Check List
of
New Plant Introductions

Ready to be Tested by Cooperators,
1917-18.

To be checked and returned to the Office of Foreign Seed
and Plant Introduction, Department of Agriculture,
Washington, D. C.

Please read the statement on the reverse of this page;
then carefully check the plants desired in the list fol-
lowing, and return it promptly in the accompanying franked
envelope. It will aid this Office in its distribution work
if each experimenter will fill out the form below, and
make no other notes or requests on the check list itself.

Give here your permanent address for letters:

Name of experimenter:.....
P. O. Box,
R. F. D. No.,
Street and No.,.....

Post Office,.....State,.....

Do you wish plant material sent to the above address?.....
If not, fill out the following *mail address* for plant ma-
terial.

Name of person who will receive plants,.....

P. O. Box.
R. F. D. No.,
Street and No.,.....

Post Office,.....State,.....

Are you willing to pay expressage on the plants which you
request?..... If so, give the Express Office to which
you wish the plants shipped.

Express Office,.....

SPECIAL NOTICE.

Owing to the fact that the Seventh issue of NEW PLANT INTRODUCTIONS had to be prepared for the printer in July, it has been unavoidable to include in it a number of descriptions of plants which later have been found unsuitable for distribution this year. This CHECK LIST, prepared in November, however, represents plants which will be distributed this season.

This statement is made to explain the fact that names and descriptions appear in the NEW PLANT INTRODUCTIONS, 1917-18, which do not appear in the CHECK LIST. On the other hand, as explained on page 4 of NEW PLANT INTRODUCTIONS, the names of many plants are given in the CHECK LIST which are not described in the former.

Unless directed not to do so we will substitute certain of these listed but not described plants for others which are requested and which we cannot for one reason or another supply.

The Postal Regulations make it *unlawful* for this Office to send under Government frank from any one of our Plant Introduction Field Stations, to any one person more than a *single four pound package* of plants at one time.

Applicants must keep this in mind and *if they desire more than a four-pound package of plants must indicate their willingness to pay expressage* on the plants they request.

Owing to the great congestion in express traffic, plants will be shipped from the Field Station nearest the applicant's place of residence. The plants marked Y are grown and will be shipped, from the Field Station in Maryland, those marked B from the West Florida Station, those marked C from Northern California, and those marked M from Southern Florida. The figures preceding the initials indicate the number of plants which will be distributed this season.

CHECK LIST.
