness. [1890.] Scott. Natlist., 10, 1889–90, 239.
—— The segregates of Spergula arvensis, *L.* Jl. Bot., 29, 1891, 173–175.
—— Notes on the flora of Cork, Kerry and Dublin. Jl. Bot., 29, 1891, 304–307.
—— New Berks plants. Jl. Bot., 29, 1891, 307.
—— New Bucks plants. Jl. Bot., 29, 1891, 308.
—— Acer campestre, *L.* Jl. Bot., 29, 1891, 377.
—— Botanical notes. Scott. Natlist., [11, 1891], 91.
—— Plants of Glen Spean, Westerness. Ann. Scott. Nat. Hist., 1892, 127–131, 178–185.
—— Rediscovery of Sagina alpina (another plant of George Don's) in Scotland. Ann. Scott. Nat. Hist., 1892, 273.
—— Galium sylvestre in Berks. Jl. Bot., 30, 1892, 56–57.
—— Lepironia mucronata in the Friendly Islands. Jl. Bot., 30, 1892, 86.
—— East Gloucester plants. Jl. Bot., 30, 1892, 282.
—— Notes in an old herbal. Midland Natlist., 15, 1892, 104–108.
—— Botanical nomenclature, with special reference to "pharmacographia." Pharm. Jl., 22, 1892, 789–790, 941–944.
—— Plants of Glen A'an, Banffshire. Ann. Scott. Nat. Hist., 1893, 122–123.
—— Notes on some Scottish plants. Ann. Scott. Nat. Hist., 1893, 123.
—— Lagurus ovatus in Jersey. Jl. Bot., 31, 1893, 22.
—— Sonchus palustris in Oxfordshire. Jl. Bot., 31, 1893, 183.
—— Euphorbia esula in Bucks. Jl. Bot., 31, 1893, 184.
—— Phegopteris calcarea in Oxfordshire. Jl. Bot., 31, 1893, 217.
—— Notes on the flora of Berkshire. Jl. Bot., 31, 1893, 327–330.
—— Hertfordshire plants noted in Wm. Cole's "Adam in Eden," 1657. Midland Natlist., 16, 1893, 17–18.
—— Sagina Reuteri, *Boiss.*, in Britain. Jl. Bot., 32, 1894, 181–182.
—— Varieties of Sherardia arvensis, *L.* Jl. Bot., 32, 1894, 240–243.
—— Notes on the flora of Elphin and the rocks of Cnoc-an-t'-Sasunnaich in west Sutherlandshire. Ann. Scott. Nat. Hist., 1895, 35–38.
—— Poa humilis, *Ehrh.*, in west Ross and west Sutherland. Ann. Scott. Nat. Hist., 1895, 128–129.
—— Cnicus tuberosus and other Wilts plants. Jl. Bot., 33, 1895, 24–25.
—— Deschampsia discolor, *R. & S.*, in Salop. Jl. Bot., 33, 1895, 56.
—— Arabis petræa, *Lamarck*. Jl. Bot., 33, 1895, 153.
—— Cornwall plants. Jl. Bot., 33, 1895, 282.
—— Plymouth casuals. Jl. Bot., 33, 1895, 282.
—— Melampyrum pratense, *L.*, *var.* hians. Jl. Bot., 33, 1895, 314–315.
—— Artemisia Stelleriana, *Besser*, in Cornwall. Jl. Bot., 33, 1895, 316.
—— A new Bromus. Jl. Bot., 33, 1895, 344.
—— Sonchus palustris planted in Sussex. Jl. Bot., 33, 1895, 344.
—— Medicago lupulina, *var.* Willdenowiana. Jl. Bot., 33, 1895, 377.
—— Contributions towards a flora of west Ross. [1894.] Edinb. Bot. Soc. Trans. & Proc., 20, 1896, 112–171.

Eecen, *A.* Wanneer de op een puntstelsel werkende krachten in een plat vlak liggen en tot eene enkele resultante herleidbaar zijn, zal, als iedere kracht eene willekeurige, doch gelijke draaiing in dit vlak om haar aangrijpingspunt ondergaat, de resultante steeds door een zelfde punt gaan. Men vraagt een volledig onderzoek naar de plats van dit punt, voor het geval, dat gegeven krachten op de hoekpunten van een veelhoek werken. Nieuw Arch. Wisk., 15, 1888, 57-66; Fortschr. Phys., 1888 (*Abth.* 1), 174.
—— Stelling. Een plat vlak beweegt zich zoodanig in of over een ander vlak, dat twee rechte lijnen in het eerste, bewegelijke vlak steeds raaklijnen blijven tot twee vaste cirkels in het tweede, onbewegelijke vlak. Men vraagt deze beweging nader te onderzoeken. Nieuw Arch. Wisk., 15, 1888, 67–99; Fortschr. Phys., 1888 (*Abth.* 1), 179–180.

—— Sternschnuppenfall 1885 Nov. 27. Astr. Nachr., 113, 1886, 125.
—— Cometenbeobachtungen angestellt am Fadenmikrometer des 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 113, 1886, 135–136, 147–148, 207–208, 253–254, 271–272, 395–396; 114, 1886, 205–208, 379–382; 116, 1887, 247–250, 317–318, 327–328; 124, 1890, 283–286; 125, 1890, 299–300; 126, 1891, 169–170; 131, 1893, 45–48.
—— Neuer Stern bei χ^1 Orionis. Astr. Nachr., 113, 1886, 239.

—— Beobachtungen des Mondes und der Mondsterne angestellt am Passageninstrument seiner Privatsternwarte in Dresden. Astr. Nachr., 114, **1886**, 219–224, 359–362.

—— Beobachtungen der neuen Cometen in Dresden. Astr. Nachr., 114, **1886**, 287–288.

—— [Beobachtungen des Cometen 1886... (Brooks 1).] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 114, **1886**, 299–300.

—— [Beobachtungen des Andromeda-Nebels.] Astr. Nachr., 115, **1886**, 266, 309–310.

—— Beobachtungen des Cometen 1886 (Finlay). Am Aequatoreal seiner Privatsternwarte in Dresden. Astr. Nachr., 116, **1887**, 43–44, 111–112.

—— [Beobachtung des Cometen 1887... (Brooks Jan. 22).] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 116, **1887**, 203–204, 249–250, 267–268.

—— [Beobachtungen des Cometen 1887...(Barnard Febr. 15).] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 116, **1887**, 221–222.

—— [Beobachtungen des Cometen 1887 (Barnard Febr. 16).] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 116, **1887**, 267–268.

—— Mikrometrische Messungen von Struve'schen weiten Doppelsternen. Astr. Nachr., 117, **1887**, 1–6.

—— [Beobachtungen des Cometen 1886 VIII.] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 117, **1887**, 41–44.

—— [Beobachtungen des Cometen 1887...(Barnard Mai 12).] Am Aequatoreal seiner Privatsternwarte in Dresden. Astr. Nachr., 117, **1887**, 43–44, 59–60, 133–134, 215–216.

—— Mikrometrische Beobachtungen der Saturnsatelliten. Astr. Nachr., 117, **1887**, 137–140.

—— Mikrometrische Beobachtungen von ζ Cancri. Astr. Nachr., 117, **1887**, 277–278.

—— Ueber die relative E. B. des Nebels GC. 3258 gegen einen benachbarten Stern 11. Grösse. Astr. Nachr., 117, **1887**, 277–278.

—— Die totale Sonnenfinsterniss vom 19 August 1887. Dresden Isis Sber., **1887** (*Abh.*), 43–46.

—— Zusatz zu den Beobachtungen des Cometen 1882 II in A. N. 2513. Astr. Nachr., 118, **1888**, 77–78.

—— Beobachtung des Olbers'schen Cometen 1887 V auf seiner Privatsternwarte in Dresden. Astr. Nachr., 118, **1888**, 271–272.

—— [Beobachtungen des Cometen 1888...(Sawerthal).] Am Fadenmikr. des 12-inch Aequ. seiner Privatsternwarte in Dresden. Astr. Nachr., 119, **1888**, 43–44, 79–80.

—— Planeten-Beobachtungen angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals. Astr. Nachr., 119, **1888**, 159–160.

—— Beobachtungen des Cometen 1888 I angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 119, **1888**, 301–304, 347–348.

—— Beobachtungen von Saturnsatelliten angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 119, **1888**, 315–316.

—— [Beobachtungen des Cometen 1888...(Brooks Aug. 7).] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 119, **1888**, 379–380.

—— Sur l'uranolithe tombé en Russie le 4 septembre 1887. Astronomie, **1888**, 75.

—— Total solar eclipse, Aug. 19, 1887. [*Tr.*] Sidereal Messenger, 7, **1888**, 161–164.

—— Notiz zu "Muthmassliche starke Eigenbewegung eines Sterns im Sternhaufen G. C. 440" in A. N. 2777. Astr. Nachr., 120, **1889**, 39–42.

—— [Beobachtungen des Cometen Barnard 1888 Sept. 2.] Auf seiner Privatsternwarte in Dresden. Astr. Nachr., 120, **1889**, 47–48.

—— Beobachtung des Cometen 1889...(Barnard 1888 Sept. 2). Am 12-inch Aequatoreal seiner Sternwarte in Dresden. Astr. Nachr., 120, **1889**, 63–64.

—— Beobachtungen des Cometen 1888 III (Brooks Aug. 7) angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 120, **1889**, 89–90.

—— Beobachtung des Cometen 1889...(Barnard 1888 Sept. 2) angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 120, **1889**, 157–158, 255–256.

—— [Beobachtungen des Cometen 1888 V (Barnard Oct. 30).] Auf der Sternwarte in Dresden. Astr. Nachr., 120, **1889**, 167–168, 221–222.

—— Beobachtungen von Cometen angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 121, **1889**, 235–238; 123, **1890**, 107–110.

—— Beobachtungen des Cometen 1889...(Brooks Juli 6). Auf der Privat-Sternwarte in Dresden. Astr. Nachr., 122, **1889**, 189–190.

—— [Beobachtungen des Cometen 1889...(Davidson).] Auf der Privat-Sternwarte in Dresden. Astr. Nachr., 122, **1889**, 219–220, 253–254.

—— Beobachtung des Cometen 1889...(Brooks July 6) am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 122, **1889**, 301–302.

—— Beobachtungen der Bedeckung von Jupiter durch den Mond 1889 Aug. 7. Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 122, **1889**, 417–418.

—— Ueber die eigene Bewegung des Sterns BB. VI. +25°. 2874. Astr. Nachr., 123, **1890**, 105–108.

—— [Beobachtungen des Cometen Swift 1889 Nov. 16.] Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 123, **1890**, 127–128, 141–142.

—— [Beobachtungen des Cometen 1890...(Borrelly 1889 Dec. 12).] Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 123, **1890**, 283–284.

—— Beobachtungen des Cometen 1889 V (Brooks) am Fadenmikrometer des 12-inch Aequatoreals der Privatsternwarte in Dresden. Astr. Nachr., 124, **1890**, 29–30.

—— [Beobachtungen der Sonnenfinsterniss 1890 Juni 16–17.] Auf der Privatsternwarte in Dresden. Astr. Nachr., 125, **1890**, 37–38.

—— [Beobachtung des Cometen 1890...(Coggia Juli 18).] Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 125, **1890**, 93–94.

—— Beobachtungen des Cometen 1889 II (Brooks März 19) am Fadenmikrometer des 12-inch Aequatoreals der Privatsternwarte in Dresden. Astr. Nachr., 125, **1890**, 121–122.

—— [Beobachtung des Cometen 1890...(Denning Juli 23).] Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 125, **1890**, 219–220.

—— [Beobachtung des Cometen 1890...(Zona Nov. 15).] Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 126, **1891**, 107–108.

—— Beobachtungen von Saturnssatelliten angestellt am Repsold'schen Fadenmikrometer des Grubb'schen 12-inch Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 126, **1891**, 227–228; 129, **1892**, 115–116.

—— Beobachtungen des Planeten (24) Themis am Fadenmikrometer des 12-inch Aequatoreals der Privatsternwarte in Dresden. Astr. Nachr., 126, **1891**, 321–322.

—— Bemerkung zu der Dresdener Beobachtung des Cometen 1890 VII (Spitaler) in A. N. 3011. Astr. Nachr., 126, **1891**, 341–342.

—— Beobachtungen des Cometen 1891...(Barnard-Denning). Am 12-inch Aequatoreal der Privat-Sternwarte in Dresden. Astr. Nachr., 127, **1891**, 77–78.

—— Beobachtung des Cometen 1890 II am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 127, **1891**, 197–198.

—— [Beobachtungen des Mercurdurchgangs 1891 Mai 9.] Auf der Privatsternwarte in Dresden. Astr. Nachr., 127, **1891**, 219–220.
—— Beobachtung der totalen Mondfinsterniss 1891 Mai 23. Astr. Nachr. 127, **1891**, 255–256.
—— Ueber die Eigenbewegung des Sterns BB.VI. + 25°.2874. Astr. Nachr., 128, **1891**, 123–124.
—— Beobachtungen des periodischen Cometen Tempel$_3$-Swift 1891 V am Fadenmikrometer des 12-inch Aequatoreals der Privat-Sternwarte in Dresden. Astr. Nachr., 129, **1892**, 57–60.
—— [Beobachtung des Cometen 1892...(Denning März 18).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 129, **1892**, 311–312.
—— Ueber den neuen Stern in Auriga. Astr. Nachr., 129, **1892**, 363–364.
—— [Beobachtung des Cometen 1892...(Holmes Nov. 6).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 131, **1893**, 209–210, 305–306.
—— Beobachtung des Cometen 1893...(Brooks 1892 Nov. 19). Astr. Nachr., 131, **1893**, 327–328.
—— Beobachtungen des Cometen 1892 I am Fadenmikrometer des 12-inch Aequatoreals der Sternwarte in Dresden. Astr. Nachr., 132, **1893**, 13–14.
—— [Beobachtung des Cometen 1892 III (Holmes).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 132, **1893**, 77–78.
—— [Beobachtung des Cometen 1893...(Rordame-Quénisset).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 133, **1893**, 101–102.
—— Beobachtungen von kleinen Planeten angestellt am Repsold'schen Fadenmikrometer des 12-inch Aequatoreal von Grubb auf der Privatsternwarte in Dresden. Astr. Nachr., 133, **1893**, 251–254.
—— Zur Eigenbewegung des Sterns BD. + 25°. 2874. Astr. Nachr., 134, **1894**, 57–58.
—— Beobachtungen des Cometen 1894...(Denning März 26). Auf der Privatsternwarte in Dresden. Astr. Nachr., 135, **1894**, 149–150.
—— [Beobachtungen des Cometen 1894...(Gale April 1).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 135, **1894**, 275–276.
—— [Beobachtungen des Cometen 1895...(Perrine Nov. 16).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 139, **1896**, 121–122, 127–128, 139–140; 140, **1896**, 45–46.
—— [Beobachtung des Cometen 1895.. (Brooks Nov. 21).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 139, **1896**, 127–128, 143–144.
—— Beobachtung des Cometen 1896...(Perrine-Lamp). Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 139, **1896**, 381–382; 140, **1896**, 27–28, 111–112.
—— Beobachtungen von kleinen Planeten am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 140, **1896**, 111–112.
—— [Beobachtungen des Cometen 1896...(Swift April 13).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 140, **1896**, 271–272.
—— Beobachtungen des Planeten 1896 CS. Astr. Nachr., 141, **1896**, 71–72.
—— Anschlüsse Jupiters an seine Trabanten beobachtet im Jahre 1896 am Repsold'schen Fadenmikrometer des 12-inch Grubb'schen Aequatoreals seiner Privatsternwarte in Dresden. Astr. Nachr., 142, **1897**, 81–84.
—— [Beobachtung des Cometen 1897...(Perrine 1896 Nov. 2).] Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 142, **1897**, 91–92, 143–144.
—— Beobachtungen des Cometen 1896...(Perrine Dec. 8). Am 12-inch Aequatoreal der Privatsternwarte in Dresden. Astr. Nachr., 142, **1897**, 189–190, 271–272.
—— Beobachtungen des Planeten (209) Dido angestellt am Repsold'schen Mikrometer des 12-inch Aequatoreals von Grubb. Astr. Nachr. 142, **1897**, 279–280.

Engelhardt, *B. G.* Notes on the occurrence of stilbite in the eruptive rocks of Jamberoo, N. S. W. [1891.] N. S. Wales Linn. Soc. Proc., 6, **1892**, 5–7.
Engelhardt, *Georg.* Ueber die Einwirkung künstlich erhöhter Temperaturen auf den Verlauf der Staphylomykose. Ztschr. Hyg., 28, **1898**, 239–260.

—— [О кристаллахъ известковаго шпата изъ Устъ-Лекомской волости. Ueber den Calcit von Ustj-Lekomsk.] [1888.] St. Petersb. Min. Ges. Verh., 25, 1889, 353–354; Ztschr. Kryst., 17, 1890, 625.

—— [Демонстрированіе кристалловъ свинцоваго блеска. Ueber Bleiglanzkrystalle.] [1888.] St. Petersb. Min. Ges. Verh., 25, 1889, 361; Neues Jbuch. Min., 1891 (*Bd.* 2, *Ref.*), 11.

—— [Кристаллы граната съ Урала. Granatkrystalle aus dem Ural.] [1888.] St. Petersb. Min. Ges. Verh., 25, 1889, 381; Neues Jbuch. Min., 1891 (*Bd.* 2, *Ref.*), 11.

—— [О нѣкоторыхъ минералахъ изъ южной выработки Николае-Максимиліановской копи. Ueber einige Mineralien aus der Nikolaj-Maximilianowski'schen Grube.] [1888.] St. Petersb. Min. Ges. Verh., 25, 1889, 388–389; Ztschr. Kryst., 17, 1890, 626.

—— [О нѣкоторыхъ весьма оригинальнаго вида минерадьныхъ штуфахъ изъ Еремѣевской копи Златоустовскаго округа на Уралѣ. Sur quelques échantillons minéraux de la mine Jeremejevskaya de la région de Zlatooust dans l'Oural.] [1888.] St. Petersb. Min. Ges. Verh., 25, 1889, 393; St. Pétersb., Com. Géol. Bull., 9, 1890 (*Suppl.*), 78–79.

—— Кристаллы мѣднаго блеска (редрутита или халькозина) изъ Турьинскихъ мѣдныхъ рудниковъ на Уралѣ. [Krystalle des Kupferglanzes (Redruthit oder Chalkosin) aus den Turiinskischen Kupfergruben auf dem Ural.] St. Petersb. Min. Ges. Verh., 25, 1889, 315–325; Neues Jbuch. Min., 1892 (*Bd.* 1, *Ref.*), 37–41.

—— [Везувіанъ изъ Южныя Урала. Vesuvian aus dem südlichen Ural.] [1889.] St. Petersb. Min. Ges. Verh., 26, 1890, 407–408; Ztschr. Kryst., 20, 1892, 1888.

—— [Топазъ изъ Южнаго Урала. Ueber Topase aus dem südlichen Ural.] [1889.] St. Petersb. Min. Ges. Verh., 26, 1890, 410–414; Ztschr. Kryst., 20, 1892, 188.

—— [О ложныхъ кристаллахъ кварца по формѣ известковаго шпата изъ Николаевскаго рудника на Алтаѣ. Pseudomorphose von Quarz nach Kalkspath.] [1889.] St. Petersb. Min. Ges. Verh., 26, 1890, 419; Ztschr. Kryst., 20, 1892, 189.

—— [Брукитъ изъ Атлянской розсыпи на Уралѣ. Ueber den Brookit aus Atljansk im Süd-Ural.] [1889.] St. Petersb. Min. Ges. Verh., 26, 1890, 427–428; Ztschr. Kryst., 20, 1892, 189.

—— [О кристаллѣ алмаза изъ золотоносной розсыпи съ рѣки Серебряной на Уралѣ. Ueber Diamant aus den Goldseifen bei Serebrjanaja im Ural.] [1889.] St. Petersb. Min. Ges. Verh., 26, 1890, 447–450; Ztschr. Kryst., 20, 1892, 189.

—— [О находкѣ кристалловъ линарита въ рудникѣ Бисчекъ, Каркаралинскаго уѣзда, Семипалатинской области. Linarit aus der Grube Bistschek, Kreis Karkaralinsk, Oblastj Sjemipalatinsk.] [1889.] St. Petersb. Min. Ges. Verh., 26, 1890, 460–461; Ztschr. Kryst., 20, 1892, 189.

—— [О кристаллахъ горькой соли (епсомита) изъ

нѣкоторыхъ соленосныхъ озеръ Астраханской губерніи. Sur les cristaux d'epsomite de quelques lacs salifères du gouvernement d'Astrakhan.] [1889.] St. Petersb. Min. Ges. Verh., 26, **1890**, 465–467; St. Pétersb., Com. Géol. Bull., 10, **1891** (*Suppl.*), 89–90.

—— [О кристаллахъ алмаза изъ золотоносныхъ розсыпей въ Бисертской дачѣ на Уралѣ. Ueber die Diamantkrystalle aus den Goldseifen des Bisserstk'schen Bergwerkes (Ural).] [1890.] St Petersb. Min. Ges. Verh., 27, **1891**, 398–399; Ztschr. Kryst., 22, **1894**, 71–72.

—— [О илменорутилѣ изъ Лобачевской копи въ Ильменскихъ горахъ на Уралѣ. Ueber den Ilmenorutil aus der Lobatschewsk'schen Grube (Ilmengebirge, Ural).] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 407–409; Ztschr. Kryst., 22, **1894**, 72.

—— [О весувіанѣ (идокразѣ) изъ Еремѣевской копи. Ueber den Idokras von der Jeremejew'schen Grube, Bez. Slatoust.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 413–414; Ztschr. Kryst., 22, **1894**, 72–73.

—— [О псевдоморфозахъ идокраза по формѣ кристалловъ діопсида изъ Еремѣевской копи, на Долгомъ Мысѣ, въ Златоустовскомъ округѣ. Ueber die Pseudomorphosen von Idokras nach Diopsid von der Jeremejew'schen Grube "Dolgij Myss," Bez. Slatoust.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 420–421; Ztschr. Kryst., 22, **1894**, 73.

—— [О псевдоморфозахъ краснобураго граната по формѣ кристалловъ титанита изъ Еремѣевской копи. Ueber die Pseudomorphosen von rothbraunem Granat nach Titanit von der Jeremejew'schen Grube.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 421–422; Ztschr. Kryst., 22, **1894**, 73.

—— [О свинцовѣ блескѣ и вульфенитѣ изъ серебро-свинцоваго рудника Діана заложеннаго въ одной верстѣ отъ Кизылъ-Эспе въ Семипалатинской области. Ueber den Bleiglanz und den Wulfenit der Blei- und Silbergruben "Diana," Kyslj-Espe, Prov. Semipalatinsk.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 422; Ztschr. Kryst., 22, **1894**, 73.

—— [О кристаллахъ линарита изъ мѣсторожденіяхъ мѣдныхъ рудъ въ Каркаралинскомъ уѣздѣ Семипалатинской области. Ueber die Linaritkrystalle der Kupfergruben, District Karkaralinsk, Prov. Semipalatinsk.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 438–439; Ztschr. Kryst., 22, **1894**, 73.

—— [О кристаллахъ топаза изъ Мурзинки на Уралѣ и изъ Нерчинскаго округа. Ueber die Topaskrystalle von Mursinka im Ural und von Nertschinsk.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 439–440; Ztschr. Kryst., 22, **1894**, 73–74.

—— [О новомъ мѣсторожденіѣ желѣзной слюдки. Ueber eine neue Lagerstätte des Eisenglimmers.] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 440; Ztschr. Kryst., 22, **1894**, 74.

—— [О кристаллѣ эвклаза найденнаго въ Елениской золотоносной розсыпи по рѣчкѣ Каменкѣ, въ Санарской системѣ. Ueber einen Euklaskrystall aus den Eleninsk'schen Goldseifen vom Flüsschen Kamenka (Sanarka-System).] [1890.] St. Petersb. Min. Ges. Verh., 27, **1891**, 451–454; Ztschr. Kryst., 22, **1894**, 74.

—— Астраханитъ (Blödit, Simonyit) изъ самосадочныхъ озеръ Астраханской губерніи. [Astrachanit (Blödit, Simonyit) aus den Salzseen im Astrachanschen Gouvernement.] St. Petersb. Min. Ges. Verh., 28, **1891**, 430–449; Ztschr. Kryst., 23, **1894**, 269–272.

—— [О псевдоморфозахъ магнитнаго желѣзняка по формѣ кристалловъ цейлонита (шпинели) изъ Николае-Максиміліановской копи въ Златоустовскомъ округѣ на Уралѣ. Ueber die Pseudomorphosen von Magneteisen nach Ceylanit (Spinell) von der Nikolaje-Maximilianowskischen Grube, Bez. Slatoust, Ural.] St. Petersb. Min. Ges. Verh., 28, **1891**, 504–505; Ztschr. Kryst., 23, **1894**, 272–273.

—— [О вулфенитѣ изъ серебро-свинцоваго мѣсторожденія Алабуга, Семипалатинской области. Ueber den Wulfenit von den silberführenden Bleiglanzlagerstätten "Alabuga," Prov. Semipalatinsk.] St. Petersb. Min. Ges. Verh., 28, **1891**, 537–540; Ztschr. Kryst., 23, **1894**, 273.

—— [Натечныя скопленія цинковаго шпата изъ копи Таргыль, Семипалатинской области. Ueber hyaline Anhäufungen des Smithsonits ($ZnCo_3$) von der Grube "Targyl," Prov. Semipalatinsk.] St. Petersb. Min. Ges. Verh., 28, **1891**, 540; Ztschr. Kryst. 23, **1894**, 274.

—— [О штуфѣ почковатаго псевдо-малахита изъ Мѣднорудянскаго рудника. Ueber eine Stufe des nierenartigen Pseudomalachits von Mednorudiansk.] St. Petersb. Min. Ges. Verh., 29, **1892**, 174–175; Ztschr. Kryst., 24, **1895**, 500.

—— [О свинцовомъ купоросѣ изъ Николаевскаго рудника на Алтаѣ. Ueber Anglesit aus der Nikolaijewsk Grube im Altai.] St. Petersb. Min. Ges. Verh., 29, **1892**, 193–195; Ztschr. Kryst., 24, **1895**, 500–501.

—— [О вновь найденномъ псевдоморфическомъ измѣненіи арзенолита въ сѣрнистый мышьякъ. Ueber eine neuentdeckte pseudomorphe Umwandlung des Arsenolithes in Realgar.] St. Petersb. Min. Ges. Verh., 29, **1892**, 204; Ztschr. Kryst., 24, **1895**, 501.

—— [Объ одной псевдоморфозѣ бураго желѣзняка съ Урала. Ueber eine Pseudomorphose des Brauneisensteins vom Ural.] St. Petersb. Min. Ges. Verh., 29, **1892**, 221–225; Ztschr. Kryst., 24, **1895**, 501–502.

—— [О бериллахъ изъ д. Мурзинки на Уралѣ. Ueber Berylle von Mursinka im Ural.] St. Petersb. Min. Ges. Verh., 29, **1892**, 230–231; Ztschr. Kryst., 24, **1895**, 502.

—— [О псевдоморфозахъ по кристаллическимъ формамъ эпидота, изъ копей Златоустовскаго округа. Ueber Pseudomorphosen nach den Krystallformen des Epidots aus den Gruben von Slatoust.] St. Petersb. Min. Ges. Verh., 29, **1892**, 239–241; Ztschr. Kryst., 24, **1895**, 502–503.

—— [О псевдоморфозахъ по кристаллической формѣ перовскита. Ueber Pseudomorphosen nach der Krystallform des Perovskits.] St. Petersb. Min. Ges. Verh., 29, **1892**, 248–251; Ztschr. Kryst., 24, **1895**, 503, 504.

—— [О кристаллическомъ мартитѣ изъ горы Улла-Утасе-Тау въ Южномъ Уралѣ. Ueber krystallinischen Martit vom Berge Ulla-Utasse-Tau im Süd-Ural.] St. Petersb. Min. Ges. Verh., 30, **1893**, 436; Ztschr. Kryst., 25, **1896**, 573.

—— [О конкреціяхъ псевдоморфическихъ кристалловъ бураго желѣзняка съ рѣки Уила. Ueber die Concretionen der pseudomorphen Krystallen des Brauneisensteins vom Flusse Uil.] St. Petersb. Min. Ges. Verh., 30, **1893**, 444–445; Ztschr. Kryst., 25, **1896**, 573.

—— [О новомъ законѣ двойниковаго сростанія въ кристаллахъ ортоклаза изъ Лапландіи. Ueber ein neues Zwillingsgesetz an Orthoklaskrystallen aus Lappland.] St. Petersb. Min. Ges. Verh., 30, **1893**, 463–464; Ztschr. Kryst., 25, **1896**, 573.

—— [О вновъ найденномъ алмазѣ изъ Качкарскихъ розсыпей, въ Южномъ Уралѣ. Ueber einen neu entdeckten Diamant aus den Goldwäschen von Katschkar im Süd-Ural.] St. Petersb. Min. Ges. Verh., 30, **1893**, 472–474; Ztschr. Kryst., 25, **1896**, 573.

—— [О кристаллахъ краснаго корунда изъ деревни "Калташи." Ueber die krystallinischen Formen des Korundes aus dem Dorfe Kaltaschi.] St. Petersb. Min. Ges. Verh., 30, **1893**, 478–479; Ztschr. Kryst., 25, **1896**, 573–574.

—— [О новомъ эвклазѣ изъ Санарскихъ розсыпей. Ueber einen neuen Euklas aus den Sanarskischen Goldwäschen.] St. Petersb. Min. Ges. Verh., 30, **1893**, 493–496; St. Pétersb., Com. Géol. Bull., 13, **1895** (*Suppl.*), 64–66.

—— [О кристаллахъ брошантита изъ Мѣднорудянскаго рудника на Уралѣ. Ueber Broschantitkrystalle von Meduorjudiansk im Ural.] St. Petersb. Min. Ges. Verh., 31, **1894**, 352–354; Ztschr. Kryst., 26, **1896**, 332–333.

—— [Объ энгельгардитѣ изъ Модесто-Николаевскаго золотого пріиска, на рѣчкѣ Верхне-Подголечной въ системѣ Верхней Тунгузки. Ueber Engelhardit aus der Modesto-Nicolajewsk Goldwäsche an der Werchne-Podgoletschnaja im System der oberen Tunguska.] St. Petersb. Min. Ges. Verh., 31, **1894**, 362–363; Ztschr. Kryst., 26, **1896**, 333.

—— [О кристаллахъ золота изъ Кремлевскаго золотого рудника, на р. Пышмѣ. Ueber Goldkrystalle aus der Kremlewskischen Grube an der Pyschma.] St. Petersb. Min. Ges. Verh., 31, **1894**, 363–364; Ztschr. Kryst., 26, **1896**, 333.

—— [О псевдоморфическихъ кристаллахъ лейхтенбергита изъ Шишимскихъ горъ на Уралѣ. Ueber pseudomorphe Krystalle des Leuchtenbergits aus dem Schischimsk-Gebirge im Ural.] St. Petersb. Min. Ges. Verh., 31, **1894**, 389–391; Ztschr. Kryst., 26, **1896**, 333.

—— [О псевдоморфозахъ нѣкоторыхъ окисленныхъ и сѣрнистыхъ мѣдныхъ рудъ изъ русскихъ мѣсторожденій. Ueber die Pseudomorphosen einiger Kupferoxyde und Schwefelkupfererze aus russischen Fundorten.] St. Petersb. Min. Ges. Verh., 31, **1894**, 398–400; Ztschr. Kryst., 26, **1896**, 333–334.

—— [О желѣзномъ волчецѣ въ Алтая. Ueber Wolframit vom Altai.] St. Petersb. Min. Ges. Verh., 31, **1894**, 404–405; Ztschr. Kryst., 26, **1896**, 334.

—— [О клинохлорѣ изъ Ахматовской, Николае-Максимиліановской и Еремѣевской минеральныхъ копей. Ueber Klinochlor aus den Gruben Achmatowsk, Nikolai-Maximilianowsk und Jeremejewsk.] St. Petersb. Min. Ges. Verh., 31, **1894**, 417–418; Ztschr. Kryst., 26, **1896**, 334–335.

—— [О лироконитѣ, впервые найденномъ на Уралѣ. Ueber das erste Vorkommen des Lirokonits am Ural.] St. Petersb. Min. Ges. Verh., 31, **1894**, 428–430; Ztschr. Kryst., 26, **1896**, 336.

—— [О находкѣ кристалла алмаза въ Южномъ Уралѣ. Ueber einen neuen Fund von Diamantkrystall im südlichen Ural.] St. Pétersb. Ac. Sci. Bull., 3, **1895**, l–li; Russ. Géol. Min. Annu., 1, **1896–97** (*Sect.* 2), 226.

—— [О стяженіи кристалловъ гипса, найденныхъ въ Закаспійской области въ одномъ барханѣ. Sur des concrétions de cristaux de gypse, trouvés en Transcaspie, dans un barkhane.] St. Pétersb. Ac. Sci. Bull., 3, **1895**, lxii–lxiii; St. Pétersb., Com. Géol. Bull., 15, **1897** (*Suppl.*), 79.

—— О нѣкоторыхъ новыхъ кристаллическихъ формахъ и внутреннемъ строеніи циркона изъ Ильменскихъ горъ и розсыпей Кыштымскаго округа на Уралѣ. [Quelques formes nouvelles des cristaux et la construction intérieure du zircon des monts d'Ilmène et des sables aurifères de Kyschtim dans l'Oural.] St. Pétersb. Ac. Sci. Bull., 3, **1895**, 117–125; St. Pétersb., Com. Géol. Bull., 15, **1897** (*Suppl.*), 77–79.

—— Ueber einige neue Krystallformen und die innere Structur des Zirkon aus dem Ilmengebirge und den Goldseifen des Kyschtimschen Bergreviers im Ural. St. Petersb. Min. Ges. Verh., 33, **1895**, 429–442.

—— [О четырехъ псевдоморфозахъ изъ Уральскихъ мѣсторожденій минераловъ. Ueber vier Pseudomorphosen aus uralschen Fundorten.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 11–13; Ztschr. Kryst., 28, **1897**, 521.

—— [О плоскостяхъ отдѣльности въ кристаллахъ желѣзнаго блеска діопсида и нѣкоторыхъ другихъ минераловъ. Ueber die Absonderungsflächen an Krystallen des Eisenglanzes, Diopsid und einiger anderer Mineralien.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 19–23; Ztschr. Kryst., 28, **1897**, 521–522.

—— [О кристаллахъ берилла изъ Ильменскихъ горъ, изъ окрестностей деревни Мурзинки на Уралѣ и изъ Кухусеркенскаго кряжа въ Нерчинскомъ округѣ. Ueber Beryllkrystalle aus dem Ilmengebirge, der Umgegend von Mursinka am Ural und dem Kuchuserkenskgebirge im Nertschinskischen Bezirk.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 26–29; Ztschr. Kryst., 28, **1897**, 522–523.

—— [О кристаллахъ оловяннаго камня, циркона, граната, амфибола, эпидота, кіанита, ставролита и киновари изъ золотоносной розсыпи по р. Сухой, въ Нерчинскомъ округѣ. Ueber die Krystallformen von Zinnstein, Zirkon, Granat, Amphibol, Epidot, Cyanit, Staurolith und Zinnober aus der Goldseife am Flusse Ssuchaja im Nertschinskischen Bezirk.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 38–39; Ztschr. Kryst., 28, **1897**, 523–524.

—— [О новой находкѣ алмаза въ Южномъ Уралѣ. Ueber einen neu aufgefundenen Diamant aus dem südlichen Ural.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 45–46; Ztschr. Kryst., 28, **1897**, 524.

—— [О псевдоморфозахъ обыкновеннаго бураго желѣзняка и гётита по формамъ кристалловъ различныхъ минераловъ изъ Русскихъ мѣстонахожденій. Ueber Pseudomorphosen des gewöhnlichen Brauneisensteins und Göthits nach den Krystallformen verschiedener Mineralien aus russischen Fundorten.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 51–53; Ztschr. Kryst., 28, **1897**, 524–525.

—— [О кристаллахъ золота изъ области Войска Донского, изъ Монетной дачи на Уралѣ, изъ Одекминскихъ промысловъ и съ р. Суенги, въ Алтайскомъ округѣ. Ueber Goldkrystalle aus dem Gebiet der Donschen Kosaken, des Monetnaja Reviers am Ural, der Olekminskischen Gruben und vom Fluss Ssujenga im Altaischen Kreise.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 60–62; Ztschr. Kryst., 28, **1897**, 525.

—— [О кристаллѣ фторъ-апатита изъ изумрудныхъ копей на Уралѣ. Ueber einen Fluorapatitkrystall aus den Smaragdgruben am Ural.] St. Petersb. Min. Ges. Verh., 33, **1895** (*Prot.*), 65–67; Ztschr. Kryst., 28, **1897**, 525.

—— [О петалитѣ, найденномъ въ Россіи. D'un pétalithe, trouvé en Russie.] St. Pétersb. Ac. Sci. Bull., 5, **1896**, viii–x; Ztschr. Kryst., 31, **1899**, 516.

—— [О результатахъ изслѣдованія эпидота, пренита, граната и авгита съ Кавказа. Ueber die Resultate der Untersuchungen des Epidot, Prehnit, Granat und Augit vom Kaukasus.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 18; Ztschr. Kryst., 30, **1899**, 319–320.

—— [О цеолитахъ изъ Восточной Сибири. Ueber Zeolithe von Ostsibirien.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 25–29; Ztschr. Kryst., 30, **1899**, 320.

—— [О внутреннемъ строеніи нѣкоторыхъ кусковъ литой стали, искуственно полученнаго желѣза и натуральнаго свинцоваго блеска. Ueber die Structur einiger Stücke von Gussstahl, künstlich erhaltenen Eisens und über natürlichen Bleiglanz.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 37–40; Ztschr. Kryst., 30, **1899**, 387.

—— [О кристаллахъ линарита изъ Кара-Оба, въ 130-ти верст. отъ Каркаралинска. Ueber Linaritkrystalle von Kara-Oba, 130 Werst von Karkaralinsk.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 46–48; Ztschr. Kryst., 30, **1899**, 387.

—— [О монстрозитетахъ самородной мѣди и о кристаллахъ борнита и петалита съ Кавказа. Ueber Monstrositäten von gediegenem Kupfer und über Krystalle von Bornit und Petalit aus dem Kaukasus.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 55; Ztschr. Kryst., 30, **1899**, 388.

—— [О двухъ кристаллахъ берилла изъ новаго мѣсторожденія близъ Мангутской Станицы, невдадекѣ отъ Китайской границы. Ueber zwei Berylkrystalle aus einem neuen Fundort bei der Mangut-Stanitza, unweit der chinesischen Grenze.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 58–59; Ztschr. Kryst., 30, **1899**, 388.

—— [О новомъ Уральскомъ алмазѣ изъ платиновыхъ розсыпей, въ Гороблагодатскомъ округѣ. Ueber einen neuen uralschen Diamant aus den Platinseifen im Goroblagodatskischen Bezirk.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 59–60; Ztschr. Kryst., 30, **1899**, 388.

—— [О розовомъ корундѣ изъ дер. Бызовой. Ueber rothen Korund aus dem Dorfe Bysowa.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 62–63.

—— О двойникахъ циркона изъ Кыштымскихъ золотоносныхъ розсыпей. [Ueber Zwillingskrystalle von Zirkon aus den Kyschtymskischen Goldseifen.] St. Petersb. Min. Ges. Verh., 34, **1896** (*Prot.*), 63–65; Ztschr. Kryst., 30, **1899**, 388.

—— [О возможности нахожденія алмазовъ въ слюдяномъ сланцѣ. Sur la possibilité de trouver des diamants dans le micaschiste.] [1896.] St. Pétersb. Ac. Sci. Bull., 6, **1897**, vii–ix; [St. Pétersb., Com. Géol. Bull., 17, **1898** (*Suppl.*)], 101–103.

—— [О нѣкоторыхъ алмазахъ изъ Трансвальскихъ копей. De quelques diamants trouvés dans les mines du Transvaal.] St. Pétersb. Ac. Sci. Bull., 6, **1897**, xxv–xxvi.

—— [О нѣкоторыхъ образцахъ мѣдныхъ рудъ. De quelques échantillons de minerais de cuivre.] St. Pétersb. Ac. Sci. Bull., 6, **1897**, xxxvii–xxxix; Ztschr. Kryst., 31, **1899**, 508.

—— [О нѣкоторыхъ образцахъ арагонита. De quelques échantillons d'arragonite.] St. Pétersb. Ac. Sci. Bull., 7, **1897**, v; Ztschr. Kryst., 31, **1899**, 515.

—— [О стяженіяхъ бураго желѣзняка (лимонита). Sur quelques concrétions de limonite.] St. Pétersb. Ac. Sci. Bull., 7, **1897**, xix–xx, lv–lvi.

—— Объ ауэрбахитѣ и заключающей его горной породѣ. [Ueber Auerbachit und das Gestein, in welchem er verkommt.] St. Pétersb. Ac. Sci. Bull., 7, **1897**, 89–95; Ztschr. Kryst., 31, **1899**, 512–513.

—— [О псевдоморфозѣ известково-глинистаго граната по формѣ везувіана изъ Кыштымскаго округа на Уралѣ. Ueber die Pseudomorphosen des kalk-thonigen Granats, nach der Form des Vesuvians, von Kyschtimsk am Ural.] [1897.] St. Petersb. Min. Ges. Verh., 35, **1898** (*Prot.*), 14–16; Ztschr. Kryst., 31, **1899**, 505–506.

—— Объ алмазахъ изъ Трансваальскихъ копей. [Ueber die Diamanten vom Transvaal.] [1897.] St. Petersb. Min. Ges. Verh., 35, **1898** (*Prot.*), 31–32; Ztschr. Kryst., 31, **1899**, 506.

—— [О крупныхъ экземплярахъ псевдоморфозы, образованной микроклиномъ по формѣ ортоклаза. Ueber grosse Exemplare der Pseudomorphose des Mikroklins nach der Form des Orthoklas.] [1897.] St. Petersb. Min. Ges. Verh., 35, **1898** (*Prot.*), 55–56; Ztschr. Kryst., 31, **1899**, 506–507.

—— [Объ особенностяхъ во внутреннемъ строеніи берилла изъ Уральскихъ мѣсторожденій и съ Алтая. Ueber die Eigenthümlichkeiten in der inneren Structur des Berylls aus den Uralschen Fundorten und vom Altai.] [1897.] St. Petersb. Min. Ges. Verh., 35, **1898** (*Prot.*), 58–60; Ztschr. Kryst., 31, **1899**, 507.

—— [Объ ортитѣ съ береговъ рр. Большой и Малой Быстрой, впадающихъ въ р. Иркутъ. Ueber den Orthit vom Grossen und Kleinen Bystraja, Nebenflüssen des Irkut.] [1897.] St. Petersb. Min. Ges. Verh., 35, **1898** (*Prot.*), 68–70; Ztschr. Kryst., 31, **1899**, 507.

—— [Объ арагонитѣ изъ Киргизской степи, Богословскаго округа и Башартскаго рудника. Ueber Aragonit aus der Kirgisensteppe, vom Hüttenbezirke Bogoslowsk und von der Grube Baschartsk.] [1897.] St. Petersb. Min. Ges. Verh., 35, **1898** (*Prot.*), 75–79; Ztschr. Kryst., 31, **1899**, 507–508.

—— [Изслѣдованія надъ нѣкоторыми экземплярами борта и карбоната изъ провинцій Матто-Гроссо и Багіи въ Бразиліи. Recherches sur quelques exemplaires du bort et du carbonat, provenant de Matto-Grosso et Bahia, provinces du Brésil.] St. Pétersb. Ac. Sci. Bull., 8, **1898**, xxx–xxxii; Ztschr. Kryst., 32, **1900**, 424.

—— [О результатахъ изысканій надъ зернами и обломками зеренъ хризолита (оливина), выдѣлившимися изъ Павлодарскаго метеорита (1885 г.). Recherches sur des grains et fragments de grains de chrysolithe (olivine), détachés du météorite de Pavlodarsk (de 1885).] St. Pétersb. Ac. Sci. Bull., 8, **1898**, xliii–xlv; 9, **1898**, iii–iv; Ztschr. Kryst., 32, **1900**, 424–426.

—— [Результаты наблюденій надъ экземплярамы сростковъ и небольшихъ группъ кристалловъ александрита изъ Урала. Recherches sur quelques concrétions et groupes de cristaux d'alexandrite

de l'Oural.] St. Pétersb. Ac. Sci. Bull., 8, **1898**, lxix–lxxi; Ztschr. Kryst., 32, **1900**, 427.

—— [О вторичной находкѣ кристалла алмаза и самородныхъ металловъ (иридія и осмичтаго иридія) въ одномъ изъ золотоносныхъ пріисковъ Енисейской губерніи. Une seconde trouvaille de cristaux de diamant et de métaux natifs (iridium, iridosmine) dans les sables aurifères du gouvernement d'Iénisseisk.] St. Pétersb. Ac. Sci. Bull., 9, **1898**, xiii–xvii; Ztschr. Kryst., 32, **1900**, 427–428.

—— [О коллекціи цеолитовыхъ минераловъ изъ Исландіи, присланной Г. Ернстомъ. Notice d'une collection de zéolithes d'Islande envoyée par *M.* Ernst.] St. Pétersb. Ac. Sci. Bull., 9, **1898**, lv–lvii; Ztschr. Kryst., 32, **1900**, 428.

—— [О церусситѣ изъ Зыряновскаго рудника на Алтаѣ. Ueber den Zerussit von Zyrjanowsk am Altai.] [1898.] St. Petersb. Min. Ges. Verh., 36, **1899** (*Prot.*), 12–15; Ztschr. Kryst., 32, **1900**, 429.

—— [О Русскихъ бруситахъ. Ueber die russischen Brucite.] [1898.] St. Petersb. Min. Ges. Verh., 36, **1899** (*Prot.*), 19–21; Ztschr. Kryst., 32, **1900**, 430.

—— [О псевдоморфозахъ жировика, змѣевика и эпидота по кристаллическимъ формамъ оливина изъ Шишимскихъ и Назямскихъ горъ на Уралѣ. Ueber die Pseudomorphosen des Steatit, Serpentin und Epidot nach den Krystallformen des Olivins aus dem Schischimsk- und Nasjamsk-Gebirge am Ural.] [1898.] St. Petersb. Min. Ges. Verh., 36, **1899** (*Prot.*), 24–27; Ztschr. Kryst., 32, **1900**, 430–431.

—— [Результаты изслѣдованій мелкихъ алмазовъ изъ Трансвааля. Die Resultate der Untersuchungen kleiner Diamanten vom Transvaal.] [1898.] St. Petersb. Min. Ges. Verh., 36, **1899** (*Prot.*), 34–36; Ztschr. Kryst., 32, **1900**, 431.

—— [О двухъ новыхъ минеральныхъ копяхъ въ Чувашской горѣ, въ Златоустовскомъ округѣ. Ueber zwei neue Mineralgruben im Tschuwasch-Berge des Slatoust-Districts.] [1898.] St. Petersb. Min. Ges. Verh., 36, **1899** (*Prot.*), 43–44; Ztschr. Kryst., 32, **1900**, 431.

—— [О параморфозахъ сѣрнаго колчедана по кристаллическимъ формамъ марказита. Ueber die Paramorphosen des Schwefelkies nach den Krystallformen des Markasit.] [1898.] St. Petersb. Min. Ges. Verh., 36, **1899** (*Prot.*), 47–50; Ztschr. Kryst., 32, **1900**, 431.

—— *Lasur-Oligoklas, Albit und Titanit vom Baikalsee. [*Tr.*] [1873.] [*Posth.*] Ztschr. Kryst., 32, **1900**, 493–496.

—— A large Equisetum from the Hawkesbury Sandstone. [1890.] N. S. Wales Linn. Soc. Proc., 5, **1891**, 445–448.

—— Description of Upper Silurian fossils from the Lilydale Limestone, Upper Yarra district, Victoria. Sydney, Aust. Mus. Records, 1, **1890–91**, 60–67, 125–130.

—— A much thickened variety of Bulimus bivaricosus, *Gaskoin*, from Lord Howe Is. [1891.] Sydney, Aust. Mus. Records, 1, **1890–91**, 130–134.

—— Notes on "rock-shelters," or "gibba-gunyahs," at Deewhy lagoon. [1891.] Sydney, Aust. Mus. Records, 1, **1890–91**, 171–174.

—— On the occurrence of the genus Palæaster in the Upper Silurian rocks of Victoria. [1891.] Sydney, Aust. Mus. Records, 1, **1890–91**, 199–200.

—— The operculate Madreporaria Rugosa of New South Wales. [1891.] Sydney, Aust. Mus. Records, 1, **1890–91**, 201–205.

—— The discovery of the skeleton of a Thylacine in the Jenolan caves. [1892.] N. S. Wales Dept. Mines Rep., **1891**, 269.

—— On the occurrence of the genus Tryplasma, *Lonsdale* (Pholidophyllum, *Lindström*), and another coral apparently referable to Diphyphyllum, *Lonsdale*, in the Upper Silurian and Devonian rocks respectively, of N. S. Wales. [1890.] N. S. Wales Geol. Surv. Records, 2, **1892**, 15–21.

—— On some beautifully-formed stone spear-heads, from Kimberley, north-west Australia. [1890.] N. S. Wales Geol. Surv. Records, 2, **1892**, 61–65.

—— Note on the occurrence of fish-remains in the rocks of the Drummond Range, Central Queensland. [1890.] N. S. Wales Geol. Surv. Records, 2, **1892**, 71–72.

—— Descriptions of two undescribed univalves from the Carboniferous rocks of New South Wales. [1890.] N. S. Wales Geol. Surv. Records, 2, **1892**, 81–83.

—— On the occurrence of microscopic fungi, allied to the genus Palæachlya, *Duncan*, in the Permo-Carboniferous

rocks of N. S. Wales and Queensland. [1891.] N. S. Wales Geol. Surv. Records, 2, **1892**, 95–99.

—— Lepidodendron australe, *M'Coy*. Its synonyms and range in eastern Australia. [1891.] N. S. Wales Geol. Surv. Records, 2, **1892**, 119–134.

—— [Boomerangs.] [1891–98.] N. S. Wales Linn. Soc. Proc., 6, **1892**, 699–702; 7, **1893**, 170–173, 399–402; 8, **1894**, 300–302; 9, **1895**, 193–200; 21, **1896**, 14–22; 22, **1898**, 260–262; 23, **1898**, 701–704.

—— A monograph of the Carboniferous and Permo-Carboniferous Invertebrata of New South Wales. Part I. Cœlenterata. Part II. Echinodermata, Annelida, and Crustacea. N. S. Wales Geol. Surv. Mem. (*Palæont.*), 5 (*Pts.* 1 & 2), **1891–92**, 131 pp.

—— Descriptions of four Madreporaria Rugosa—species of the genera Phillipsastræa, Heliophyllum, and Cyathophyllum—from the Palæozoic rocks of N. S. Wales. N. S. Wales Geol. Surv. Records, 2, **1892**, 165–174.

—— [Note on a decapodous Crustacean, Prosopon Etheridgei, *H. Woodw.*, from the Cretaceous of Queensland, by Henry Woodward.] Appendix. Note on Queensland Cretaceous Crustacea. [1892.] N. S. Wales Linn. Soc. Proc., 7, **1893**, 305–306.

—— On Leaia Mitchelli, *Etheridge, Fil.*, from the Upper Coal Measures of the Newcastle district. [1892.] N. S. Wales Linn. Soc. Proc., 7, **1893**, 307–310.

—— A description of some of the implements and weapons, of the Alligator tribe, Port Essington, north Australia. N. S. Wales Linn. Soc. (*Macleay Mem. Vol.*), **1893**, 228–251.

—— The "mirrn-yong" heaps at the north-west bend of the river Murray. S. Aust. Roy. Soc. Trans., 17, **1893**, 21–24.

—— On further traces of Meiolania in N. S. Wales. [1893.] Sydney, Aust. Mus. Records, 2, **1892–96**, 39–41.

—— Geological and ethnological observations made in the valley of the Wollondilly river, at its junction with the Nattai river, Counties Camden and Westmoreland. [1893.] Sydney, Aust. Mus. Records, 2, **1892–96**, 46–54.

—— On the occurrence of beekite in connection with "fossil organic remains," in N. S. Wales. [1893.] Sydney, Aust. Mus. Records, 2, **1892–96**, 74–76.

—— Hymenocaris Salteri, *M'Coy, m.s.* [1892.] N. S. Wales Geol. Surv. Records, 3, **1894**, 5–8.

—— Notes made at the Kybean caves, parish of Throsby, county of Beresford, in October, 1890, by W. S. Leigh and R. Etheridge, *Junr.* [1892.] N. S. Wales Geol. Surv. Records, 3, **1894**, 21–24.

—— [Idiographica drawings and carvings of the aborigines.] [1892–96.] N. S. Wales Geol. Surv. Records, 3, **1894**, 33–37, 80–85.

—— The caves at Goodravale, Goodradigbee river. [1892.] N. S. Wales Geol. Surv. Records, 3, **1894**, 37–44.

—— The Pentameridæ of New South Wales. [1892.] N. S. Wales Geol. Surv. Records, 3, **1894**, 49–60.

—— Report on a visit to the Narrangullen, or Cavan Cave, Taemas, Murrumbidgee river. [1892.] N. S. Wales Geol. Surv. Records, 3, **1894**, 68–70.

—— On the occurrence of a plant, allied to Schizoneura, in the Hawkesbury Sandstone. [1893.] N. S. Wales Geol. Surv. Records, 3, **1894**, 74–77.

—— The Australian geological record for the year 1891. [1893.] N. S. Wales Geol. Surv. Records, 3, **1894**, 86–109.

—— On the occurrence of Trigonia semiundulata, *McCoy*, in New South Wales, and its significance. [1893.] N. S. Wales Geol. Surv. Records, 3, **1894**, 115–117.

—— Note on an aboriginal skull from a cave at Bungonia. [1893.] N. S. Wales Geol. Surv. Records, 3, **1894**, 128–132.

—— An operculum from the Lilydale Limestone. [1893.] Victoria Roy. Soc. Proc., 6, **1894**, 150–155.

—— The largest Australian trilobite hitherto discovered. [1893.] Victoria Roy. Soc. Proc., 6, **1894**, 189–194.

—— On the mode of attachment of the leaves or fronds to the caudex in Glossopteris; with remarks on the relation of the genus to its allies. [1894.] N. S. Wales Linn. Soc. Proc., 9, **1895**, 228–249, 257–258.

—— On five interesting shields from northern Queensland, with an enumeration of the figured types of Australian shields. [1894.] N. S. Wales Linn. Soc. Proc., 9, **1895**, 506–517.

—— Additional notes on the palæontology of Queensland. Part I. Palæozoic. [1894.] N. S. Wales Linn. Soc. Proc., 9, **1895**, 518–539.

—— The kūditcha shoes of Central Australia. [1894.] N. S. Wales Linn. Soc. Proc., 9, **1895**, 544–550.

—— Contributions to a catalogue of works, reports, and papers on the anthropology, ethnology, and geological history of the Australian and Tasmanian aborigines. N. S. Wales Geol. Surv. Mem. (*Palæont.*), 8, [**1895**], vii + 31 + vii + 49 + vii + 40 pp.

—— Additional plant remains from the Leigh Creek coal-field, central Australia. S. Aust. Roy. Soc. Trans., 19, **1895**, 138–145.

—— Description of a proposed new genus of rugose coral (Mucophyllum). [1894.] N. S. Wales Geol. Surv. Records, 4, **1896**, 11–18.

—— On the occurrence of a Pteronites (P. Pittmani, *sp. nov.*) in the Spirifer Sandstone of Warrawang, or Mount Lambie, near Rydal. [1894.] N. S. Wales Geol. Surv. Records, 4, **1896**, 28–29.

—— Palæontologia Novæ Cambriæ Meridionalis. Occasional descriptions of New South Wales fossils, [Nos. 1–3]. [1894–98.] N. S. Wales Geol. Surv. Records, 4, **1896**, 32–37; 5, **1898**, 14–18, 175–179.

—— On the occurrence of an Oleandridium in the Hawkesbury Sandstone series. [1894.] N. S. Wales Geol. Surv. Records, 4, **1896**, 49–51.

—— On the occurrence of a Stromatoporoid allied to Labechia and Rosenella, in the Siluro-Devonian rocks of N. S. Wales. [1895.] N. S. Wales Geol. Surv. Records, 4, **1896**, 134–140.

—— On the occurrence of a plant in the Newcastle or Upper Coal-Measures possessing characters both of the genera Phyllotheca, *Brong.*, and Cingularia, *Weiss.* [1895.] N. S. Wales Geol. Surv. Records, 4, **1896**, 148–154.

—— An undescribed coral from the Wellington Limestone, N. S. Wales. [1895.] N. S. Wales Geol. Surv. Records, 4, **1896**, 160–162.

—— Evidence of the existence of a Cambrian fauna in Victoria. [1895.] Victoria Roy. Soc. Proc., 8, **1896**, 52–64.

—— Description of a small collection of Tasmanian Silurian fossils presented to the Australian Museum by Mr. A. Montgomery, M.A., Government Geologist, Tasmania. Tasmania Roy. Soc. Proc., **1896**, 29–46.

—— On circular and spiral incised ornament on Australian aboriginal implements and weapons. [1897.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 1–6.

—— [Spears with incised ornament.] [1897–1900.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 6–7, 176–177.

—— An Actinoceras from north-west Australia. [1897.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 7–9.

—— The discovery of bones at Cunningham Creek, near Harden, N. S. Wales. [1897.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 9–10.

—— An Australian Sauropterygian (Cimoliosaurus) converted into precious opal. [1897.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 19–29.

—— On the occurrence of the genus Columnaria in the Upper Silurian rocks of New South Wales. [1897.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 30–33.

—— On a precaudal vertebra of Ichthyosaurus australis, *McCoy*. [1897.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 66–68.

—— The generic relations of Spirifera exsuperans, *De Koninck*. [1897.] N. S. Wales Geol. Surv. Records, 5, **1898**, 43–48.

—— On the occurrence of the genus Chelodes, *Davidson and King*, in the Upper Silurian of New South Wales. [1897.] N. S. Wales Geol. Surv. Records, 5, **1898**, 67–70.

—— A further Cambrian Trilobite from York Peninsula. [1897.] S. Aust. Roy. Soc. Trans., 22, **1898**, 1–3.

—— A new form of Syringopora, allied to Syringopora tabulata, *Van Cleve*. N. S. Wales Geol. Surv. Records, 5, **1898**, 149–153.

—— New or little known Lower Palæozoic Gasteropoda in the collection of the Australian Museum. [1898.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 71–77.

—— Halysites in New South Wales. [1898.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 78–80.

—— On two additional perforating bodies, believed to be thallophytic cryptogams, from the Lower Palaeozoic rocks of N. S. Wales. [1899.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 121–127.

—— On the occurrence of a starfish in the Upper Silurian series of Bowning, N. S. Wales. [1899.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 128–129.

—— On a fern (Blechnoxylon talbragarense), with secondary wood, forming a new genus, from the Coal Measures of the Talbragar district, New South Wales. [1899.] Sydney, Aust. Mus. Records, 3, **1897–1900**, 135–147.

Fittbogen, *J.,* & **Niederhäuser,** *E.* Vergleichende Anbauversuche mit Rothkleesaat schlesischer und amerikanischer Abstammung. Landw. Jbüch., 16, **1887,** 763–769.

Fittbogen, *J.,* & **Schiller,** *Rud.* Ueber den Einfluss des Abblattens der Runkelrübenpflanze auf die Grösse und Zusammensetzung der Erntemasse. Landw. Jbüch., 16, **1887,** 770–776.

—— Bestimmung der Trockengewichtszunahme der Futterrunkelpflanze. Landw. Jbüch., 16, **1887,** 777–778.

Fittbogen, *J.,* **Schiller,** *Rud.,* & **Foerster,** *Otto.* Ueber den Einfluss des Calciumsulfids auf die Entwickelung der Gerstenpflanze. Landw. Jbüch., 13, **1884,** 755–766.

Fitte, *L.* Sur les résistances qu'éprouve une surface mobile de la part d'un milieu fluide dans lequel elle se meut. Paris, École Norm. Ann., 10, **1893,** 315–318.

Fitte, (*lt.*) *P.* Projet de signaux de route de brume et de nuit. Rev. Maritime et Colon., 118, **1893,** 547–554.

Fittica, *F[riedrich Bernhard].* *Ueber einen neuen Nitrobenzaldehyd. Deutsch. Natf. Ber., **1877,** 139.

—— *Ueber ein neues Mononitrophenol. Deutsch. Natf. Tagebl., **1879,** 187.

—— Ueber das vierte Monobromphenol (Entgegnung) und vorläufige Mittheilung über ein zweites Monobrombenzol. Berlin, Chem. Ges. Ber., 19, **1886,** 2632–2634.

—— Ueber das zweite Monobrombenzol. [Entgegnung.] Berlin, Chem. Ges. Ber., 23, **1890,** 1398–1400.

—— Ueber die Umwandlung von Phosphor in Arsen. Chem. Ztg., 24, **1900,** 483–484.

—— Ueber die Umwandlung von Phosphor in Arsen (Entgegnung) und Antimon (vorläufige Mittheilung). Chem. Ztg., 24, **1900,** 561–562.

—— Ueber die Umwandlung von Phosphor in Antimon. Chem. Ztg., 24, **1900,** 991–992.

—— Ueber schwarzen Phosphor und die Umwandlung von Phosphor in Arsen. Leopoldina, 36, **1900,** 40–42.

—— La transmutation des métalloïdes. Le phosphore transformé en arsenic. Rev. Sci., 13, **1900,** 807–808.

Fittig, *Rudolph.* To reference in No. 49 (*Vol.* 7) *add* Deutsch. Natf. Tagebl., **1868,** 151.

—— *[Ueber Chinone.] Deutsch. Natf. Tagebl., **1873,** 107–108.

—— Zur Kenntniss der Lactone. Berlin, Chem. Ges. Ber., 17, **1884**, 201–203.
—— Ueber Condensationsprodukte der Lactone. Berlin, Chem. Ges. Ber., 17, **1884**, 3012–3014.
—— Ueber Lactone und Lactonsäuren. Liebig's Ann., 226, **1884**, 322–376; 227, **1885**, 1–96.
—— Ueber die Condensation der Aldehyde mit zweibasischen Säuren. Berlin, Chem. Ges. Ber., 18, **1885**, 2523–2525; Deutsch. Natf. Tagebl., **1885**, 359–361.
—— Condensation von Acetessigäther mit zweibasischen Säuren. Berlin, Chem. Ges. Ber., 18, **1885**, 2526–2527; Deutsch. Natf. Tagebl., **1885**, 361.
—— Ueber die Constitution der Carbopyrotritarsäure und der Pyrotritarsäure. Berlin, Chem. Ges. Ber., 18, **1885**, 3410–3413.
—— Constitution der Vinaconsäure. Liebig's Ann., 227, **1885**, 25–31.
—— Beiträge zur Kenntniss der Perkin'schen Reaction. Liebig's Ann., 227, **1885**, 48–53.
—— Ueber Lactone, Lactonsäuren und verwandte Körper. Berlin, Chem. Ges. Ber., 20, **1887**, 3179–3185.
—— Ueber das Verhalten der ungesättigten Säuren bei vorsichtiger Oxydation. Berlin, Chem. Ges. Ber., 21, **1888**, 919–921.
—— Ueber die Oxydation ungesättigter Säuren. Berlin, Chem. Ges. Ber., 21, **1888**, 1878–1880.
—— Ueber die Condensation von β-Ketonsäure-Estern mit zweibasischen Säuren. Liebig's Ann., 250, **1889**, 166–223.
—— Ueber Lactonsäuren, Lactone und ungesättigte Säuren. Liebig's Ann., 255, **1889**, 1–144, 257–309; 256, **1890**, 50–159, 345; 267, **1892**, 186–218; 268, **1892**, 1–129, 349; 269, **1892**, 1–14.
—— Ueber die Einwirkung von Brom auf die Angelicasäure und Maleïnsäure. Liebig's Ann., 259, **1890**, 1–40.
—— Ueber Umlagerungen bei den ungesättigten Säuren. Berlin, Chem. Ges. Ber., 24, **1891**, 82–87; 26, **1893**, 40–49.
—— Ueber die Constitution der ungesättigten Säuren, welche durch Kochen mit Natronlauge aus den $\beta\gamma$ ungesättigten Säuren entstehen. Berlin, Chem. Ges. Ber., 26, **1893**, 2079–2081.
—— Ueber die Aticonsäuren, neue Isomere der Ita-, Citra- und Mesaconsäuren. Berlin, Chem. Ges. Ber., 26, **1893**, 2082–2083.
—— Bemerkungen zu der Abhandlung von Joh. Wislicenus, "Ueber die Bromadditionsproducte der Angelicasäure und Tiglinsäure" (diese Annalen 272, 1). Liebig's Ann., 273, **1893**, 127–132.
—— Ueber ungesättigte Säuren. Berlin, Chem. Ges. Ber., 27, **1894**, 2658–2683.
—— Condensation von Aldehyden mit der Glutarsäure. Liebig's Ann., 282, **1894**, 334–362.
—— Ueber Umlagerungen bei den ungesättigten Säuren. Liebig's Ann., 283, **1894**, 47–148, 269–341; 299, **1898**, 1–49; 300, **1898**, 359; 303, **1898**, 165–183; 304, **1899**, 117–339; 305, **1899**, 1–63; 308, **1899**, 344.
—— Umlagerungen bei den ungesättigten Säuren. Ueber die sogenannte Phenyloxycrotonsäure. Berlin, Chem. Ges. Ber., 28, **1895**, 1724–1725.
—— Umlagerungen bei den ungesättigten Säuren. Ueber die Isomeren der Pyrocinchonsäure. Berlin, Chem. Ges. Ber., 29, **1896**, 1842–1843.
—— Ueber die Umwandlung ungesättigter α-Oxysäuren in die isomeren γ-Ketonsäuren. Berlin, Chem. Ges. Ber., 29, **1896**, 2582–2584.
—— Einwirkung von Säureanhydriden auf Säuren und deren Salze. Bildung von Ketodilactonen, Ketonsäuren und Ketonen. Berlin, Chem. Ges. Ber., 30, **1897**, 2145–2150.
—— Ueber isomere Phenylparaconsäuren. Berlin, Chem. Ges. Ber., 33, **1900**, 1294–1295.
—— Bildung von Oxalessigsäure bei der Oxydation mit übermangansaurem Kalium in alkalischer Lösung. Berlin, Chem. Ges. Ber., 33, **1900**, 1295–1296.
—— Ueber die Polymere Phenylisocrotonsäure. Berlin, Chem. Ges. Ber., 33, **1900**, 3519–3521.
Fittig, *Rudolph*, & **Daimler,** *Carl.* Ueber die Einwirkung von Chloressigsäureäther und Zink auf Oxaläther. Berlin, Chem. Ges. Ber., 20, **1887**, 202–203.
Fittig, *Rudolph*, & **Erdmann,** *Hugo.* Synthese des α-Naphtols. Liebig's Ann., 227, **1885**, 242–247.
Fittig, *Rudolph*, & **Erlenbach,** *Arnold.* Ueber die Einwirkung von Natrium auf Monochloressigsäure-Aethyläther. Berlin, Chem. Ges. Ber., 21, **1888**, 2138–2140, 2647–2650.
Fittig, *Rudolph*, & **Hantzsch,** *Arthur* [*Rudolf*]. Ueber die Identität der Methronsäure und der Sylvancarbonessigsäure. Berlin, Chem. Ges. Ber., 21, **1888**, 3189–3190.
Fittig, *Rudolph*, & **Levy,** *Siegmund.* [Ueber Lactonsäuren, Lactone und ungesättigte Säuren. II.] (5) Terpenylsäure-Aethylester. Liebig's Ann., 256, **1890**, 109–126.
See also **Levy & Fittig.**
Fittig, *Rudolph*, & **Marburg,** *Richard.* Notiz über die Vinaconsäure. Berlin, Chem. Ges. Ber., 18, **1885**, 3413–3414.
Fittig, *Rudolph*, & **Parker,** *J. Gordon.* Ueber die Condensation von Ketonsäuren mit zweibasischen Säuren. Berlin, Chem. Ges. Ber., 22, **1889**, 2104–2106; 23, **1890**, 1535–1536.
Fittig, *Rudolph*, & **Petkow,** *Nicolaus.* [Ueber Umlagerungen bei den ungesättigten Säuren.] v. Ueber die Dimethylaticonsäure. Liebig's Ann., 304, **1899**, 208–240.
Fittig, *Rudolph*, & **Rühlmann,** *Moritz.* *See* **Rühlmann & Fittig.**
Fittig, *Rudolph*, & **Schloesser,** *Augustus.* Ueber die Condensation von Benzoylessigäther mit Bernsteinsäure. Berlin, Chem. Ges. Ber., 21, **1888**, 2133–2137.
Fittig, *Rudolph*, & **Wolff,** *Adolf.* Ueber die Isopropylglutolactonsäure und die Constitution der Terpenylsäure. Liebig's Ann., 288, **1895**, 176–191.
Fittig, *Rudolph*, **Daimler,** *Carl*, & **Keller,** *Harry F*[*rederick*]. Ueber die Diacetyldicarbonsäure (Ketipinsäure) und das Diacetyl. Liebig's Ann., 249, **1888**, 182–214.
