 CEYLON RUBBER.—No auction sales this week; but the market keeps quiet and lower. Fine Ceylon now 3s 11d to 4s.
 CEYLON PLUMBAGO.—No public sales this week, tone quiet.
 CEYLON COCONUT OIL—easier, c. i. f. done at £25 10s. Spot £28 to £28 15s.
 CEYLON COFFEE.—The opinion is the heavy decline is over and the corner turned.
 CEYLON COTTON—is hadly wanted and would fetch 4 5-16d to 8½d per lb according to length of staple and quality. Tinnivelly fetches 4½d on spot for "good." As America is now apparently unable to properly feed Lancashire with Cotton, India should ship freely to Liverpool and London—2d to 3d per lb advance is talked of as likely.

MINCING LANE CEYLON PRODUCE.

27th February, 6 p.m.

Most markets past week keep dull, CEYLON CINCHONA BARK—is dearer. CEYLON COCONUT OIL—easier, only buyers at £24 15s for shipment. Not £27 7s 6d.

CEYLON COTTON—wanted in Europe. Markets excited. Prices would fetch 4½d to 8½d. American new crop acreage same. but fertilisers 10 per cent increase. This crop 10½ to 11½ and next 10 to 12 millions.

CEYLON QUININE—strong at 1/1½ sellers per oz. CEYLON PLUMBAGO.—No sales last 3 weeks, therefore the market keeps featureless and dullness reigns.

CEYLON COFFEE—Experts expect prices to rise next few months.

CEYLON COCOA—stronger, but we could not safely report any change in price, 500 bags sold privately at firm rates. Sugar has a firm tone.

CEYLON NUTMEGS—95's fair with a few rather dark fetched 1s 2d.

CEYLON RUBBER—sales fetched quiet steady prices 3/10 to 4/2. The Liverpool failure has rather upset the market and those hit. Good clean quality is in demand, and should be freely shipped to London.

CEYLON COTTON.—From Ceylon and Tuticorin, 8th Feb., via Bombay 400 bales cotton sent to England.

MINING LANE CEYLON PRODUCE.

5 p.m., 6th March, 1933.

All Ceylon Produce keeps steady quiet.

CEYLON CINNAMON—latest values for assortment S 1/2 to 8 1/2 c. i. f. terms, but sellers cautions thereat.

CEYLON COCOA—very steady. Sales Ceylon about 1520 bags.

CEYLON PLUMBAGO—quiet from 3/ to 51/.

CEYLON RUBBER—Fine, 4/1 to 4/3; scrab clean 2/10 to 3/5.

CEYLON PEPPER—fair. Ceylon sold at 9d and rather darkish 8 1/2d. Sugar should be firmer and should be bought in flat markets; also Coffee, Cotton should be sold up.

The general state of trade is quiet in England, but in America things there have been booming, and the accounts read like fairy tales, and the prospects there for balance of the year, good.

GOLD IN CEYLON.—In Old Moore's Loudon Almanack and in his predictions for April he writes:—"The public will, about now, receive news of a wonderful find of gold and precious stones in Ceylon. A great rush will take place, but few seekers after fortune will be lucky enough to obtain a paying claim."

MINCING LANE CEYLON PRODUCE MARKETS.

For Week ending 5 p.m., 13th March, 1903.

CEYLON PRODUCE generally keeps quiet, but Ceylon Rubber is active and dearer and Ceylon coir.

CEYLON COCOA sold irregularly, 1,400 bags sold, fine 80s to 88s.

CEYLON PEPPER small parcel 51 bags, good Ceylon fetched 6d.

CEYLON NUTMEGS 4 packages sold, Ceylon 98's uneven and some rather darkish 1s 2d to 1s 3d.

CEYLON COFFEE is steady and prices likely to be dearer.

SUGAR is uncertain.

COTTON is quieter from a Manchester point of view. American crop is 11 to 11,300,000. Consumption 10,900,000. Indian Supply 400,000 greater from Ceylon and Tuticorin 1,000 are at sea via Bombay. F G F spot tinys 4½d and 4½d c i f to Liverpool. Increase in next American crop with fertilizers and acreage about same. So next crop might be 10 to 12½ millions. Trade in England is quieter and one or two failures reported.

CEYLON PLUMBAGO quiet and unchanged from last report.

CEYLON RUBBER 25 packages sold well. Fine Para 8s.10d to 4s 2½d. Scrappy lots sold at 3s 0½d to 3s 4½d per lb.

COIR CEYLON fine dearer, values common to inferior £15 to £30.

CEYLON PRODUCE OUTLOOK.

London, 20th March,

Your Ceylon markets keep extremely quiet this end,

bar Ceylon cocoa which sold very well.

COTTON—is also active, but trade in England declining.

CEYLON CARDAMOMS—112 cases sold Mysore. Ceylon extra bold pale brown 2s 6d to 2s 9d.

CEYLON GINGER—should pay to ship here.

CEYLON COCONUT—dull at £26 10s, and for shipment dull at £24 to £24 5s c.i.f. terms.

CEYLON COCOA—1,300 bags sold, and some privately Fine 85s to 92s 6d; Native 49s to 51s.

CEYLON COFFEE—firm tone, and higher prices expected from May to December.

CEYLON COTTON—dearer "F G F" Tinnivelly 49/16 c.i.f. Spot good 5d F G F 4½d. Manchester quieter no short time. This crop looks American 10,990,000 bales maximum—supplies to Liverpool until 28th August look brighter. Bulls talk 6d per lb.

No SALES OF PLUMBAGO OR RUBBER—this week, but shippers of Ceylon Rubber will do well to blaze away shipping all they can as the demand here privately and publicly is neat—and the future looks very bright.

WEEKLY LONDON REVIEW OF CEYLON PRODUCE FOR WEEK ENDING 27TH MARCH (5 P.M.), 1903.

CEYLON MARKETS—remain generally very quiet. CEYLON CINNAMON CHIPS—lower. 200 bags fetched 2½d for fully fair quality.

CEYLON COCONUT OIL—quiet dull. For shipment business done at £24 5s c.i.f. and we close thereat. Spot slow at £26 10s.

CEYLON COCOA—quiet, steady sales. 2,300 bags Fine 85s to 90s.

CEYLON OR TUTICORIN COTTON—quieter. Manchester poor. Liverpool good. Spinning Cotton scarce and a squeeze about August not unlikely. New crop planting 3 to 4 weeks late.

CEYLON COFFEE—firm in tone. Supplies poor. Demand great.

CEYLON PRODUCE FOR WEEK ENDING

17TH APRIL, 1903.

CEYLON COCONUT OIL spot slow £26 10s, c if £24 7s 6d at 10s sellers.

CEYLON TINNIVELY f g f old 4 9-16d, new 4½d per lb. Manchester steady. This American crop 11 millions, next acreage same, but fertilisers you can count on 9 per cent. increase. Bears expect Americans to see 4d in November-December, but if bad weather 7d per lb. Messrs. Ralli Bros. have given up dealing in American Cotton and yet the shares of the Liverpool Cotton Association have lately risen considerably.

From Ceylon and Tuticorin 400 bales Cotton at sea, for Liverpool, and 1208 bales for Continent. Stock in Liverpool and London about nil.

CEYLON COFFEE firm Santos May 25s 9d, December 27s 9d. Some talk of seeing the record lowest again viz. 24s 9d, but Coffee looks a purchase in flat markets. CEYLON RUBBER sold today splendidly 4s 2½d to 4s 2¾d and at 4s 3d ; tone good ; tendency upwards.

CEYLON COIR—demand poor ; tendency downwards. Ballots, however, in fair request ; prices uneven ; tendency in favour of sellers.

NEXT AUCTIONS 23rd April, 1903.

CEYLON PRODUCE FOR WEEK ENDING

24th April;

Ceylon markets during past week have been generally quiet.

CEYLON COCOA.—About 1,000 Ceylon bags sold, dull to fair red 55s to 64s. Stock 87,156.

CEYLON CINNAMON CHIPS—steady firm; 110 sold at 2½d spot.

CEYLON COCONUT OIL—very dull at £26 10s and shipment much lower £23 10s to 12/6 c i f.

CEYLON COFFEE—should be bought and no notice taken of the statistics. Good Ceylon coffee should be freely shipped to England. Santos coffee March is 27/10½, a low out.

CEYLON TEA.—We hear of complaints from Brokers of Ceylon Tea not keeping, which is very serious. Samples have been valued in the Lane and then sealed up and valued again 3 months after and the quality quite altered! Good quality is wanted here badly.

CEYLON COTTON—Tinnevelly f g f 4 15/32. Manchester tone poor. This crop American is 11 to 11,300,000 bales. Consumption on the Continent is estimated by Mr Ellison at 96,000 bales per week all sorts, and which includes, of course, Indian cotton. Rhodesian cotton here is valued about 7d per lb.

BANK RATE—4 per cent tone firm thereat.

No Ceylon Rubber or Plumbago sales this week, but the former keeps firm in tone and the latter dull.

OF CEYLON GINGER we have a favourable opinion.

COFFEE.—May Santos touched 25/1½ today.

CEYLON COIR YARN—had no attention and chiefly taken out, ballots being most uneven and favouring buyers in price. Ceylon Mattress fetched 100s to 115s.

CEYLON and TINNEVELLY COTTON—at sea 400 bales to Liverpool. New April-May Tinnevelly f g f 4 15/32 done, and March at 4½ per lb.

SILVER—closes 24½d, Tone stronger.

ROPE.—Colls: green, M 2, 3½, 2¾, £16 10s 2d, £17 15s.

CEYLON YARN—Bales: C & S in estate, mark S, 5, £17 5s; ditto B 2, £17 5s; ditto L 1, £18. Ballots: R 1, £19, ditto 2, £17 ditto 3, £15 10s; ditto 4, £15 10s; H Black, £17; O ditto £15 15s; S ditto £15. Dholls: O 1 string, £16

CEYLON PRODUCE FOR WEEK ENDING

8th May, 1903.

The Bank Rate is 4 per cent and firm thereat. The markets in the Lane are still quiet, but the feeling is better.

COFFEE, PEPPER and COTTON are dearer.

CEYLON COFFEE—59s to 116s. Native 40s to 51s. Stock 669 against 605 last year. The bears talk of 20s for Santos and which is now 27s for March delivery, but the other side say buy in flat markets to which we learn in spite of the figures.

CEYLON CINCHONA BARK.—2½d to 7d per lb.

CEYLON CARDAMOMS—9d to 9½d per lb.

CEYLON COCOA 50s to 88s 6d demand irregular.

CEYLON RUBBER 3s 3d to 4s 3d. Market strong Supply poor, and badly wanted.

CEYLON ORCHELLA WEED 10s to 13s per cwt.

PLUMBAGO keeps quiet 4s to 34s 6d.

CEYLON COTTON badly wanted. Next American Cotton crop is likely to be injured again by the Mexican Weevil and should help Indian growers of the raw material. Acreage looks the same and fertilisers 11 per cent increase. As America is unable to supply seemingly Lancashire with raw cotton—the only good part left in India: sorts required are white color and staple as long as possible. West Indian Cotton is worth 5½d to 6½d and is a good staple. Africa is too hot to supply big crops. Russia mops up the Asian crop and Persian cotton not liked. The colour of Broach—Tinnevelly, Salems are what is wanted by Europe.

CEYLON PEPPER good fair 9½d done.
