INTRODUCTION.

THE present work has been compiled in a brief and handy form—1st, for the purpose of furnishing a list of the plants now in cultivation, with a view to interchange ; and, 2nd, as a book of reference for the proper labelling of plants in the establishment.

The botanical and vernacular name of each plant is given, with authority for same, the order to which it belongs, together with the habitat where known to us ; stating also whether it be tree, shrub, climber, herbaceous, &c.

It is undoubtedly necessary to give every plant a vernacular name where such *can* be done ; but in undertaking this task many difficulties have been encountered. The general practice of giving common names has, in many instances, resulted in the bestowal of appellations which are very wide of the mark as regards botanical nomenclature ; in some cases the misnomers are ludicrous on account of their inapplicability. Yet some of these names have become so widely known and extensively used that any attempt to set them right without detailed explanations (impossible in this catalogue), would, I fear, cause matters to become very seriously complicated.

As a few instances of the misapplications just mentioned, the following may be adduced :—Tamarisk (Flowering Cypress) ; Aucuba japonica (Spotted Laurel) ; Cistus (Rock Rose) ; Scilla peruviana (Cuban Lily) ; Nerine Sarniensis (Guernsey Lily) ; Gardenia florida (Cape Jasmine) ; Agave americana (American Aloe), &c., &c.

Again, many botanical names have become such household words as to need no explanation. Such are the Fuchsia, Calceolaria, Petunia, Verbena, Magnolia, Rhododendron, Azalea, Anemone, Daphne, Hydrangea, Camellia, Ixia, Iris, Gladiolus, Heliotrope, Araucaria, Arbutus, Erica, Epacris, Lobelia, Geranium, Pelargonium, and hosts of others.

An exhaustive work is in course of preparation which will embody a summary of each order, with the history, properties, and uses of its more remarkable plants.

An opportunity will thus also be afforded of correcting the errors just mentioned, and others which may have crept into the present edition. This book will be completed at the earliest possible date, and, it is hoped, will prove of service to botanical students. I might here remark that, by procuring specimens and using the information which the contemplated work will contain, teachers in public schools could, by means of "object lessons," ground scholars in a fair knowledge of plants and some of the first principles of botany.

It is to be hoped that, by grouping the various orders in the manner now carried out in the gardens, and affixing to each specimen a label bearing its botanical and common name, &c., the work of the botanical student will be rendered much easier; while the attention of visitors generally will be attracted by the grouping and classification of familiar trees and shrubs in their respective orders.

It should be borne in mind that many of the trees and shrubs, &c., mentioned as being hardy in these gardens and in the neighborhood of Melbourne will not withstand the severe frosts of the upland districts of the colony; therefore it would be well for those not conversant with this fact to have practical advice in making a selection for any particular locality.

I have to express my indebtedness for valuable aid in the compilation of this catalogue to the propagator in these gardens, Mr. Henry Moran, and the late W. H. Miller, an assistant, who, with infinite care and zeal, collected much of the material and collated the lists, and this, to a very great extent, in their own spare time.

The original drafts of the plans of the gardens were compiled, under my direction, by Mr. F. Pitcher, of this office, who is to be credited with having very carefully performed that portion of the work.

WILLIAM R. GUILFOYLE,

Director.

Melbourne Botanic and Domain Gardens,
April 1883.

DESCRIPTION OF THE BOTANIC GARDENS.

(From Hayter's "Year-Book 1881-2.")

THE following brief description of the Botanic Garden, &c., from Hayter's *Year-Book 1881-2*, may be found interesting in connection with this catalogue as furnishing a general idea of the area, formation, objects, and other particulars respecting the institution :—

"The Melbourne Botanic Garden is situated on the south side of the River Yarra, and at a distance of about a mile and a half from the heart of the city. The river forms the northern boundary of the garden; while on the east it is bounded by Anderson street, South Yarra; and on the south and west sides is enclosed by the Government House grounds and domain.

"The Botanic Garden has been in existence for some forty years, the site having been chosen by His Excellency Governor La Trobe. The area is 83 acres, and to show its relative size, compared with other similar institutions, it is as large as the Botanic Gardens of Sydney, Adelaide, and Brisbane combined; while the total area, with the Government House grounds and domain adjoining, is about 300 acres. The garden was first laid out under the direction of Mr. Ginn, Colonial Architect, by Mr. Arthur, who, however, died in 1847. He was succeeded by Mr. J. Dallachy, who held the position of superintendent until about 1856, when the Baron Sir Ferdinand von Mueller, Ph.D., M.D., K.C.M.G., F.R.S. (then Dr. Mueller), was appointed director. The garden, till this time, had been under the management of a committee, consisting of the following gentlemen:—His Honor the late Sir Redmond Barry, Kt., the late Mr. W. Hull, and Mr. D. C. McArthur; Mr. Ginn acting as secretary.

"The Baron von Mueller held office as director until 1873, when, with the view of enabling him to give undivided attention to his already important scientific labors as Government Botanist, he was relieved of control of the garden. Mr. William R. Guilfoyle, F.L.S., C.M. Royal Botanic Society, London, was then appointed director, and at once began to remodel the grounds in accordance with a plan designed by him on English landscape principles. The principal features of the garden are :—

"1st. The extensive green undulating lawns, which are four in number, and each of which is many acres in extent. These are known as the Western lawn, on the western side of the garden; the Buffalo lawn, so called from the common name of the grass (*Stenotaphrum glabrum*) of which it is composed; the Central lawn, sloping towards the larger lake; and the Eastern lawn, in the eastern portion of the grounds.

"2nd. The arrangement of classified groups containing the natural orders of plants, as well as numerous large plantations of ornamental and colored foliage plants, cut out in irregularly-shaped beds on the various lawns. The number of botanically classified groups is at present 42, representing about 500 genera and nearly 2,000 species. Appended is a list of the orders, with the names of the lawns on which they are grouped.

"3rd. The general and systematic nomenclature of the plants. To each specimen in the scientific groups so called, as well as before the various plants on the lawns, and also in front of those in the numerous beds, is placed a label or tablet, on which is written the botanical name, authority, common name, natural order, and the habitat to which the plant belongs. This plan affords the public an opportunity of acquiring a fair knowledge of the plant, and is highly appreciated among the numerous visitors. During the year 1881 some 9,000 labels, including large tablets, were written and placed out in different parts of the grounds.

"4th. The fern ground, or gully, through which a winding pathway—some 900 feet long—has been made, and which crosses and re-crosses it at short intervals. Here, along the watercourse, and lining the pathway on either side, are some hundreds of our native tree-ferns. In order to provide the necessary shelter for this spot, a large number of native and exotic umbrageous trees and shrubs have been placed at various parts. Several hundreds of the epiphytic ferns of Queensland, New South Wales, &c., including Platyceriums, Polypodiums, Aspleniums, and others, are fixed to the stems of the larger ferns and other trees. The whole of these, together with thousands of the smaller native ferns, are growing luxuriantly, and form beautiful vistas from almost any position along the pathway.

"5th. The lake—a beautiful sheet of water, occupying an area of about 8 acres. This, with its surrounding rockeries, rustic bridges, and numerous islands dotted about in various parts, is always a pleasing sight. The islands have been ornamentally planted with specimens of native and other vegetation. Growing in one portion of the lake are some large plants of the *Nymphaea alba*—English water lily—as well also a large number of the *Cyperus papyrus*—the Nile paper rush. Numbers of water fowl, including swans, ducks, and other birds, disport themselves on its water.

"6th. The conservatories, with their valuable collections of exotic plants. These houses are four in number. The principal conservatory has been built within the last four or five years, and is merely a section

of a large and handsome building, the plans for which are in the hands of the Public Works Department. The portion erected is devoted to a large and choice collection of handsome colored and ornamental foliage plants, from various parts of the world, and includes some large specimens of choice palms, crotons, cordylines, and numerous rare flowering plants. The older conservatory of the two larger ones has been converted into a fernery, where a collection of five or six hundred species of these well-known and universally admired plants is grown. A portion of this building, however, has been devoted to some of the more tender economic plants, including the mango, breadfruit, coffee, sugar-cane, cinnamon, the chocolate tree, and many other plants of commerce. The third conservatory is occupied by an extensive collection of succulent plants—Cacti and others; while the last house is set apart for the *Victoria regia*—royal water lily. Although the space for this grand water plant is limited by the size of the house, still some very fair sized leaves and flowers are from time to time developed.

"7th. Large and well grown types of Victorian and Australian vegetation, including large species of Eucalypti, Araucarias, Acacias, Coryphas and other palms; also, of introduced plants, as *Ulmus*, *Pinus*, *Cupressus*, &c., placed about on the lawns and in other positions to harmonize with the outer surroundings and increase the picturesque views to be had from almost any part of the grounds. On the eastern sward a series of beds have been formed, to contain a large collection of the trees and shrubs of Queensland.

"One of the principal uses of the department is shown by the great attention which is paid to the introducing, raising, and propagation of plants of utilitarian value, for the purpose of distribution to various parts of the colony and elsewhere, with the ulterior object of establishing and fostering new industries. As an instance, during this year, some sixty or more persons—farmers, selectors, and others throughout the colony—have been supplied with seeds of *Ricinus communis*—the castor oil tree—and other useful plants, for the purpose of testing their value as remunerative crops. There is a large market just now for the reception of any quantity of castor oil beans for the manufacture of oil. A vast quantity of a variety of arrowroot, *Canna edulis* ("tous les mois"), has been propagated and largely distributed. Some of the arrowroot manufactured from this plant is already in the market, having been prepared at the Ramahyuck Aboriginal Station, under the superintendence of the Rev. F. A. Hagenauer, as well as by other private enterprise. Seeds, plants, cuttings, &c., of olives, as well as numerous grasses and fodder plants, have been freely distributed, with the objects of testing their adaptability for culture in this colony, and the probable value of their returns, either solely or in addition to their already well-proved remunerative crops.

"Experiments are from time to time carried on at the laboratory for the purpose of testing the products, making preparations, and obtaining extracts from various plants, with the view of ascertaining their uses, economic value, and adaptability for extensive cultivation. The value and results of these experiments were to be seen in the large exhibit shown at the late International Exhibition. Among the exhibits were 86 different samples of fibres prepared from native and introduced plants growing in the gardens; 49 samples of paper prepared from various plants; specimens of woods from 140 kinds of native trees; and also samples of chemical preparations and vegetable extracts, numbering in all about 100 kinds, and including dyes, gums, resins, oils, and other articles of commerce, principally from native plants.

"Extensive interchanges of seeds, plants, and cuttings have been kept up with similar and kindred institutions throughout the colonies, and in England, France, Germany, Russia, America, China, Mauritius, India, Japan, Cape of Good Hope, Straits Settlements, South Sea Islands, and other parts of the globe, for the purpose of introducing new or rare plants for the enrichment of the garden collection, and with the object of acclimatising such as might prove of commercial value for the benefit of the colony. For this purpose of interchange, as well as for the replenishment and providing of stock for the grounds, and constant improvements which are being carried on, and also for the stocking and keeping up a floral display in the conservatories, thousands of plants are annually raised in the propagating division of the department.

"A catalogue of the whole of the plants in cultivation has been for some time and is still in the hands of the Government Printer, but it is expected to be ready for general use by the early part of 1883. When published, it will, no doubt, prove of great service to the public, as a reference giving interesting particulars concerning the plants of the garden.

"Three rustic summer houses, built principally with colonial woods, have been placed in suitable positions for the convenience of the public. These are ornamentally designed, being octangular in shape, and having gable openings at intervals around the walls. The roofs are composed of thatch, the ceilings and walls being lined with beaded boards; small circular blocks of colonial woods, sunk perpendicularly, compose the floor, while around the walls a rustic seat is fixed—the houses affording accommodation for some 50 persons.

"Among the recent works has been the preparation for and formation of a group of plants used for medicinal purposes. This collection, recently planted, at present numbers about 170 different species. They have each a metallic label placed before them, with full particulars as to the plant. Students and others interested in medicines can see at once and thoroughly inspect a large number of the plants with which they in their practices are being constantly brought into contact. A large quantity of the leaves, fruit, and roots of this class of plants are frequently being distributed to applicants, on the recommendation of medical men, for use in preparations or applications for the alleviation of pain and the effecting of remedies in certain sicknesses. The increasing of this class of plants is an object always kept in view. Two groups—one of dwarf flowering plants, solely Australian, situated on the western lawn, and among which are some of the choicest of this colony's flora; the other, on the margins of the eastern and central lawns, containing a large collection of the most beautiful of the flowering shrubs at present in the garden—have recently been formed. The latter will be useful to the public for noting the names of such shrubs as they may deem desirable for adorning their various private gardens.

"The whole of the lawns are kept in order by means of a one-horse mowing machine. A large quantity of water is necessary for the proper keeping of the grounds, especially during the summer season. This does not, however, cause the public to suffer, for the water used is that pumped from the River Yarra and into a reservoir situated in the eastern part and highest elevation of the garden. The reservoir is capable of containing nearly 300,000 gallons, and from it reticulation pipes are laid throughout the garden, Government House grounds and domain.

"The Government House grounds (61 acres) are included with the management of the Department of the Botanic Garden, and are laid out in lawns, flower beds, ornamental groups of trees and shrubs, and carriage drives, to harmonize with and for the embellishment of the vice-regal residence. The domain (152 acres) which adjoins the Botanic Garden and Government House grounds contains a large number of well-grown exotic and other trees. Though much labor has been expended in the domain, much of it is still in an uncultivated state.

"The Botanic Garden is thronged with thousands of visitors on Sundays and holidays, the lawns being crowded by the public, for whose benefit the institution is maintained, not only, however, as a resort, but as a school for useful and scientific information.

"List of the Natural Orders of plants represented in the Melbourne Botanic Garden which are grouped on the various lawns as follows:—

WESTERN LAWN.

Berberideæ	Magnoliaceæ	Saxifrageæ
Capparideæ	Pittosporæ	Solanææ
Cistineæ	Polemoniaææ	Ternstroemiacæ
Cupuliferæ	Polygaleæ	Thymeleæ
Epaerideæ	Proteaceæ	Urticeæ
Ericææ	Ranunculaceæ	Urticeæ (sub-order Moraææ)
Hydrophyllaceæ	Rosaceæ	Urticeæ (sub-order Ulmaceæ)
Laurineæ		

BUFFALO GRASS LAWN.

Rutaceæ	Zygophylleæ (including Meliantheæ)
---------	------------------------------------

CENTRAL LAWN.

Anacardiææ	Leguminosæ	Lythrariæ
Caprifoliaææ	Liliaææ	Myrtææ
Irideæ		

EASTERN LAWN.

Amaryllideæ	Jasmineæ	Palmae
Acanthææ	Melastomacæ	Serophularinæ
Bignoniææ	Myoporineæ	Verbenaceæ."
Cyeadeæ		

For list of genera and species comprised in the above orders, see Appendix A, page 182.

PARTICULARS RELATING TO THE ACCOMPANYING PLANS OF THE BOTANIC GARDENS.

I.—EXPLANATORY NOTES IN CONNECTION WITH GENERAL PLAN.

- A—Entrance to Gardens, *via* St. Kilda-road, from City, Emerald Hill, &c.
 B—Entrance for Carts, &c., to Store room, yards, &c.
 C—Entrance from Millswyn-street, South Yarra.
 D—Entrance from Park-street, South Yarra.
 E—Entrance No. 1, from Anderson-street, South Yarra.
 F—Entrance No. 2, from Anderson-street, South Yarra.
 G—Entrance, *via* Botanical Bridge, from Richmond, East Melbourne, &c.
 H—Entrance, *via* Yarra Bank, from City, &c.
 I—Entrance, *via* Brander's Ferry, from Jolimont, East Melbourne.
 Ia—Entrance (Private) from Government House.
 J—Entrance (Private) to Director's residence.
 K—Office.
 L—Director's residence and enclosed grounds around same.
 M—Succulent house for Cacti.
 N—Bower.
 O—Pagoda constructed of West Australian woods.
 P—Rustic foot-bridge across north-west portion of Lake.
 Q—Gardener's dwelling.
 R—Rustic foot-bridge across arm of Lake.
 S—Rustic summer-house constructed principally of Native woods, Acacias, &c.
 T—Laboratory.
 U—1, Label room; 2, Seed room.
 V—Mowing Machine shed.
 W—Paint shop.
 X—Carpenter's shop and store room.
 Y—Gardener's dwelling.
 Z—Propagating department, No. 2. 1, Potting shed; 2, Propagating house and frames.
 AA—Large triangular Flower bed, containing collections of Dahlias, Roses, Chrysanthemums, &c., &c. 1 and 2, Groups of tropical foliage plants.
 AB—Class ground, containing different Natural Orders of Plants arranged in various beds.
 AC—Hedge of Pittosporum eugenoides.
 AD—Plantation of Eucalypti.
 AE—Pinetum bank.
- A F—Experimental grounds.
 AG—Group of ornamental trees and shrubs.
 AG—(Central Lawn). Tool shed.
 AH—Embankment on the north side of Lake ornamentally planted with *Pinus insignis*, *Cordylines*, &c., &c.
 AI—Island in Lake, planted with *Melaleuca ericifolia*.
 AJ—Island in Lake, planted with *Glycerium argenteum*.
 AK—Island in Lake, planted with *Melaleuca ericifolia*.
 AL—Islands in Lake ornamentally planted with Ferns, *Cordylines*, *Arundo*, &c.
 AM—Large area covered with *Melaleuca ericifolia*.
 AN—Group of large specimens of the Cabbage-tree Palm (*Livistona australis*).
 AO—Unremodelled portion of the gardens.
 AP—Propagating department. 1, Propagating houses; 2, Nursery sheds; 3, Plant frames; 4, Potting shed; 5, Potting and packing sheds.
 AR—Large triangular-shaped bed of trees and shrubs.
 AR—(Edge of Lake). Group of ornamental and colored foliage plants.
 AS—Group of trees and shrubs.
 AU—Rustic summer house.
 AV—Large massive rockery.
 AW—Large triangular-shaped bed of trees and shrubs.
 AX—Group containing collection of hardy variegated and colored foliage plants.
 AY—Beds containing florists' flowers—Roses, Pentstemons, Pelargoniums, &c.
 AZ—Victoria Regia house.
 BA—Fern ground and gully.
 BB—Rustic summer house.
 BC—Bed of dwarf flowering shrubs.
 BE—Fern and economic plant house.
 BF—Carpenter's dwelling.
 BG—Erected portion of new conservatory.
 BH—Gravel quarry.
 BI—Gardener's dwelling.
 BJ—Reservoir.

ENCLOSED GROUNDS NEAR DIRECTOR'S HOUSE.

- 1, 2, 3, 4, 5—Beds and groups of ornamental trees, shrubs, and flowering plants.
 6—Group of Azaleas and Camellias.

- 7, 8, 9, 10, 11, 12, 13, 14—Beds and groups of ornamental and tropical foliaged trees, shrubs, and flowering plants.

WESTERN LAWN.

- 15—Group containing natural order Magnoliaceæ.
 16—Ornamental group of trees and shrubs.
 17—Group containing natural order Ternstroemiaceæ.
 18—Group containing natural order Ranunculaceæ.
 19—Group containing natural order Rosaceæ.
 20—Group containing natural order Saxifrageæ.
 21—Group containing natural order Urticeæ (sub-order Ulmaceæ).
 22—Group containing natural order Pittosporacæ.
 23—Group containing natural order Capparidæ.
 24—Group containing natural order Urticeæ.
 25—Group containing natural order Berberideæ.
 26—Group containing natural order Solanaceæ.
 27—Group containing natural order Cupuliferæ.
 28—Large ornamental group of trees, shrubs, and flowering plants.
 29—Group containing natural order Thymeleæ.

- 30—Group containing natural order Cistineæ.
 31—Group containing natural order Polygalacæ.
 32—Group containing natural order Epacridacæ.
 33—Group containing natural order Laurineæ.
 34, 35—Groups of ornamental and colored foliage plants.
 36—Group containing natural order Proteacæ, No. 1.
 37—Group containing natural order Polemoniacæ.
 38—Group containing natural order Urticeæ (sub-order Moracæ).
 39—Group containing natural order Proteacæ, No. 2.
 40—Group of dwarf Australian flowering shrubs.
 41—Group containing natural order Ericaceæ.
 42—Group containing natural order Hydrophylliaceæ.
 43, 44, 45—Groups containing collection of plants of medicinal value.
 46—Large ornamental bed of trees and shrubs, including also the Camellia ground.
 47—Group (No. 4) of plants of medicinal value.

BUFFALO GRASS LAWN.

- 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61—Ornamental Groups of trees, shrubs, tropical and colored foliage, and flowering plants.
 62—Group of Pittosporums.
 63, 64—Groups of various ornamental shrubs, &c.

- 65—Group containing natural order Zygophyllacæ, including Meliantheæ.
 66—Group containing natural order Rutaceæ.
 67—Group of miscellaneous shrubs.

CENTRAL LAWN.

- 68—Group containing natural order Leguminosæ, No. 3.
 69—Group containing natural order Leguminosæ, No. 1.
 70—Group of miscellaneous trees and shrubs.
 71—Group containing natural order Iridææ.
 72—Large group of trees and shrubs.
 73—Group containing natural order Liliaceæ.
 74—Small group of ornamental foliage plants.
 75—Group containing natural order Leguminosæ, No. 2.
 76—Group containing natural order Caprifoliaceæ.
 77—Small group of colored foliage plants.
 78—Ornamental group of tropical and colored foliage plants.
 79—Groups of Palms, Cordylines, &c.
 80—Group containing natural order Leguminosæ, No. 4.

- 81—Group of Coprosma Baueriana variegata.
 82—Large group of ornamental trees, shrubs, and flowering plants.
 83—Group containing natural order Myrtaceæ.
 84—Group containing natural order Lythraricæ.
 85—Group containing natural order Myrtaceæ, No. 1.
 86—Group containing natural order Myrtaceæ, No. 2.
 87—Group containing natural order Myrtaceæ, No. 3.
 88—Group of choice dwarf flowering plants.
 89—Group containing natural order Myrtaceæ, No. 4.
 90—Group of Atriplex mummularia.
 91—Group of Pinus insignis and Cordylines.

EASTERN LAWN.

- 92, 93, 94—Groups of Queensland plants.
 95—Group containing natural order Palmae.
 96—Group containing natural order Cycadææ.
 97—Group of Queensland plants.
 98—Group of Casuarinas.
 99—Group containing natural order Melastomaceæ.
 100—Group containing natural order Amaryllidææ.
 101—Large group of American trees and shrubs.
 102—Group of Mesembryanthemum.

- 103—Ornamental bedding grounds.
 104—Large group of ornamental trees and shrubs.
 105—Group containing natural order Scrophulariacæ.
 106—Group containing natural order Myoporineæ.
 107—Group containing natural order Acanthaceæ.
 108—Group containing natural order Bignoniacæ.
 109—Group containing natural order Verbenaceæ.
 110—Group containing natural order Jasmindæ.

II.—NOTES IN CONNECTION WITH PLAN OF EASTERN LAWN (A).

- A—Group of Casuarinas.
 B, C, D, E—Group of Queensland plants.
 F—Group of American trees and shrubs.

- G—Ornamental group of large trees and shrubs.
 H—Ornamental bedding grounds.

III.—NOTES IN CONNECTION WITH PLAN OF WESTERN LAWN (B).

- J, A, B, C, D—Ornamental groups and beds of trees, shrubs, and flowering plants.

- I, J—Groups of ornamental and tropical foliage plants.

IV.—NOTES IN CONNECTION WITH PLAN OF BUFFALO GRASS LAWN (C).

- A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q—
 Ornamental groups of trees, shrubs, tropical and colored
 foliage, and flowering plants.
 R—Group of Pinus insignis.
 S, T, U—Groups of ornamental plants on Central Lawn.

- V—Island in smaller division of Lake, ornamentally planted
 with Tree Ferns, Cordylines, &c.
 W—Plantation of trees, shrubs, and flowering plants.
 X—Group of tropical foliage plants.

V.—NOTES IN CONNECTION WITH PLAN OF CENTRAL LAWN (D).

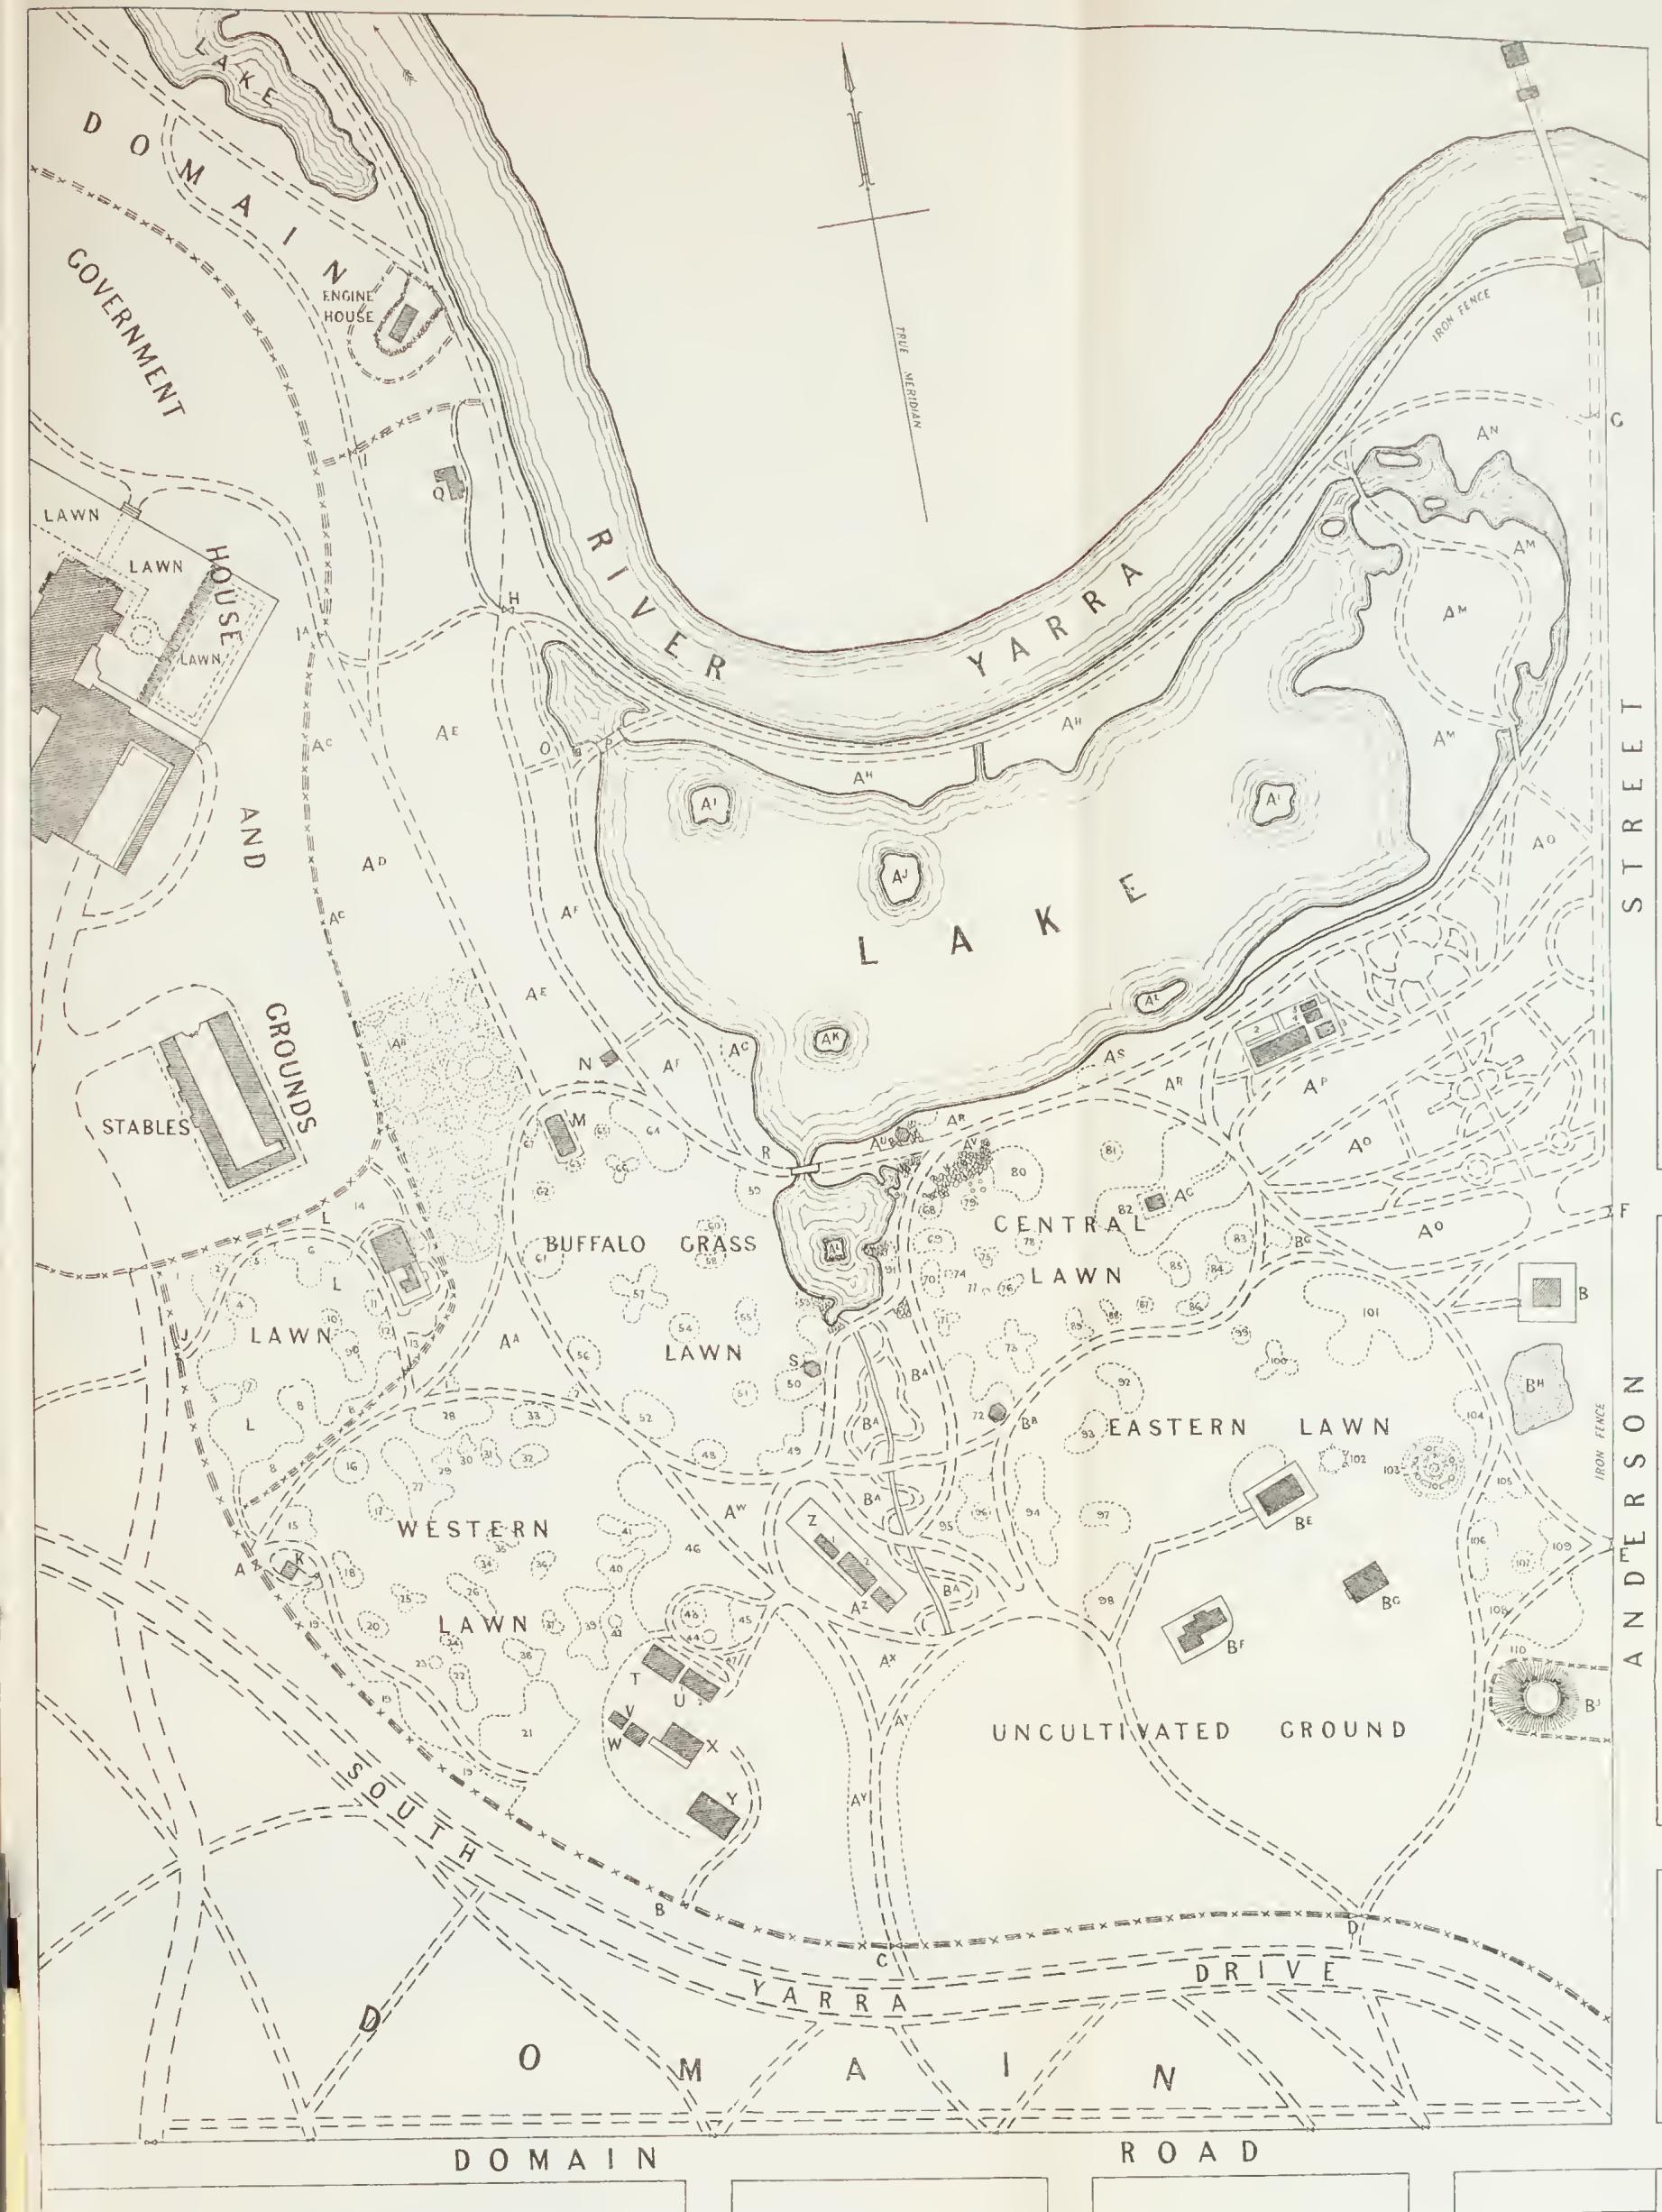

- A, B—Ornamental groups of trees and shrubs on Buffalo Grass
 Lawn.
 C—Group of Pinus insignis.
 D, E—Ornamental groups of trees and shrubs.
 F—Group of variegated foliage plants.
 G—Group containing natural order Caprifoliaceæ.

- H—Group of Roses, with Pittosporum undulatum.
 I—Ornamental group of tropical and colored foliage plants.
 J—Group of Cordylines, Palms, &c.
 K, L, M—Groups of trees, shrubs, and ornamental foliage
 plants.
 N—Plantation of Chamaerops (Palms).

ERRATA IN REFERENCE TO PLANS.

xylocarpa ..	A. Cunningham ..	Queensland Marsh Hickory	Hardy evergreen tree; height, 30 to 60 feet	..	New South Wales and Queensland

Botanical Name.	Authority.	Common Name.	Description.	Order.	Habitat.
Cuphea ..	Jacquin	Lythrarice
strigilosa ..	Lindley ..	Coarse-haired Cuphea	Hardy evergreen shrub	Andes
Jerullensis ..	Humboldt and Coupland	Beetle Sage ..	Hardy evergreen shrub	South America
platycentra ..	Benthann ..	Broad-centred Cuphea	Hardy evergreen shrub	Mexico
purpurea ..	Hortorum ..	Purple-flowered Cuphea	Hardy annual (?)	"
laeococata ..	Hortus Kewensis	Lance-leaved Cuphea	Hardy biennial	Mexico
Cupressus ..	Linnaeus ..	CYPRESS	Coniferæ
africana ..	Miller ..	Vide Widdringtonia		"
ambigua (?) ..	Hortorum ..	Doubtful Cypress ..	Hardy evergreen shrub	"
aromatica ..	Van Houtte ..	Aromatic Cypress ..	Hardy evergreen tree	California (?)
Syn. <i>C. Kereensis</i>	Hortorum				
attenuata ..	Gordon ..	Slender-branched Cypress ..	Hardy evergreen shrub; height, 12 feet	North California
Benthamii ..	Endlicher ..	Bentham's Cypress ..	Hardy evergreen tree; height, 60 to 100 feet	Mexico
Corneyana ..	Knight ..	Vide Juniperus chinensis, Corneyana, Gordon		
fastigata ..	De Candolle ..	Vide <i>C. sempervirens</i> , Linnaeus		
excelsa ..	Scott ..	Lofty Guatemala Cypress	Guatemala
fumebries ..	Endlicher ..	Weeping or Funeral Cypress	China
Syn. <i>C. pendula</i>	Staunton (not of Griffiths)				
glaucia ..	Lamarek ..	Cedar of Goa or Grey Cypress ..	Hardy evergreen tree; height, 50 to 100 feet	East Indies (naturalized in Portugal)
Syn. <i>C. lusitanica</i>	Miller ..				
glaucia variegata ..	Lawson ..	Variegated Cedar of Goa ..	Hardy evergreen tree	Garden origin
gracilis ..	Hortorum ..	Vide Juniperis chinensis, Corneyana		
Goweniana ..	Gordon ..	Gowen's Cypress ..	Hardy evergreen shrub; height, 20 feet	California
glandulosa ..	Hooker ..	Talmapais Cypress ..	Hardy evergreen shrub; height, 12 feet	Northern California
Syn. <i>C. Macbrida</i>	Murray ..				
horizontalis ..	Du Hamel ..	Vide <i>C. sempervirens</i> , Linnaeus		
Huegelii	
Kewensis ..	Hortorum ..	Vide <i>C. aromaticata</i> , Van Houtte		
Knightiana ..	Perry ..	Knight's Cypress ..	Hardy evergreen tree; height, 80 to 120 feet	Mexico
Syn. <i>C. Lindleyana</i>	Klotzsch ..				
Lawsoniana ..	Murray ..	Port Orford Cypress ..	Hardy evergreen tree; height, 100 feet	Northern California
tenerocarpa ..	Hartweg ..	Monterey or Citron Cypress ..	Hardy evergreen tree; height, 150 feet	California
Syn. <i>C. Laminaria</i>	Gordon ..				
Lindleyana ..	Klotzsch ..	Vide <i>C. Knightiana</i> , Perry		
majestica ..	Knight ..	Vide <i>C. tornosa</i> , Don		
MacNabiana ..	Murray ..	Vide <i>C. glandulosa</i> , Hooker		
matkaensis ..	Lambert ..	Nootka Sound Cypress ..	Hardy evergreen tree; height, 100 to 120 feet	North-west America
Syn. <i>Thujopsis borealis</i>	Fischer ..				
sempervirens ..	Linnaeus ..	Common Cypress ..	Hardy evergreen tree; height, 60 feet	South Europe and Asia
Syn. <i>C. fastigiata</i>	De Candolle ..				
sempervirens, var. horizontalis ..	Miller ..	Common Spreading Cypress ..	Hardy evergreen tree; height, 60 feet	Candia and Persia
sempervirens, var. Whitleyan ..	Carriere ..	Whitley's Cypress ..	Hardy evergreen tree; height, 80 to 100 feet	Northern India
Syn. <i>C. austriaca</i>	Low ..				
Iusitanica ..	Miller ..	Vide <i>C. glauca</i> , Lamarek		
sinensis ..	Lee ..	Vide <i>C. glauca</i> , Lamarek		
torulosa ..	Don ..	Ehotan or Towering Cypress ..	Hardy evergreen tree; height, 180 feet	
torulosa majestica ..	Hortorum ..	Stately Cypress ..	Hardy evergreen tree; height, 180 feet	Nepaul
Syn. <i>C. majestica</i>	Knight ..				Cashmere and Nepaul
pendula ..	Staunton (not of Griffiths)	Vide <i>C. fumebries</i> , Endlicher		
pendula ..	Griffith (not of Staunton)	Vide <i>C. torulosa</i> , Don		
thunifera ..	Humboldt ..	Vide Chamaecyparis thunifera, Endlicher		
thujoides ..	Linnaeus ..	Vide Chamaecyparis spheroidea, Spach		
Uhldeana ..	Gordon ..	Uhlde's Cypress ..	Hardy evergreen tree; height, 60 to 80 feet	Mexico
Virginiana ..	Plukenet ..	Vide <i>Taxodium distichum</i> , Richard		
fastigiata ..	De Candolle ..				
pyramidalis ..	Tozzett ..	Vide <i>C. sempervirens</i> , Linnaeus		
Tournefortii ..	Audibert ..				
Whitleyan ..	Carriere ..

Earlii ..	F. Mueller ..	Earl's Graptophyllum ..	Hardy evergreen shrub or small tree; height, 10 to 15 feet	„	Queensland
Syn. <i>Earlia excelsa</i>	F. Mueller				
pictum ..	Nees ..	Spotted Graptophyllum ..	Greenhouse herbaceous perennial ..	„	East Indies
Gratiola ..	<i>Linnæus</i> ..	HEDGE HYSSOP	Scrophulariæ	
peruviana ..	<i>Linnæus</i> ..	Victorian Hedge Hyssop ..	Hardy herbaceous semi-aquatic perennial	„	Australia, New Zealand, Tasmania, and Extra-Tropical South America
Grevillea ..	<i>Robt. Brown</i>	Proteaceæ	
alpina ..	Lindley ..	Alpine Grevillea	Hardy evergreen shrub; height, 5 feet	„	Victoria
alpina, var. Dallachiana	Dallachy's Grevillea ..	Hardy evergreen shrub	„	Victoria
Syn. <i>G. Dallachiana</i>	F. Mueller				
aquifolium ..	Lindley ..	Holly-leaved Grevillea ..	Hardy evergreen shrub; height, 4 to 8 feet	„	Victoria
Syn. <i>G. variabilis</i>	Lindley				
Banksii ..	<i>Robt. Brown</i>	Banks' Grevillea	Hardy evergreen tree; height, 12 to 20 feet	„	Queensland
oleoides, var. dimorpha	Sieber ..	Crimson Grevillea	Hardy evergreen shrub; height, 4 to 5 feet	„	Victoria
confertifolia ..	F. Mueller ..	Crowded-leaved Grevillea ..	Hardy evergreen shrub; height, 3 feet	„	Victoria
Dallachiana ..	F. Mueller ..	Vide <i>G. alpina</i> , Lindley		„	
linearis ..	<i>Robt. Brown</i>	Lined Grevillea	Hardy evergreen shrub; height, 5 to 7 feet	„	New South Wales
dimorpha ..	F. Mueller ..	Vide <i>G. oleoides</i> , var. dimorpha		„	
ericifolia ..	<i>Robt. Brown</i>	Heath-leaved Grevillea ..	Hardy evergreen shrub; height, 1 to 2 feet	„	Victoria and New South Wales
Syn. <i>G. Latrobei</i>	Meissner				
ilicifolia, var. lobata	<i>Robt. Brown</i>	Sombre Grevillea	Hardy evergreen shrub; height, 5 feet	„	Victoria and South Australia
Latrobei ..	Meissner ..	Vide <i>G. ericifolia</i> , Robt. Brown		„	
Hilliana ..	F. Mueller ..	Hill's Grevillea	Hardy evergreen tree; height, 60 feet	„	Queensland and New South Wales
asplenifolia ..	Knight ..	Long-leaved Grevillea ..	Hardy evergreen shrub; height, 12 to 15 feet	„	New South Wales
Syn. <i>G. longifolia</i>	<i>Robt. Brown</i>				
macrostylis ..	F. Mueller ..	Large-styled Grevillea ..	Hardy evergreen shrub; height, 4 to 6 feet	„	Western Australia
obtusifolia ..	Meissner ..	Blunt-leaved Grevillea ..	Hardy evergreen shrub; height, 3 feet	„	Western Australia
parviflora ..	<i>Robt. Brown</i>	Small-flowered Grevillea ..	Hardy evergreen shrub; height, 6 to 8 feet	„	Victoria and New South Wales
variabilis ..	Lindley ..	Vide <i>G. aquifolium</i> , Lindley		„	
robusta ..	A. Cunningham ..	Silky Oak	Hardy evergreen tree; height, 80 to 100 feet	„	New South Wales and Queensland
longifolia ..	<i>Robt. Brown</i>	Vide <i>G. asplenifolia</i> , Knight		„	
Grewia ..	<i>Jussieu</i>	Tiliaceæ	
oppositifolia ..	Buchanan ..	Opposite-leaved Grewia ..	Hardy evergreen shrub; height, 10 to 15 feet	„	Nepaul
occidentalis ..	<i>Linnæus</i> ..	African Star Bush	Hardy evergreen shrub; height, 10 to 15 feet	„	Cape of Good Hope
hirsuta ..	Willdenow ..	Hairy Grewia	Hardy evergreen shrub	„	East Indies
Grindelia ..	<i>Willdenow</i>	Compositæ	
hirsutula ..	Hooker ..	Hairy Grindelia	Hardy herbaceous perennial ..	„	California
Griselinia ..	<i>Forster</i> ..	NEW ZEALAND BROAD LEAF	Corneæ	
lucida ..	Forster ..	Shining Broad Leaf or Snow Laurel; native name, Pukatea or Kapook	Hardy evergreen shrub; height, 4 to 12 feet	„	New Zealand
Grislea ..	<i>Linnæus</i>	Lythariæ	
tomentosa ..	Roxburgh ..	Downy-leaved Grislea ..	Greenhouse evergreen shrub; height, 4 feet	„	East Indies
Guaiacum ..	<i>Linnæus</i> ..	LIGNUM VITÆ	Zygophylleæ	
officinale ..	<i>Linnæus</i> ..	Common Lignum Vitæ or West Indian Pockwood	Greenhouse evergreen tree; height, 30 to 40 feet	„	Tropical America and West Indies
Guatteria ..	Ruiz and Pavon ..	CAFFRE'S LANCEWOOD TREE	Anonaceæ	
caffra	Hardy evergreen tree	„	South Africa

Botanical Name.	Authority.	Common Name.	Description.	Order.	Habitat.
Guazuma .. tomentosa ..	Plumier .. Humboldt, Bonpland, and Kunth	Jamaica Bastard Cedar ..	Hardy evergreen tree; height, 20 to 25 feet	Sterculiaceæ ..	South America and West Indies
Guichenotia .. ledifolia ..	J. Gay .. J. Gay ..	Ledon-leaved Guichenotia ..	Hardy evergreen shrub ..	Sterculiaceæ ..	Western Australia
Guilandina .. Bonduc ..	Linnaeus .. Linnaeus ..	NICKER TREE or BONDUC .. Yellow Bonduc or Nicker Tree	Greenhouse evergreen shrub ..	Leguminosæ ..	Guadalupe, Ja-maica, and Antigua
Guilfoylia .. monostylis .. Syn. <i>Cadellia</i> monostylis	F. Mueller .. F. Mueller .. Bentham	Golden Pyramid Tree ..	Hardy evergreen tree ..	Simarubaceæ ..	New South Wales and Queensland
Gustavia .. augusta ..	Linnaeus .. Linnaeus ..	Great Gustavia ..	Stove or greenhouse evergreen tree ..	Myrtaceæ ..	Guiana
Gymnocladus .. canadensis ..	Lamarck .. Lamarck ..	Kentucky Coffee Tree ..	Hardy evergreen tree; height, 20 to 50 feet	Leguminosæ ..	North America

Ulylocladus	<i>Richard</i> ..	CELERY PINE	Cupressaceæ	
<i>rhomboidea</i> ..	<i>Richard</i> ..	Tasmanian Celery Pine ..	Hardy evergreen tree; height, 60 feet	..	Tasmania
<i>Syn. P. asplenifolia</i>	<i>Looker fil.</i> ..				
trichomanoides	<i>Don</i> ..	New Zealand Celery Pine; native name, Tanekaka or Taneahia	Hardy evergreen tree; height, 60 feet	..	New Zealand
Ullostachys	<i>Vide</i> <i>Bambusa nigra</i>			
ymatodes	<i>Vide</i> <i>Polypodium</i>			
Alysalis ..	<i>Linnæus</i> ..	WINTER CHERRY, CAPE GOOSEBERRY, &c.	Solanaceæ	
<i>Alkekengii</i> ..	<i>Linnæus</i> ..	Common Winter Cherry or Strawberry Tomato	Hardy herbaceous perennial	South Europe
<i>peruviana</i> ..	<i>Linnæus</i> ..	West Indian Winter Cherry, commonly known as the Cape Gooseberry	Hardy herbaceous perennial	South America and West Indies, naturalized in Victoria
<i>Syn. P. edulis</i>	<i>Sims</i> ..				
<i>somnifera</i> ..	<i>Link</i> ..	Narcotic Winter Cherry ..	Hardy herbaceous perennial	Mexico, naturalized in the neighbourhood of Melbourne
<i>Syn. Withania somnifera</i>	<i>D. Don</i> ..				
<i>edulis</i> ..	<i>Sims</i> ..				
<i>pubescens</i> ..	<i>R. Brown</i> (not of Linnæus) ..	<i>Vide</i> <i>P. peruviana</i> , <i>Linnæus</i>		..	
Alysostegia ..	<i>Bentham</i>	Labiatae	
<i>virginiana</i> ..	<i>Bentham</i> ..	Virginian Physostegia ..	Hardy herbaceous perennial	North America
<i>Syn. Dracophilum virginianum</i>	<i>Willdenow</i> ..				
Ayteuma ..	<i>Linnæus</i> ..	RAMPION	Campanulaceæ	
<i>virgata</i> ..	<i>Willdenow</i> ..	Twiggy Rampion	Hardy biennial	Lebanon
Aytolaccæ ..	<i>Linnæus</i> ..	POKE-WEED, CALALU, RED-WEED, OR INK-BERRY-WEED	Phytolaccaceæ	
<i>esculenta</i> ..	<i>Van Houtte</i>	Edible Poke-weed	Hardy herbaceous perennial	South America (?)
<i>Syn. Pircunia esculenta</i>					
<i>dioica</i> ..	<i>Linnæus</i> ..	Uinbra or Great Ink-berry Tree	Hardy deciduous tree; height, 20 to 30 feet	South America
<i>Syn. Pircunia dioica</i>	<i>Moquin</i> ..				
<i>octandra</i> ..	<i>Linnæus</i> ..	Mexican Verbachina or West Indian Foxglove	Hardy herbaceous perennial	Mexico to Peru and Monte Video, Caribbean Islands and Jamaica (naturalized in Victoria)
<i>icosandra</i> ..	<i>Linnæus</i> ..	West Indiau Pokeweed ..	Hardy herbaceous perennial	Mexico to Peru and Brazil, Bahamas, Jamaica, and Dominica
Alysianthus ..	<i>Martius</i>	Asclepiadæ	
<i>albens</i> ..	<i>Martius</i> ..	<i>Vide Arauja albens</i> , <i>G. Don</i>			
<i>ea</i> ..	<i>D. Don</i> ..	<i>Vide Pinus</i>	Coniferæ	
melea ..	<i>Banks</i> ..	TOUGH BARK OR RICE FLOWER	Thymelæ	
<i>curviflora</i> ..	<i>Robt. Brown</i>	Curve-flowered Tough Bark	Victoria, New South Wales, South Australia, and Tasmania
<i>drupacea</i> ..	<i>Labillardière</i>	Victorian Bird Cherry ..	Hardy evergreen shrub; height, 5 to 8 feet	Victoria and Tasmania
<i>linifolia</i> ..	<i>Smith</i> ..	Flax-leaved Tough Bark ..	Hardy evergreen shrub; height, 1 to 3½ feet	New South Wales, Queensland, and Tasmania
<i>pauciflora</i> ..	<i>Robt. Brown</i>	Few-flowered Tough Bark ..	Hardy evergreen shrub; height, 8 to 10 feet	Victoria, New South Wales, Queensland, and Tasmania
<i>octophylla</i> ..	<i>Robt. Brown</i>	Eight-leafletted Tough Bark	Hardy evergreen shrub; height, 1 to 3 feet	Victoria and South Australia
<i>ferruginea</i> ..	<i>Labillardière</i>	Rusty-leaved Tough Bark ..	Hardy evergreen shrub; height, 2 to 3 feet	Western Australia
<i>Syn. P. decussata</i>	<i>Robt. Brown</i>				
menta ..	<i>Lindley</i>	Myrtaceæ	
<i>vulgaris</i> ..	<i>Lindley</i> ..	Common Allspice Tree ..	Stove or greenhouse evergreen tree; height, 30 to 40 feet	Jamaica and Cuba
<i>Syn. Eugenia Pimenta</i>	<i>De Candolle</i> ..				
nus ..	<i>Linnæus</i>	Coniferæ	
<i>Abies</i> ..	<i>Linnæus</i> (not of Du Roi) ..	Norway Spruce ..	Hardy evergreen tree; height, 100 to 160 feet	Alps of Europe
<i>Syn. Abies excelsa</i>	<i>De Candolle</i>				
<i>amabilis</i> ..	<i>Douglas</i> ..	Lovely Silver Fir or Mareilp	Hardy evergreen tree; height, 200 feet	Northern California
<i>Syn. Picea amabilis</i>	<i>Loudon</i> ..				
<i>abschasicæ</i> ..	<i>Fischer</i> ..	<i>Vide</i> <i>P. halepensis</i> , <i>Aiton</i>		
<i>australis</i> ..	<i>Michaux</i> ..	Swamp or Broom Pine; known also as the Georgia Pitch Pine	Hardy evergreen tree; height, 60 feet	North America
<i>Syn. P. palustris</i>	<i>Miller</i> ..

Psidium ..	<i>Linnæus</i> ..	GUAVA	Myrtaceæ	
pyriferum ..	Linnæus ..	Vide <i>P. Guava</i> , variety	
anonaefolium	Anona-leaved Guava ..	Hardy evergreen shrub	..	
Guava ..	Raddi	
pyriferum or pyrifome ..	Linnæus ..	White or Pear-shaped Guava ..	Hardy evergreen shrub; height, 10 to 12 feet	..	West Indian Islands and Tropical America
Cattleyanum ..	Lindley ..	Purple or Black Guava ..	Hardy evergreen shrub; height, 3 to 8 feet	..	Brazil
littorale ..	Raddi ..	Seaside Guava ..	Hardy evergreen shrub	South America
Psoralea ..	<i>Linnæus</i> ..	SCOURVY TREE	Leguminosæ	
calmifolia	Kalmia-leaved Psoralea ..	Hardy evergreen scrub	..	
apbylla ..	Linnæus ..	Leafless Psoralea ..	Hardy evergreen shrub; height, 13 feet	..	Cape of Good Hope
pinnata ..	Linnæus ..	Pinnate Psoralea ..	Hardy evergreen shrub; height, 6 to 8 feet	..	Cape of Good Hope
aculeata ..	Linnæus ..	Prickly Psoralea ..	Hardy evergreen shrub; height, 4 to 6 feet	..	Cape of Good Hope
spicata ..	Linnæus ..	Spike-flowered Psoralea ..	Hardy evergreen shrub; height, 4 feet	..	Cape of Good Hope
bituminosa ..	Linnæus ..	Bitumen Trefoil ..	Hardy evergreen shrub; height, 4 feet	..	South Europe
Psychotria ..	<i>Linnæus</i>	Rubiaceæ	
daphnoides ..	A. Cunningham ..	Brushland Sage Tree ..	Hardy evergreen shrub; height, 8 to 12 feet	..	New South Wales and Queensland
Ptelea ..	<i>Linnæus</i> ..	SHRUBBY TREFOIL	Rutaceæ	
trifoliata ..	Linnæus ..	Wing Seed or Water Ash ..	Hardy deciduous shrub; height, 10 feet	..	North America
Pteris ..	<i>Linnæus</i> ..	BRAKE FERN OR BRACHEN	Filices	
longifolia ..	Linnæus ..	Long-leaved Brake Fern ..	Perennial	Tropical and Temperate Regions throughout the world
cretica ..	Linnæus ..	Cretan Brake Fern ..	Perennial	Europe, Asia, Africa, America, Fiji, and Sandwich Islands
cretica, var. albo-lineata ..	Hortorum ..	White-lined Brake Fern ..	Perennial	
umbrosa ..	Robt. Brown	Shady Brake Fern ..	Perennial	Victoria, New South Wales, and Queensland
crenata ..	Swartz ..	Vide <i>P. eusiformis</i> , Burmann	India, China, Tropical Australia, and Fiji
semi-pinnata ..	Linnæus ..	Semi-pinnate Brake Fern ..	Perennial	India, China, Borneo, and Ceylon
ensiformis ..	Burmann ..	Sword-shaped Brake Fern ..	Perennial	Queensland, Tropical and Eastern Asia, and Pacific Islands
Syn. <i>P. crenata</i> ..	Swartz	
quadriaurita ..	Retz ..	Four-eared Brake Fern ..	Perennial	Queensland, West Tropical Africa, Madagascar, Angola, Zambezi Land, Mexico, Brazil, Himalaya, Ceylon, South China and Japan, Cuba, Malayan and Polynesian Islands
laciniata ..	Willdenow ..	Torn-leaved Brake Fern ..	Perennial	Mexico and West Indies southward to Peru
tremula ..	Robt. Brown	Quivering or Trembling Brake Fern ..	Perennial	Victoria, New South Wales, Tasmania, New Zealand, Norfolk and Fiji Islands
aquilina ..	Linnæus ..	Common Brake Fern or Brachen ..	Perennial	All round the world, both within the Tropics and North and South Temperate Zones
scaberula ..	Richard ..	Rough-leaved Brake Fern ..	Perennial	New Zealand

mapis..	Tournefort ..	MUSTARD PLANT	Cruciferæ	
nigra ..	Linnaeus ..	<i>Vide Brassica nigra</i> , Koch		"	
alba ..	Linnaeus ..	<i>Vide Brassica alba</i> , Hooker fil.		"	
phonia ..	Richard	Euphorbiacæ	
elastica ..	Persoon ..	Brazilian Syringa or Caoutchouc Tree	Greenhouse evergreen tree; height, 100 feet	"	Guiana and Brazil
Syn. <i>Hevea guianensis</i>	Aublet ..				
syrinchium ..	Linnaeus ..	PIG-ROOT	Iridæ	
californicum ..	Sprengel ..	Californian Pig-root ..	Hardy herbaceous perennial ..	"	California
convolutum ..	Nocea ..	Encircled Pig-root ..	Hardy herbaceous perennial ..	"	South America
cyanescum ..	Lindley ..	<i>Vide Orthosanthus multiflorus</i> , Sweet		"	
paniculatum ..	Robt. Brown	<i>Vide Libertia paniculata</i> , Sprengel		"	
striatum ..	Smith ..	Mexican Pig-root ..	Hardy herbaceous perennial ..	"	Mexico
bermudianum ..	Linnaeus ..	Bermuda Pig-root ..	Hardy herbaceous perennial ..	"	Peru
<i>pane australis</i> ..	F. Mueller ..	<i>Vide Echinocarpus anstralis</i> , Beetham			
megmaria	Rosacæ	
emarginata ..	Willdenow ..	<i>Vide Quillaja saponaria</i> , Molena		"	
milax ..	Linnaeus ..	SARSAPARILLA PLANT OR ROUGH BINDWEED	Liliacæ	
aspera ..	Linnaeus ..	Italian Sarsaparilla Plant ..	Hardy evergreen climber ..	"	South Europe
China ..	Linnaeus ..	Chinese Sarsaparilla Plant ..	Hardy evergreen climber ..	"	China
Sarsaparilla ..	Linnaeus ..	Common Sarsaparilla ..	Hardy evergreen climber ..	"	South America
mithia ..	Aiton	Léguminosæ	
sp.				"	
olandra ..	Linnaeus	Solanacæ	
grandiflora ..	Swartz ..	Peach-colored West Indian Trumpet Flower	Greenhouse evergreen climber ..	"	Tropical South America and West India Islands
Syn. <i>S. nitida</i>	Zuccarini ..				
Irevis ..	Hooker ..	Smooth-leaved West Indian Trumpet Flower	Greenhouse evergreen shrub; height, 8 feet	"	Cuba and Jamaica
Syn. <i>S. longiflora</i>	Tussac ..				
olanum ..	Linnaeus ..	NIGHTSHADE, POTATO, &c.	Solanacæ	
auriculatum ..	Aiton ..	Ear-leaved Nightshade ..	Hardy evergreen shrub ..	"	Madagascar
argenteum ..	Duval ..	Silvery Nightshade ..	Hardy evergreen shrub; height, 4 feet	"	Brazil
atropurpureum ..	Schrank ..	Dark-purple Nightshade ..	Hardy evergreen shrub ..	"	Brazil
Balbisii ..	Duval ..	Balbis's Nightshade ..	Hardy evergreen shrub; height, 4 feet	"	South America
capsicastrum ..	Link ..	Star Nightshade ..	Hardy evergreen shrub; height, 1 foot	"	Brazil
tomentosum ..	Linnaeus ..	Scarlet Nightshade ..	Hardy evergreen shrub; height, 3 feet	"	Cape of Good Hope
Syn. <i>S. coccineum</i>	Jacquin ..				
coriaceum ..	Hooker ..	Leathery-leaved Nightshade	Hardy evergreen shrub; height, 4 feet	"	Mexico to Peru, Cuba, Martinique, and Jamaica
Syn. <i>S. Hookeri-anum</i>	Sprengel ..				
Dulcamara ..	Linnaeus ..	Woody Nightshade or Bitter Sweet	Hardy deciduous climber ..	"	Europe, Northern Africa, and Asia Minor
glaucophyllum ..	Desfontaines ..	Glaucous-leaved Nightshade		"	
Lycopersicum ..	Linnaeus ..	<i>Vide Lycopersicum esculentum</i> , Miller		"	
anthropophagorum ..	Seemann ..	Cannibal Apple, Boro dina of Fiji, and Poroporo of Tahiti	Half-hardy or greenhouse evergreen shrub; height, 6 feet	"	Fiji, Society, Tongau, and Samoan Islands, and New Caledonia
Syn. <i>S. Uprighta</i>	Duv. I				
Syn. <i>S. virens</i>	Solander (not of M. Brown)				
Syn. <i>S. ovata</i>	Guillemin (not of Forster)				
coccineum ..	Jacquin ..	<i>Vide S. tomentosum</i> , Linnaeus		"	
hookerianum ..	Sprengel ..	<i>Vide S. coriaceum</i> , Hooker		"	
Uprighta ..	Duval ..				
viride ..	Solander ..	<i>Vide S. anthropophagorum</i> , Seemann		"	
aviculare ..	Guillemin (not of Forster)				

Botanical Name.	Authority.	Common Name.	Description.	Order.	Habitat.
Solanum—continued—					
heterandrum ..	Pursh ..	Various-stained Nightshade	Hardy annual	Solanaceæ	North America
tuherosum ..	Linnæus ..	Potatoe	Hardy tuberous-rooted perennial	"	Peru
simile ..	F. Mueller	Hardy evergreen shrub	"	Victoria, New South Wales, South and West Australia
<i>Syn. S. fasciculatum</i>	F. Mueller				
armatum ..	Robt. Brown	Armed Nightshade ..	Hardy herbaceous perennial or shrub; height, 3 feet	"	Victoria, New South Wales, and Queensland
haematoxarpum ..	Hort. Vilmor	Blood-colored Nightshade			
horridum ..	Dunal ..	Horrid Nightshade ..	Hardy evergreen shrub	"	North Australia and Island of Timor
jasminoïdes ..	Paxton ..	Jasmine Nightshade ..	Hardy evergreen climber	"	South America
jasminoides variegatum	Variegated Jasmine Nightshade	Hardy evergreen climber	"	Garden origin
aviculare ..	Forster ..	Kangaroo Apple ..	Hardy evergreen shrub; height, 6 to 8 feet	"	Australia and New Zealand
<i>Syn. S. lacinatum</i>	Aiton ..				
<i>Syn. S. vescom</i>	F. Mueller				
pseudo-capsicum ..	Linnæus ..	Madeira Winter Cherry or False Capsicum	Hardy evergreen shrub; height, 3 to 4 feet	"	Madeira (naturalized in Victoria and other portions of the Australian Continent)
pseudo-capsicum variegatum	Hardy evergreen shrub; height, 3 to 4 feet	"	Garden origin
nigrum ..	Linnæus ..	Black Nightshade ..	Hardy annual	"	Throughout Australia. A common weed in most tropical and temperate regions
<i>Syn. Morellæ vera</i>	Forster ..				
<i>Syn. S. rubrum</i>	Miller ..				
Sodomæum ..	Linnæus ..	Sodom Apple ..	Hardy evergreen shrub; height, 3 feet	"	Africa (naturalized in Victoria and New South Wales)
marginatum ..	Willdenow ..	Margined Nightshade	Hardy evergreen shrub; height, 4 feet	"	Africa
Morellæ vera ..	Forster ..				
rubrum ..	Miller ..	<i>Vide S. nigrum, Linnæus</i>		"	
aculeastrum ..	Dunal ..			"	
Melougena ..	Linnæus ..	Egg Plant ..	Hardy annual	"	South Africa
laciniatum ..	Aiton ..			"	Africa
vescum ..	F. Mueller ..	<i>Vide S. aviculare, Forster</i>		"	
reclinatum ..	L'Heritier ..			"	
pyracanthum ..	Jacquin ..	Firethorn Nightshade ..	Hardy evergreen shrub; height, 4 feet	"	Madagascar
Shanesii ..	F. Mueller ..	Shanesy's Nightshade ..	Hardy evergreen shrub; height, 8 feet	"	Queensland
robustum ..	Wendland ..	Bronze Nightshade ..	Hardy evergreen shrub; height, 5 feet	"	Brazil
tetrathecum ..	F. Mueller ..	Four-celled Nightshade ..	Hardy evergreen shrub	"	Queensland
texense ..	Engelman ..	Texau Nightshade ..	Hardy evergreen shrub	"	Texas
houariense ..	Linnæus ..	Buenos Ayres Nightshade ..	Hardy evergreen shrub	"	Uruguay Ayres
esculentum ..	Dunal ..				
melanocarpum ..	Dunal ..	<i>Vide S. Melougena, Linnæus</i>		"	
Plumeri ..	Dunal ..			"	
iisanum ..	Linnæus ..				
Solidago ..	Linnæus ..	GOLDEN ROD	Compositæ	
kevigate ..	Willdenow ..	Smooth Golden Rod ..	Hardy herbaceous perennial	"	North America
Virgaurea ..	Linnæus ..	Common Golden Rod ..	Hardy herbageous perennial	"	Britain
Sollya ..	Lindley	Pittosporæ	
heterophylla ..	Lindley ..	Blue Bell Creeper ..	Hardy evergreen climber	"	Western Australia
Sophora ..	Robt. Brown	Leguminosæ	
japonica ..	Linnæus ..	Pagoda Tree ..	Hardy deciduous tree; height, 30 to 60 feet	"	China and Japan
japonica, var. pendula	Weeping Pagoda ..	Hardy deciduous tree; height, 40 feet	"	Japan
tetraptera, var. grandiflora ..	Aiton ..	Kowhai of New Zealand ..	Hardy deciduous tree; height, 20 feet	"	New Zealand, Lord Howe's Island (New South Wales)
<i>Syn. Edwardsia grandiflora</i>	Salisbury ..				
tetraptera, var. microphylla ..	Hooker ..	New Zealand Lahurum or Small-leaved Kowhai	Hardy deciduous tree; height, 20 feet	"	New Zealand, South Chili, and Island of Juan Fernandez
<i>Syn. Edwardsia microphylla</i>	Botanical Magazine ..				
tomentosa ..	Linnæus ..	Kau ni alewa or Women's Tree of Fiji	Hardy evergreen shrub or small tree; height, 10 to 12 feet	"	Sea Coast of Queensland, New South Wales, South America, Cuba to Brazil, Jamaica, Antigua, Tropical Africa, India, Malayan Archipelago, Mauritius, &c.
Sorbus	Linnæus ..	<i>Vide Pyrus</i>			

Botanical Name.	Authority.	Common Name.	Description.	Order.	Habitat.
orghum ..	<i>Persoon</i>	Gramineæ	
halepense ..	<i>Persoon</i> ..	Aleppo Grass ..	Hardy perennial	"	Shores of the Mediterranean (naturalized in Australia)
Syn. <i>Andropogon halepensis</i>	<i>Sibthorp</i>				
saccharatum ..	<i>Moench</i> ..	Sugar Sorghum Grass ..	Hardy annual	"	India
panoghea ..	<i>Blume</i>	Sapindaceæ	
nephelioides ..	<i>F. Mueller</i> ..	<i>Vide Nephelium leiocarpum</i> , <i>F. Mueller</i>		"	
paraxis ..	<i>Ker</i> ..	AFRICAN HARLEQUIN FLOWER	Iridaceæ	
grandiflora ..	<i>Ker</i> ..	Purple Harlequin Flower ..	Hardy bulbous-rooted perennial ..	"	Cape of Good Hope
grandiflora, var. liliago	Lily-like Harlequin Flower ..	Hardy bulbous-rooted perennial ..	"	Cape of Good Hope
bulbifera ..	<i>Ker</i> ..	Bulb - bearing Harlequin Flower	Hardy bulbous-rooted perennial ..	"	Cape of Good Hope (naturalized in the vicinity of Melbourne)
tricolor ..	<i>Ker</i> ..	Common Harlequin Flower ..	Hardy bulbous-rooted perennial ..	"	Cape of Good Hope
tricolor, var. grandiflora	Great Harlequin Flower ..	Hardy bulbous-rooted perennial ..	"	Cape of Good Hope
pendula ..	<i>Ker</i> ..	Drooping Harlequin Flower ..	Hardy bulbous-rooted perennial ..	"	Cape of Good Hope
parmania ..	<i>Thunberg</i> ..	AFRICAN HEMP	Tiliaceæ	
africana ..	<i>Linnaeus</i> fl..	Common African Hemp ..	Hardy evergreen shrub ; height, 8 to 12 feet	"	Cape of Good Hope
partium ..	<i>Linnaeus</i> ..	BROOM	Leguminosæ	
juncicum ..	<i>Linnaeus</i> ..	Spanish Broom ..	Hardy deciduous shrub ; height, 6 feet	"	South Europe
linifolium ..	<i>Desfontaine</i>	Flax-leaved Broom ..	Hardy deciduous shrub ..	"	Spain
scoparium ..	<i>Linnaeus</i> ..	Common English Broom ..	Hardy deciduous shrub ; height, 6 feet	"	Europe
Syn. <i>Sarothamnus vulgaris</i>	<i>Wimmer</i>	..			
pathoglottis ..	<i>Blume</i>	Orchidææ	
pacifica (?)	Stove or greenhouse herbaceous perennial ..		"	
pergula ..	<i>Linnaeus</i> ..	SPURREY	Caryophyllææ	
arveusis ..	<i>Linnaeus</i> ..	Coru Spurrey ..	Hardy annual	"	Europe and Asia
pilifera ..	<i>De Candolle</i>	Hairy Spurrey ..	Hardy herbaceous perennial ..	"	Corsica
piraea ..	<i>Linnaeus</i> ..	QUEEN OF THE MEADOWS, MEADOW SWEET, DROP-WORT, &c.	Rosaceæ	
Blumei ..	<i>G. Don</i> ..	Blume's Dropwort ..	Hardy deciduous shrub	"	Java
bella ..	<i>Sims</i> ..	Pretty Dropwort ..	Hardy deciduous shrub ; height, 3 feet	"	Nepaul
callosa ..	<i>Thunberg</i> ..	Rough Dropwort ..	Hardy deciduous shrub ; height, 3 feet	"	China
Douglasii ..	<i>Hooker</i> ..	Douglas's Dropwort ..	Hardy evergreen shrub ; height, 4 feet	"	Columbia
chamaedrifolia, var. oblongifolia	<i>Linnaeus</i> ..	Oblong-leaved Dropwort ..	Hardy evergreen shrub ; height, 3 feet	"	Hungary
confusa ..	<i>Regel</i> ..	Tangled Dropwort ..	Hardy deciduous shrub ; height, 3 feet	"	India
carpinifolia ..	<i>Willdenow</i> ..	Hornbeam-leaved Dropwort ..	Hardy deciduous shrub ; height, 5 feet	"	North America
salicifolia ..	<i>Linnaeus</i> ..	Willow-leaved Dropwort ..	Hardy deciduous shrub ; height, 5 feet	"	Britain
salicifolia, var. rosea	Rose-colored Willow-leaved Dropwort ..	Hardy deciduous shrub ; height, 5 feet	"	Europe
Lindleyana ..	<i>Wallich</i> ..	Lindley's Dropwort ..	Hardy evergreen shrub ; height, 2 feet	"	Himalayas
ulmifolia ..	<i>Willdeuw</i> ..	Elm-leaved Dropwort ..	Hardy herbaceous perennial ; height, 3 feet	"	Caruila
nutans, var. ar- gentata ..	<i>Royle</i> ..	Silvery Dropwort ..	Hardy deciduous shrub ; height, 2 feet	"	Nepaul
nutans, var. rhamnifolia	Buckthorn-leaved Dropwort ..	Hardy deciduous shrub ; height, 2 feet	"	Nepaul
Fortunei ..	<i>Lindley</i> (?) ..	Fortune's Dropwort ..	Hardy evergreen shrub ; height, 2 feet	"	Japan
japonica ..	<i>Siebold</i> ..	Japanese May ..	Hardy herbaceous perennial ..	"	Japan
hypericifolia ..	<i>Linnaeus</i> ..	Italian May ..	Hardy deciduous shrub ; height, 3 feet	"	North America (?), South Europe (?)
hypericifolia, var. flore-pleno	Double-flowered Italian May ..	Hardy deciduous shrub ; height, 3 feet	"	
opulifolia ..	<i>Linnaeus</i> ..	Guelder Rose-leaved Dropwort ..	Hardy deciduous shrub ; height, 4 feet	"	North America
palmata ..	<i>Thunberg</i> ..	Hand-leaved Dropwort ..	Hardy deciduous shrub	"	Java
Reevesiana ..	<i>Lindley</i> ..	Reeve's Mayflower or Dropwort ..	Hardy evergreen shrub ; height, 5 feet	"	China
Reevesiana, var. flore-pleno	Double-flowered or Chinese May or Dropwort ..	Hardy evergreen shrub ; height, 5 feet	"	China
rupestris	Rock Dropwort ..	Hardy herbaceous perennial ..	"	
Thunbergii ..	<i>Siebold</i> ..	Thunberg's Dropwort ..	Hardy deciduous shrub ; height, 2 feet	"	Java
filipendula ..	<i>Linnaeus</i> ..	Commou Dropwort ..	Hardy herbaceous perennial ..	"	Europe
Ulmaria ..	<i>Linnaeus</i> ..	Queen of the Meadows or Meadow Sweet ..	Hardy herbaceous perennial ..	"	Europe
spondias ..	<i>Linnaeus</i> ..	HOG PLUM	Anacardiaceæ	
pleiogyna ..	<i>F. Mueller</i> ..	Queensland Hog Plum ..	Hardy evergreen tree	"	Queensland

* The Chinese or Oriental Arbor-vitæs are classed by modern botanists under the generic name *Biota* (Don). They differ slightly in the form of the carpel and also in the seed from the true *Thuya*, the seed of the latter being flat and winged, whilst that of the Biotas, are all classed here under the generic name *Thuya*, to which genus they were originally referred. The synonyms are given to avoid confusion.

APPENDIX A.

LIST OF PLANTS IN THE NATURAL ORDERS GROUPED ON THE VARIOUS LAWNS, &c.

* * It will be seen, by referring to the Catalogue (pages 1 to 170), that many of the species named in this Appendix will not be found in the former, owing to their having been introduced to the collection after much of the MS. had been printed.

ACANTHACEÆ.—EASTERN LAWN.

<i>Acanthus latifolius</i>	<i>Dicliptera violacea</i>	<i>Justicia hyssopifolia</i>	<i>Strobilanthes laevigatus</i>
<i>longifolius</i>	<i>Dipteracanthus spectabilis</i>	<i>splendens</i>	<i>Thunbergia grandiflora, var. alba</i>
<i>mollis</i>	<i>Eranthemum variable</i>	<i>Libonia floribunda</i>	<i>Hawtayneana</i>
<i>montanus</i>	<i>Goldfussia anisophylla</i>	<i>penrhosiensis</i>	<i>javanica</i>
<i>spinosa</i>	<i>Justicia Adhatoda</i>	<i>Mackaya bella</i>	<i>laurifolia</i>
<i>Adhatoda cydoniæfolia</i>	<i>carnea</i>	<i>Ruellia spectabilis</i>	<i>natalensis</i>
<i>Barleria obtusa</i>			

AMARYLLIDÆ.—EASTERN LAWN.

<i>Agave americana</i>	<i>Alstroemeria psittacina</i>	<i>Crinum longifolium</i>	<i>Narcissus calathinus</i>
<i>angustifolia</i>	<i>Amaryllis belladonna</i>	<i>pedunculatum</i>	<i>Jonquilla</i>
<i>corulegens</i>	<i>belladonna, var. blanda</i>	<i>revolutum</i>	<i>poeticus</i>
<i>densiflora</i>	<i>belladonna, var. purpurea</i>	<i>uniflorum</i>	<i>Pseudo-narcissus</i>
<i>genuiniflora</i>	<i>major</i>	<i>Cyrtanthus spiralis</i>	And several hybrid varieties
<i>ixtilloides</i>	<i>formosissima</i>	<i>Doryanthes excisa</i>	<i>Nerine Fothergilli</i>
<i>Jacquini</i>	<i>nivea</i>	<i>Palmeri</i>	<i>humilis</i>
<i>Karatto</i>	<i>psittacina, variety Johnsonii</i>	<i>Fourcroya bulbosa</i>	<i>sarniensis</i>
<i>mexicana</i>	<i>vittata</i>	<i>cotula</i>	<i>undulata</i>
<i>micrantha</i>	<i>Anigozanthus flavidus</i>	<i>gigantea</i>	<i>undulata, variety aurea</i>
<i>picta</i>	<i>Mauglesii</i>	<i>longæva</i>	<i>Pancratium littorale</i>
<i>potatorum</i>	<i>Bravoa geminiflora</i>	<i>Haemanthus albiflos</i>	<i>maritimum</i>
<i>pubella</i>	<i>Brunsvigia Guiffoylei</i>	<i>carneus</i>	<i>Sprekelia formosissima</i>
<i>rigida</i>	<i>Josephiae</i>	<i>coccineus</i>	<i>glauca</i>
<i>Rumphii</i>	<i>Calostemma purpurea</i>	<i>pumiceus</i>	<i>Sternbergia alba</i>
<i>salimiana</i>	<i>Chlidanthus fragrans</i>	<i>Hypoxis stellipilis</i>	<i>lutea</i>
<i>vivipara</i>	<i>Clivia nobilis</i>	<i>villosus</i>	<i>Ureolina aurea</i>
<i>xylonacantha</i>	<i>Crinum amabile, variety roseum</i>	<i>Leucojum aestivum</i>	<i>Vallota purpurea</i>
<i>Alstroemeria brasiliensis</i>	<i>asiaticum, var. angustifolium</i>	<i>pulchellum</i>	<i>Zephyraethes carinata</i>
<i>Errembaulti</i>	<i>capense, variety rubrum</i>	<i>vernun</i>	<i>ochroleuca</i>
<i>relegrina</i>	<i>giganteum</i>	<i>Narcissus biflorus</i>	

ANACARDIACEÆ.—NEAR CENTRAL LAWN AND PROPAGATING DEPARTMENT.

<i>Corynocarpus laevigatus</i>	<i>Rhus Cotinus</i>	<i>Rhus semialata</i>	<i>Rhus typhina</i>
<i>Harpephyllum capense</i>	<i>hypoleuca</i>	<i>tomentosa</i>	<i>undulata</i>
<i>Loxostylis alata</i>	<i>laevigata</i>	<i>succedanea</i>	<i>venenata</i>
<i>Pistacia Terebinthus</i>	<i>lucida</i>	<i>Toxicodendron</i>	<i>Schinus molle</i>
<i>Rhus copallina</i>	<i>pentaphylla</i>	<i>Toxicodendron, var. radicans</i>	<i>Spondias pleiogyne</i>

ANONACEÆ.—GROUPED WITH MAGNOLIACEÆ, WESTERN LAWN.

<i>Eupompatia laurina</i>	<i> Guatteria caffra</i>
---------------------------	---------------------------

BERBERIDÆ.—WESTERN LAWN.

<i>Berberis aristata</i>	<i>Berberis fuchsoides</i>	<i>Berberis lycium</i>	<i>Berberis sinensis</i>
<i>asiatica</i>	<i>heteropoda</i>	<i>macrophylla</i>	<i>stenophylla</i>
<i>aquifolium</i>	<i>Hookeri</i>	<i>uepalensis</i>	<i>trifoliata</i>
<i>canadeusis</i>	<i>hypoleuca</i>	<i>Newberti</i>	<i>virgata</i>
<i>crassifolia</i>	<i>siberica</i>	<i>orientalis</i>	<i>vulgaris</i>
<i>crataegina</i>	<i>integerrima</i>	<i>pallida</i>	<i>vulgaris, variety purpurea</i>
<i>Darwinii</i>	<i>Jamiesonii</i>	<i>pinnata</i>	<i>vulgaris, variety fructo lutea</i>
<i>diversifolia</i>	<i>japonica</i>	<i>provincialis</i>	<i>Epimedium pinnatum</i>
<i>dulcis</i>	<i>Iaxiflora</i>	<i>sanguinolenta</i>	<i>Nandina domestica</i>
<i>Fortunei</i>	<i>Leschenaultii</i>		

View from the foot of the Beni Bridge across the River. Bridge in the distance.

BIGNONIACEÆ.—EASTERN LAWN.

Amphicome Emodi	<i>Bignonia ornata</i>	<i>Eccremocarpus seaber</i>	<i>Tecoma filva</i>
Bignonia alba lutea	<i>Twediana</i>	<i>Jacaranda mimosifolia</i>	<i>jasminoides</i>
capreolata	<i>venusta</i>	<i>Mansoa lanceolata</i>	<i>jasminoides alba</i>
carnea	<i>Campsidium valdivianum</i>	<i>Oxera pulchella</i>	<i>McKenii</i>
Chirero	<i>Catalpa bignonioides</i>	<i>Tecoma australis</i>	<i>radicans</i>
grandiflora	<i>Bungei</i>	<i>capensis</i>	<i>sorbiifolia</i>
Guilfoylei	<i>speciosa</i>	<i>ceramensis</i>	<i>Stans</i>
Lindleyana			

CAPPARIDÆ.—WESTERN LAWN.

Capparis Mitchellii	<i>Capparis sarmentosa</i>	<i>Capparis, species from Queensland</i>	<i>Polanisia graveolens</i>
nobilis	<i>spinosa</i>		

CAPRIFOLIACEÆ.—CENTRAL LAWN.

Abelia rupestris	<i>Lonicera californica</i>	<i>Sambucus nigra aurea</i>	<i>Viburnum chinense</i>
triflora	<i>capitata</i>	<i>canadensis</i>	<i>dentatum</i>
uniflora	<i>caprifolium rubrum</i>	<i>xanthocarpa</i>	<i>Opulus</i>
Diervilla amabilis	<i>chinensis</i>	<i>Symporicarpus racemosus</i>	<i>rugosum</i>
rosea	<i>sempervirens</i>	<i>vulgaris</i>	<i>Sieboldi</i>
Lonicera brachypoda, var. aurea	<i>tatarica</i>	<i>Viburnum acuminatum</i>	<i>suspensum</i>
reticulata	<i>Sambucus nigra</i>	<i>cassinoides</i>	<i>Tinus</i>

CISTINEÆ.—WESTERN LAWN.

Cistus corborensis	<i>Cistus ladaniferus</i>	<i>Cistus villosus</i>	<i>Helianthemum polifolium</i>
creticus	<i>Ledon</i>	<i>vulgaris</i>	<i>serpyllifolium</i>
creticus, variety tauricus	<i>monspeliensis</i>	<i>Helianthemum apenninum</i>	<i>thymifolium</i>
crispus	<i>parviflorus</i>	<i>halimifolium</i>	<i>umbellatum</i>
formosissimus	<i>polymorphus</i>	<i>lavandulæfolium</i>	<i>variabile</i>
hirsutus	<i>salvifolius</i>	<i>mutabile</i>	

CUPULIFERÆ.—WESTERN LAWN.

Carpinus Betulus	<i>Quercus betulifolia</i>	<i>Quercus Hindsii</i>	<i>Quercus polycarpa</i>
Corylus Avellana	<i>bicolor</i>	<i>Ilex</i>	<i>pseudo-suber</i>
Fagus Cuuniughamii	<i>cornuta</i>	<i>Ilex, variety</i>	<i>reticulata</i>
Menziesii	<i>castanea</i>	<i>inversa</i>	<i>Robur</i>
Solandri	<i>cerris</i>	<i>lanata</i>	<i>Robur, variety fastigiata</i>
sylvatica	<i>Chêne Blanc</i>	<i>lusitanica</i>	<i>serrata</i>
sylvatica, variety purpurea	<i>cineræa</i>	<i>lusitanica, variety Hodgkin-</i>	<i>sonomensis</i>
Myrica californica	<i>coccifera</i>	<i>sonnii</i>	<i>spicata</i>
cerifera	<i>coccinea</i>	<i>Mirbeckii</i>	<i>suber</i>
rubra	<i>Dalechampi</i>	<i>macrocarpa</i>	<i>virens</i>
Quercus Ægilops	<i>glabra</i>	<i>mexicana</i>	<i>species from India</i>
agrifolia	<i>heterophylla</i>	<i>palustris</i>	
alba		<i>paniculata</i>	

CYCADEÆ.—NEAR EASTERN LAWN.

Cycas circinalis	<i>Encephalartos horridus</i>	<i>Macrozamia McKeni</i>	<i>spiralis</i>
media	<i>Altensteinii</i>	<i>Miquelli</i>	<i>tenuifolia</i>
revoluta	<i>cycadifolia</i>	<i>Paulo Guilielmi</i>	

EPACRIDÆ.—WESTERN LAWN.

Acrotriche serrulata	<i>impressa alba</i>	<i>obtusifolia</i>	<i>Sprengelia incarnata</i>
Astroloma humifusa	<i>impressa rosea</i>	<i>Leucopogon Richei</i>	<i>Styphelia adscendens</i>
Cyathodes species	<i>longiflora</i>		

Dracophyllum longifolium			
Andromeda canaliculata	<i>Clethra arborea</i>	<i>Erica concinna</i>	<i>Erica scoparia</i>
Catesbeiana	<i>Cyrilla racemiflora</i>	<i>erueta</i>	<i>tetralix alba</i>
Mariana	<i>Erica arborea</i>	<i>empetroides</i>	<i>urceolaris</i>
phillyraefolia	<i>Allportei</i>	<i>Ewersiana</i>	<i>vagans</i>
Arbutus canarieus	<i>baccans</i>	<i>hybrida</i>	<i>ventricosa</i>
coccineus	<i>Bowieana</i>	<i>linnaeoides</i>	<i>verticillata</i>
procera	<i>calycina</i>	<i>mammosa</i>	<i>vulgaris</i>
Unedo	<i>campanulata</i>	<i>Paxtonii</i>	<i>Willmoreana</i>
Arctostaphylos arbutoides	<i>Cavendishii</i>	<i>persoluta, variety alba</i>	<i>Menziesia polifolia</i>
glauca	<i>ciliaris</i>	<i>pyramidalis, variety gracilis</i>	<i>polifolia, variety alba</i>
Azalea indica	<i>cinerea</i>	<i>rigida</i>	<i>Rhododendron campanulatum</i>
triumphans	<i>cinerea, var. rosea</i>	<i>ribbens</i>	<i>ponticum</i>
Clethra alnifolia			

HYDROPHYLACEÆ.—WESTERN LAWN.

<i>Entoca viscosa</i>	<i>Nemophila discoidalis</i>	<i>Wigandia imperialis</i>	<i>Phacelia congesta</i>
<i>Frauklini</i>	<i>maculata</i>	<i>urens</i>	<i>tanacetifolia</i>
<i>Nemophila atomaria</i>	<i>insignis</i>	<i>Vigieri</i>	

IRIDEÆ.—CENTRAL LAWN.

<i>Anomatheca cruenta</i>	<i>Iris florentina</i>	<i>Ixia plantus</i>	<i>Tigridia conchiflora</i>
<i>Antholyza ethiopica</i>	<i>foxtidissima</i>	<i>purpurea</i>	<i>conchiflora, variety grandiflora</i>
<i>Aristea cyanea</i>	<i>germanica</i>	<i>rosea</i>	<i>pavonia</i>
<i> major</i>	<i>germanica, variety haemato-</i>	<i>secundo-patens</i>	<i>Trichonema bulbicodium</i>
<i>Babiana coerulea</i>	<i>phylla</i>	<i>sulphurea, variety maculata</i>	<i>eruca</i>
<i> purpurea</i>	<i>Cuildenstaedtii</i>	<i>versicolor</i>	<i>speciosum</i>
<i>Bobartia aurantiaca</i>	<i>iberica</i>	<i>viridiflora</i>	<i>Tritonia aurea</i>
<i>Crocus autumnalis</i>	<i>Kaempferi</i>	<i>And several varieties</i>	<i>crispa</i>
<i> sativus</i>	<i>jurida</i>	<i>Libertia formosa</i>	<i>crocata</i>
<i> vernus</i>	<i>notha</i>	<i>ixioides</i>	<i>feuestrata</i>
<i>Cypella Herberti</i>	<i>ochroleuca</i>	<i>paniculata</i>	<i>fenestrata, variety rufescens</i>
<i>Diasia graminifolia</i>	<i>persica</i>	<i>Marica coerulea</i>	<i>fucata</i>
<i>Diictes bicolor</i>	<i>pseudo-acorus</i>	<i>Northiana</i>	<i>fulva</i>
<i> quadricolor</i>	<i>setosa, variety atro-coerulea</i>	<i>Moraea Robinsonia</i>	<i>gracilis</i>
<i>Diplarrhena Morea</i>	<i>siberica</i>	<i>Pardanthus chinensis</i>	<i>lineata</i>
<i>Ferraria undulata</i>	<i>stylosa</i>	<i>Patersonia glauca</i>	<i>maculata</i>
<i>Freesia Leichtiana</i>	<i>sub-biflora</i>	<i>longiscapa</i>	<i>miniata</i>
<i>Galaxia graminea</i>	<i>tridentata</i>	<i>Renealmia grumelifolia</i>	<i>rosea</i>
<i>Geissorhiza secunda, var. coerulea</i>	<i>versicolor</i>	<i>Schizostylis coccinea</i>	<i>speciosa</i>
<i>Gladiolus brenchleyensis</i>	<i>Xiphoides</i>	<i>Sisyrinchium californicum</i>	<i>squalida</i>
<i> Colvillei</i>	<i>Xiphium</i>	<i>grandiflorum</i>	<i>Vieusseuxia glaucopis</i>
<i> communis</i>	<i>And numerous varieties</i>	<i>iridifolium</i>	<i>Watsonia aletroides</i>
<i> floribundus</i>	<i>Ixia alba</i>	<i>palchellum</i>	<i>coccinea</i>
<i> gandavensis</i>	<i>amoena</i>	<i>tenuifolium</i>	<i>gigantea</i>
<i> hirsutus</i>	<i>aurantiaca</i>	<i>Sparaxis bulbifera</i>	<i>Meriana</i>
<i> segetus</i>	<i>capillaris</i>	<i>grandiflora</i>	<i>rosea</i>
<i> serotinus</i>	<i>erecta, variety lutea</i>	<i>grandiflora, variety liliago</i>	<i>spicata</i>
<i>Iris Alberti</i>	<i>flexuosa</i>	<i>pendula</i>	<i>And several varieties</i>
<i> compressa</i>	<i>hybrida</i>	<i>tricolor</i>	
<i> flexuosa</i>	<i>longiflora alba</i>	<i>And several varieties</i>	
	<i>maculata</i>		

JASMINÆ.—EASTERN LAWN.

<i>Forestiera pubescens</i>	<i>Jasminum fruticans</i>	<i>Ligustrum nepalensis</i>	<i>Olea ilicifolia</i>
<i>Forsythia Fortunei</i>	<i>grandiflorum</i>	<i>ovalifolium</i>	<i>verrucosa</i>
<i> suspena</i>	<i>nudiflorum</i>	<i>syringaeifolium</i>	<i>Wrightii</i>
<i> viridissima</i>	<i>officinale</i>	<i>undulatum</i>	<i>Osmanthus multiflorus</i>
<i>Fraxinus americana</i>	<i>pubigerum</i>	<i>vulgare</i>	<i>myrtifolius</i>
<i> chinensis</i>	<i>racemosum</i>	<i>vulgare, variety leucocarpum</i>	<i>ilicifolius</i>
<i> excelsior</i>	<i>revolutum</i>	<i>Notelaea ligustrina</i>	<i>Phillyrea angustifolia</i>
<i>Ornus</i>	<i>Saubac</i>	<i>longifolia</i>	<i>latifolia</i>
<i> potamophila</i>	<i>simplicifolium</i>	<i>Olea capensis</i>	<i>media</i>
<i> pubescens</i>	<i>suavissimum</i>	<i>europea</i>	<i>oleaefolia</i>
<i>Jasminum auriculatum</i>	<i>Ligustrum glabrum variegatum</i>	<i>europea, variety ferruginea</i>	<i>Syringa persica</i>
<i> didymum</i>	<i>japonicum</i>	<i>fragrans</i>	<i>vulgaris</i>

LAURINÆ.—WESTERN LAWN.

<i>Cassytha melantha</i>	<i>Cryptocarya australis</i>	<i>Hernandia bivalvis</i>	<i>Laurus nobilis</i>
<i>Cinnamomum Camphora</i>	<i>glaucescens</i>	<i>Laurus carolinensis</i>	<i>Oreodaphne californica</i>
<i> dulce</i>	<i>obovata</i>	<i>indica</i>	<i>Tetranthera ferruginea</i>
<i> zeylanicum</i>	<i>tripinnervis</i>		

LEGUMINOSÆ.—CENTRAL LAWN.

GROUP No. 1.			
<i>Acacia Drummondii</i>	<i>Acacia saligna</i>	<i>Caesalpinia nutans</i>	<i>Coronilla varia</i>
<i> Farnesiana</i>	<i>suaveolens</i>	<i>Cercis siliquastrum</i>	<i>Cytisus Alschingeri</i>
<i> implexa</i>	<i>Araclis hypogaea</i>	<i>Cicer arietinum</i>	<i>candicans</i>
<i> podalyriæfolia</i>	<i>Aspalathus sericeus</i>	<i>Cianthus Dampieri</i>	<i>Laburnum</i>
<i> prominens</i>			

LEGUMINOSÆ.—CENTRAL LAWN—continued.

GROUP No. 1—continued.

Cytisus proliferus	Erythrina laurifolia	Lathyrus odoratus	Medicago media
Derris scandens	speciosa	Lotus cytoides	sativa
Ebenus creticus	umbrosa	major	Melilotus albus
Ervum Ervilia	varinm	Lupinus angustifolius	Mezomeurum eucallatum
Erythrina Blakei	Genista monosperma	elegans	Onobrychis sativa
caffra	ramosissima	hirsutus	Podalyria argentea
compacta	Gleditschia triacanthos	Thermis	Psoralea acaulis
Crista galli	Goodia lotifolia	tricolor	Vicia Cracca
Harrisonii	Indigofera juncea	Medicago lupulina	sativa

GROUP No. 2.

Acacia acinacea	Carmichaelia australis	Hovea, species	Psoralea calmifolia
dentifera	Cassia Blumeana	Indigofera lucana	bituminosa
Jullibrissin	Cercis canadensis	Inga pulcherrima	Pultenaea scabra
promiuens	Chianthus puniceus	Jacksonia scoparia	sub-umbellata
Adenocarpus foliosus	Coronilla glauca	Lotus pilosissimus	Sophora tetrapetala
frankenioides	Eutaxia myrtifolia	Mimosa rubicaulis	Templetonia retusa
Bossiea eusata	Hardenbergia monophylla, var.	Pithecellobium, species	Tetragonolobus purpurens
Calliandra portoricensis	rosea	Poinciana Gilliesii	

GROUP No. 3.

Acacia excelsa	Baptisia australis	Indigofera australis	Pultenaea paleacea
lineata	Bossiea prostrata	Lathyrus latifolius	Retama sphaerocarpa
oxycedrus	Bracteolaria racemosa	Lupinus arboreus	Spartium scorpiarium
retinodes	Cassia Brewsteri	Platylobium formosum	Sphaerolobium vimineum
species from Java	Cytisus albus	Podalyria styracifolia	Virgilia aurea
Amorpha fruticosa	Genista ethiopis	Psoralea bitumiunosa	capensis
Anthyllis barba-jovis	Galega persica	Pultenaea scabra	

GROUP No. 4.

Acacia horrida	Caesalpinia Tara	Genista canariensis	Sophora tetrapetala
longifolia	Cassia Candolleana	Goodia lotifolia, variety medicaginea	Spartium grandiflorum
lumata	corymbosa	Gymnocladus canadensis	juncinum
mucronata	glauca	Kennedya McKayana	linifolium
pulchella	polyantha	Lathyrus tingitanus	Sutherlandia speciosa
Riceana	pseudo-sophora	Lonchocarpus Blackii	Swainsona galegifolia
spectabilis	Castanospermum australe	Oxylobium Callistachys	galegifolia, variety Osborui
stenophylla	Coronilla Valentina	Podalyria sericea	galegifolia, variety Osborni
nlicina	Crotalaria arborescens	Psoralea aculeata	flavescens
urophylla	purpurea	pinnata	Greyana
Adenocarpus cebenensis	Cyista scariosa	speciosa	Trigonella foenum-graecum
Anthyllis Hermanniae	Cytisus filipes	Pithecellobium pruniuosum	Wistaria sinensis
Brachysema lanceolata	Dorycnium suffruticosum		megasperma
Canavallia bonariensis			

LILIACEÆ.—CENTRAL LAWN.

Agapanthus umbellatus	Aloe carinata	Asparagus caspianus	Colchicum autumnale
umbellatus albus	ciliaris	Dregeanus	Convallaria majalis
Allium Ascalonicum	echinata	longifolius	majalis flore-pleno
Cepa	ensifolia	officinalis	Cordyline australis
ceruleum	formosa	Aphodelus albus	cannabifolia
fistulosum	glabra	fistulosus	congesta
hymenorrhizum	granata	luteus	Cookii
odorum	latifolia	ramosus	Forsteri
oleraceum	margaritifera	Astelia, species	Murchisonii
Pormum	obtusifolia	Beaucarnea glauca	nutans
sativum	picta	Bellevalia dubia	pumilio
scorodoprasum	plicatilis	romana	purpurascens
seuescens	saponaria	Blandfordia Cunninghamii	robusta
stellerianum	scalra	Brodiaea volubilis	terminalis
steveni	setata	Bulbine aloides	Cyanella capensis
vineale	spiralis	bulbosa	Dianella caerulea
Aloe angulata	And numerous other species	Burchardia umbellata	elegans
augustifolia	Anguillaria dioica	Cesia vittata	intermedi
arborescens	Arthropodium cirrhatum	Calochortus luteus	kevis
brachyphylla	paniculatum	Chamessilla coryniflora	latifolia

LILIACEÆ.—CENTRAL LAWN—continued.

Dianella revoluta	Lilium Dahuricum	Ornithogalum arabicum	Smilax deltoidea
Dichopogon strictus	elegans, variety mamosum	lanceolatum	latifolia
Disporum, species	eximium	nanum	rotundifolia
Dracæna Draco	fulgens	narbonense	Sarsaparilla
fragrans	lancifolium	thyrsoides, variety albiflorum	species from Queensland
lineata	longiflorum	umbellatum	species from Saharanpur, India
Veitchii	Martagou	Phormium Colensoi	Stypandra cespitosa
Echeandia terniflora	Maximowiczii	tenax	Thysanotus Patersoni
Eucomis viridiflora	pardalinum	tenax, bronze-leaved	Tricyrtis hirta
Eustephia latifolius	speciosum, variety rubrum	tenax, variegatum	Triteleia laxa
Geitonoplesium cymosum	Tapisia	Polianthes tuberosa	Tritoma aurea
Hartwegia comosa	Thunbergianum	Polygonatum giganteum	uvaria, variety glaucescens
Hemerocalis flava	tigrinum	vulgare	Tulips, numerous varieties
fulva	venustum	Reineckia carnea	Ursine Scilla
fulva, flore-pleno	And numerous varieties	Ruscus aculeatus	Veiltheimia capeusia
Hyacinthus candidans	Melanthium javanicum	Sansevieria zeylanica	Yucca aloifolia
Romanus	speciosum	Scilla Clusiana	aloifolia variegata
Lachenalia luteola	Muscari commutatum	japonica	augustifolia
peudula	comosum, variety monstrosum	nutans	californica
Leucocoryne alliacea	racemosum	peruviana	crenulata
Lilium bulbiferum, variety umbelatum	botryoides	pumila	Draconis
candidum	Myrsiphyllum asparagooides	spicata	filamentosa
citrosum	Nothoscordum striatellum	And several varieties	gloriosa
croceum	striatum	Similax aspera	graminifolia
cruentum	Ophiopogon spicatus	auriculata	Whippleyi
	Ornithogalum atticum	China	

LOGANIACEÆ.—GROUPED WITH SCROPHULARIÆ ON CENTRAL LAWN.

Buddleia dysophylla	Buddleia madagascariensis	Buddleia saligna	Buddleia salvifolia
globosa	madagascariensis, variety cauescens		

LYTHRACEÆ.—CENTRAL LAWN.

Cuphea jorullensis	Lagerstroemia indica, variety alba	Lythrum tomentosum	Punica granatum, variety naua
platycarpa	reginae	virgatum	granatum, variety flavum
procumbens	violacea	Nesaea salicifolia	granatum, variety flore-pleno
Roezlii	Lythrum salicaria	salicifolia, variety grandiflora	rubrum
Lagerstroemia indica	salicaria, variety speciosum	Punica granatum	

MAGNOLIACEÆ.—WESTERN LAWN.

Drimys aromatica	Magnolia acuminata	Magnolia grandiflora	Magnolia superba
axillaris	Campbellii	lanceolata	tripetala
Illicium anisatum	fuscata	Lenne	Yulan
floridanum	fuscata, variety anonaefolia	obovata	Michelia Champaca
Liriodendron tulipifera	glauca	spectabilis	

MELASTOMACEÆ.—EASTERN LAWN.

Heeria rosea	Lasiandra Fontanesiana	Memecylon cerasiformis	Pleroma sarmentosa
rosea, variety alba	macrantha		

MYOPORINÆ.—EASTERN LAWN.

Eremophila bignoniiflora	Eremophila oppositifolia	Myoporum humile	Myoporum viscosum
longitolia	Myoporum Cunninghamii	letum	Pholidia divaricata
maculata	deserti	platycarpum	gibbifolia

MYRTACEÆ.—CENTRAL LAWN.

Backhousia myrtifolia	Eucalyptus occidentalis	Eugenia Ventenatii	Myrtus acuminatus
Callistemon salignus	resinifera	Kunzea parvifolia	bullatus
Eucalyptus dives	siderophloia	Leptospermum ericoides	communis
exserta	Eugenia eucalyptoides	Melaleuca decussata	melastomoides
globulus	myrtifolia	Gummania	Phyllocladus edulis
leucoxylo, variety rubra	orbiculata	squarroso	Psidium Cattleyaum
Luehammiana	uniflora	Metrosideros, species	Rhodamnia trinervia

MYRTACEÆ.

GROUP No. 1.

<i>Angophora intermedia</i>	<i>Calothamnus quadrifidus</i>	<i>Eugenia Janibonae</i>	<i>Melaleuca gibba</i>
<i>Astartea fuscicularis</i>	<i>Eucalyptus corynocalyx</i>	<i>Jambos</i>	<i>incana</i>
<i>Callistemon brachyandrus</i>	<i>cornuta</i>	<i>Eugenia parvifolia</i>	<i>parviflora</i>
<i>coccineus</i>	<i>cosmophylla</i>	<i>Smithii</i>	<i>sparsiflora</i>
<i>lanceolatus</i>	<i>ficifolia</i>	<i>Ugni</i>	<i>tamariscina</i>
<i>linearifolius</i>	<i>Praeissiana</i>	<i>Genetyllis pinchii</i>	<i>Metrosideros floribunda</i>
<i>linearis</i>	<i>punctata</i>	<i>Kunzea pedunculata</i>	<i>Nelitris ingens</i>
<i>speciosus</i>	<i>Watsoni</i>	<i>Leptospermum lanigerum</i>	<i>Psidium Cattleyanum</i>
<i>Calothamnus purpurascens</i>	<i>Eugenia grandis</i>	<i>Melaleuca elliptica</i>	

GROUP No. 2.

<i>Callistemon rigidus</i>	<i>Kunzea corifolia</i>	<i>Melaleuca sparsiflora</i>	<i>Sympetrum laurifolia</i>
<i>Eucalyptus megacarpa</i>	<i>Melaleuca aruularis</i> (variety)		

GROUP No. 3.

<i>Calythrix Sullivani</i>	<i>Eugenia Ugni</i>	<i>Melaleuca</i> , species	<i>Thryptomene Mitchelliana</i>
<i>Eugenia apiculata</i>	<i>Lhotskya genetylloides</i>	<i>Micromyrtus microphylla</i>	

GROUP No. 4.

<i>Agonis flexuosa</i>	<i>Eucalyptus piperita</i>	<i>Melaleuca genitifolia</i>	<i>Melaleuca uncinata</i>
<i>marginata</i>	<i>punctata</i>	<i>hypericifolia</i>	<i>Wilsonii</i>
<i>Callistemon</i> , species	<i>Eugenia Maire</i>	<i>lateritia</i>	<i>Metrosideros robusta</i>
<i>Eucalyptus dumosa</i>	<i>Leptospermum levigatum</i>	<i>linariifolia</i>	<i>Tristia conferta</i>
<i>Lehmannii</i>	<i>Melaleuca armillaris</i>	<i>micromera</i>	<i>laurina</i>
<i>patens</i>	<i>ericifolia</i>	<i>styphelioides</i>	<i>neriifolia</i>

PALMÆ.—EASTERN LAWN.

<i>Areca Baueriana</i>	<i>Diplothemium maritimum</i>	<i>Livistona humilis</i>	<i>Ptychosperma Alexaudræ</i>
<i>sapida</i>	<i>Eleis melanococca</i>	<i>oliviformis</i>	<i>Cunninghamii</i>
<i>Brahea filamentosa</i>	<i>Jubaea spectabilis</i>	<i>rotundifolia</i>	<i>legans</i>
<i>Calamus australis</i>	<i>Kentia Elmmoreana</i>	<i>Phoenix acaulis</i>	<i>Raphis filabelliformis</i>
<i>Caryota urens</i>	<i>Canterburyana</i>	<i>dactylifera</i>	<i>Sabal Adansonii</i>
<i>Chamærops excelsa</i>	<i>Forsteriana</i>	<i>leonensis</i>	<i>Blackburniana</i>
<i>Fortunei</i>	<i>Latania bonbonica</i>	<i>recinata</i>	<i>havanensis</i>
<i>humilis</i> , variety <i>elegans</i>	<i>Livistona altissima</i>	<i>spinosa</i>	<i>Palmetto</i>
<i>humilis</i> , variety <i>macrocarpa</i>	<i>australis</i>	<i>sylvestris</i>	<i>umbraculifera</i>
<i>Cocos plumosa</i>			

PITTOSPORÆ.—WESTERN LAWN.

<i>Bursaria spinosa</i>	<i>Pittosporum capense</i> (?)	<i>Pittosporum Ralphi</i>	<i>Pittosporum tenuifolium</i>
<i>Citriobatus multiflorus</i>	<i>Colensoi</i>	<i>revolutum</i>	<i>undulatum</i>
<i>Pittosporum bicolor</i>	<i>crassifolium</i>	<i>rhombofolum</i>	<i>Hymenosporum flavum</i>
<i>Buchananii</i>	<i>engenoides</i>	<i>rigidum</i>	<i>Sollya heterophylla</i>

POLEMONIACEÆ.—WESTERN LAWN.

<i>Cantua buxifolia</i>	<i>Gilia crassifolia</i>	<i>Gilia tricolor</i>	<i>Polemonium caeruleum</i>
<i>pyrifolia</i>	<i>inconspicua</i>	<i>Phlox Drumondi</i>	<i>grandiflorum</i>
<i>Cobaea scandens</i>	<i>laciniata</i>	<i>speciosa</i>	<i>reptans</i>
<i>Gilia capitata</i>	<i>multicaulis</i>		

POLYGALÆ.—WESTERN LAWN.

<i>volubile</i>	<i>grandis</i>	<i>myrtifolia</i> , variety <i>grandiflora</i>	<i>speciosa</i>
<i>Polygala bracteata</i>			

PROTEACEÆ.—WESTERN LAWN.

Adenostephanes organensis	Grevillea longifolia	Hakea nodosa	Leucadendron glabrum
Banksia ericifolia	macrostylis	oleifolia	uliginosum
grandis	oleoides, variety dimorpha	orthorrhyncha	species from Cape of Good Hope
integrifolia	parviflora	propinquua	Lomatia fraxinifolia
marginata	Hilliana	pugioniformis	ilicifolia
Buckinghamia celissima	robusta	purpurea	longifolia
Conospernum longifolium	sericea	rugosa	silaifolia
Dryandra floribunda		saligna	tiuctoria
Grevillea alpina	Hakea acicularis	Baxteri	Petrophila pulchella
alpina, variety	cucullata	suaveolens	Persoonia dependens
aquifolia	cycloptera	ambigua	lanceolata
Banksii	dactyloides	ulicina	species from Blue Mountains, New South Wales
buxifolia	elliptica	ulicina, variety carinata	Protea cyuaroides
concinna	eriantha	undulata	mellifera
confertifolia	flexilis	verrucosa	mucronifolia
ericifolia	gibbosa	Helicia, species from Richmond River	nigrescens
ericifolia, variety scabrella	laurina	Isopogon anethifolius	Macadamia ternifolia
Hookeriana	leucoptera	ceratophyllum	Steuocarpus salignus
ilicifolia	microcarpa	Knightia excelsa	sinuatus
juniperina	multilineata	Lambertia formosa	Telopia speciosissima
lavandulacea	nitida	Leucadendron argenteum	

RANUNCULACEÆ.—WESTERN LAWN.

Adonis autumnalis	Clematis campaniflora alba	Helleborus lividus	Ranunculus muricatus
Anemone coronaria	Colensoi	niger	oreophilus
cylindrica	crispæ	Nigella damascena	pennsylvanica
hortensis	flammula	orientalis	Philonotis
japonica	fœtida	sativa	reptans
Aquilegia atropurpurea	geutianoides	Paeonia alba plena	Thalictrum aquilegifolium
Bertoloni	Jackmanni	arietina	cornutum
Buergeriana	lanuginosa	mollis	glaucum
canadensis	microphylla	officinalis	Kochii
chrysanthæ	paniculata	Ranunculus acris flore-pleno	macrocarpum
glandulosa	pedicillata	Breyanus	majus
nevadensis	songarica	bulbosus	minus, variety elatum
Olympica	Delphinium Ajacis	Cassius	uervosum
viridiflora	consolida	Ficaria	rugosum
Clematis aristata	Requieri	flammula	simplex
blanda	Staphisagria	mixtus	

ROSACEÆ.—WESTERN LAWN.

Acræa sanguisorba	Crataegus tanacetifolia	Potentilla hybrida nana multiflora	Pyrus Maulei
Agrimonie leucantha	tauacetifolia, var. odoratissima	plena	prunifolia
pilosa	Cydonia japonica	MacNabiana	salicifolia
repens	japonica alba	multiflida	sorbifolia
Amygdalus communis	vulgaris	Nuttallii	Rhaphiolepis indica
persica	Eriobotrya japonica	Pennsylvanica	intermedia
persica flore-pleno	Geum inclinatum	rupestris	ovata
Cerasus ilicifolius	intermedium	Sprengelianæ	Rosa Banksiae
Cotonaster acutifolia	japonicum	Poterium agrimonoides	Beggeriana, variety nigrescens
affinis	Laxmannii	dictyocarpum	blanda
baccilaris	molle	polygamum	Brunonianæ
Humboldtii	pallidum	Sanguisorba	cauina
microphylla	Rafinesqueanum	spinosum	caroliniana
nepalensis	rubellum	Pruuus Americana	cinnamomea, var. glandulifera
rotundifolia	sylvaticum	cerasus	laxa
Roylei	urbicum	Lantro-cerasus	uultiplex
vulgaris	virginianum	Myrobalana	rubiginosa
Crataegus calpodendron	Kerria japonica	serotina	semperflorens
coccinea, variety glandulosa	Margyricarpus setosus	siberica	setigera
crus galli	Photinia arbutifolia	sinensis flore-pleno	spinosissimus
oxyacantha	serrulata	spinosus	Rubus australis
oxyacantha, variety laciniata	Potentilla digitata, var. flabellata	Pyrus arbutifolia	Borreri
oxyacantha flore-pleno	Fenzli	Aucuparia	cordifolius
oxyacantha, variety rosea	fruticosa	baccata	macropodus
punctata	heptaphylla	cerasifera	parva
pyracantha	Hopwoodiana	coronaria	rugosus
		latifolia	rhamnifolia

ROSACEÆ.—WESTERN LAWN—continued.

Rubus suberectus	Spiraea bella	Spiraea filipendula	Spiraea oblongifolia	
<th>thyrsoides</th> <td>Blumei</td> <td>hypericifolia</td> <td> opulifolia</td>	thyrsoides	Blumei	hypericifolia	opulifolia
species (White-fruited Raspberry)	callosa	levigata	Reevesiana	
species (Neilgherry Bramble)	cana	Lindleyana	salicifolia	
Sanguisorba carnea	carpinifolia	nutans	speciosa	
media	chamædrifolia	nutans, variety argentea	Ulmaria	
tenuifolia	conferta	Nobleana	Tomentilla erecta	
	confusa			

RUTACEÆ.—BUFFALO GRASS LAWN.

Adenandra uniflora	Citrus aurantiacum	Diosma alba	Ruta bracteosa
Asterolasia Muelleri	medica	Eriostemon obovalis	crithmifolia
Atalantia buxifolia	Cneorum tricoccum	Geijera latifolia	graveolens
Boronia deutziculata	Correa alba	Medicosma Cunninghamii	Xanthoxylon brachyandrum
elatior	speciosa, variety glabra	Melicope ternata	Zieria lanceolata
megastigma	speciosa, variety normalis	Ptelea trifoliata	species from Lord Howe's Island
Calodendron capense	Crowea saligna	Ruta angustifolia	

SAXIFRAGEÆ.—WESTERN LAWN.

Auopterus glandulosus	Deutzia gracilis	Hydrangea japonica	Ribes flavum, variety aureum
Aphanopetalum resinosum	sanguinea	paniculata	Menziesii
Bauera rubicoides	scabra	stellata flore-pleno	niveum
Callicoma serratifolia	Escallonia macrantha	Itea virginica	saxatile
Ceratopetalum apetalum!	montevidensis	Philadelphus coronarius	Saxifraga cartilaginea
gummiferum	organensis	Gordonioides	cotyledon
Deutzia candidissima	rubra	grandiflorus	orbiculata
corymbosa	Francoa sonchifolia	Keeteleri	repanda
crenata	Heuchera hispida	mexicanus	rotundifolia
crenata flore-pleno alba	Hydrangea hortensis	speciosus	Tellima grandiflora

SCROPHULARIACEÆ.—EASTERN LAWN.

Alonsoa cauialata, variety albiflora	Linaria striata	Pentstemon pulchellum	Veronica Andersonii
Wallisii	triphylla	Torreyi	Andersonii variegata
Anarrhinum Duriminium	vulgaris	violaceus	arguta
Antirrhinum majus	Maurandia Barclayana	And numerous varieties	cupressoides
rupestre, var. grandiflorum	Barclayana, variety rosea	Phygelius capensis	decussata
Browallia Jamesonii	Pentstemon Adamsoni	Salpiglossis variabilis	Hulkeana
Brunsfelsia americana	campanulatum	Scrophularia auriculata	lobelioides
Chelone barbata	Cobaea	Balbisii	neglecta
Digitalis eriostachya	cordifolium	fruticosa	parviflora
purpurea	elegans	pinnatifida	perfoliata
Diplacus glutinosus	glandulosus	sambucifolia	sarmentosa
superbus	grandiflorum	Verbascum crassifolium	Schmidtii
Duboisia myoporoides	Hartwegi, variety albus	nigrum	siberica
Linaria bipartita	Hartwegi, variety coccineus	niveum	speciosa
gcnistifolia	heterophyllum	phœnicum	spicata
reticulata aurea purpurea	latifolius	sinuatum	versicolor
spuria			

SOLANACEÆ.—WESTERN LAWN.

Atropa Belladonna	Habrothamnus fasciculatus	Nolana atriplicifolia	Solanum glaucophyllum
Brugmansia coccinea	Newelli	prostrata	haematoxarpum
Knightii	scaber	Petunia hybrida	jasminoides
sanguinea	Jochroma grandiflora	Physalis somnifera	marginatum
suaveolens	tubulosa	Solanum aculeastrum	pseudo-capsicum
sauveolens, variety lutea	Lycium australe	americanum	pyracanthum
Cestrum aurantiacum	barbarum	argenteum	robustum
fetidissimum	horridum	auriculatum	sodomaeum
nocturnum	rigidum	bonariense	tuberosum
Chenesthes lanceolata	Nicandra physaloides	capsicastrum	villosum
Datura fastuosa	Nicotiana glauca	ciliare	Warscewiczii
quercifolia	glutinosa	coriaceum	Withania aristata
stramonium	Tabacum	Dillenii	organifolia
Fabiana imbricata	Nierembergia frutescens	Dulcamara	sonnifera
Habrothamnus elegans			

TERNSTREMIACEÆ.—WESTERN LAWN.

Camellia japonica	Gordonia anomala	Thea chinensis	Thea chinensis, variety assamica
Cleyera japonica			

THYMELEÆ.—WESTERN LAWN.

Dais cotinifolia	Daphne indica	Pimelea ferruginea	Pimelea rosea
Daphne Cneorum hybrida	Pimelea axiflora clavata	ligustrina octophylla	spathulata

URTICEÆ.—WESTERN LAWN.

Boehmeria argentea nivea species from Netherlauds India	Cannabis iudica	Laportea photiniphylla	Platanus occidentalis orientalis
	Humulus Lupulus	Parietaria officinalis	Urtica ferox

URTICEÆ (Sub-Order Moraceæ).—WESTERN LAWN.

Broussonetia papyrifera	Ficus Livingstontii (?)	Ficus nitida	Morus alba, var. Morettiana
Ficus aspera	lucida	religiosa	alba, var. multicaulis
Carica	lurida	stipulata	cedrona
Cooperi	macrocarpa	sycamorus	mauritiana
glomerata	macrophylla	syringæfolia	nigra
Harlandi	Muelleri	Macrla aurantiaca	rubra
infectioria	nesophila	Morus alba	indica
latifolia			

URTICEÆ (Sub-Order Ulmaceæ).—WESTERN LAWN.

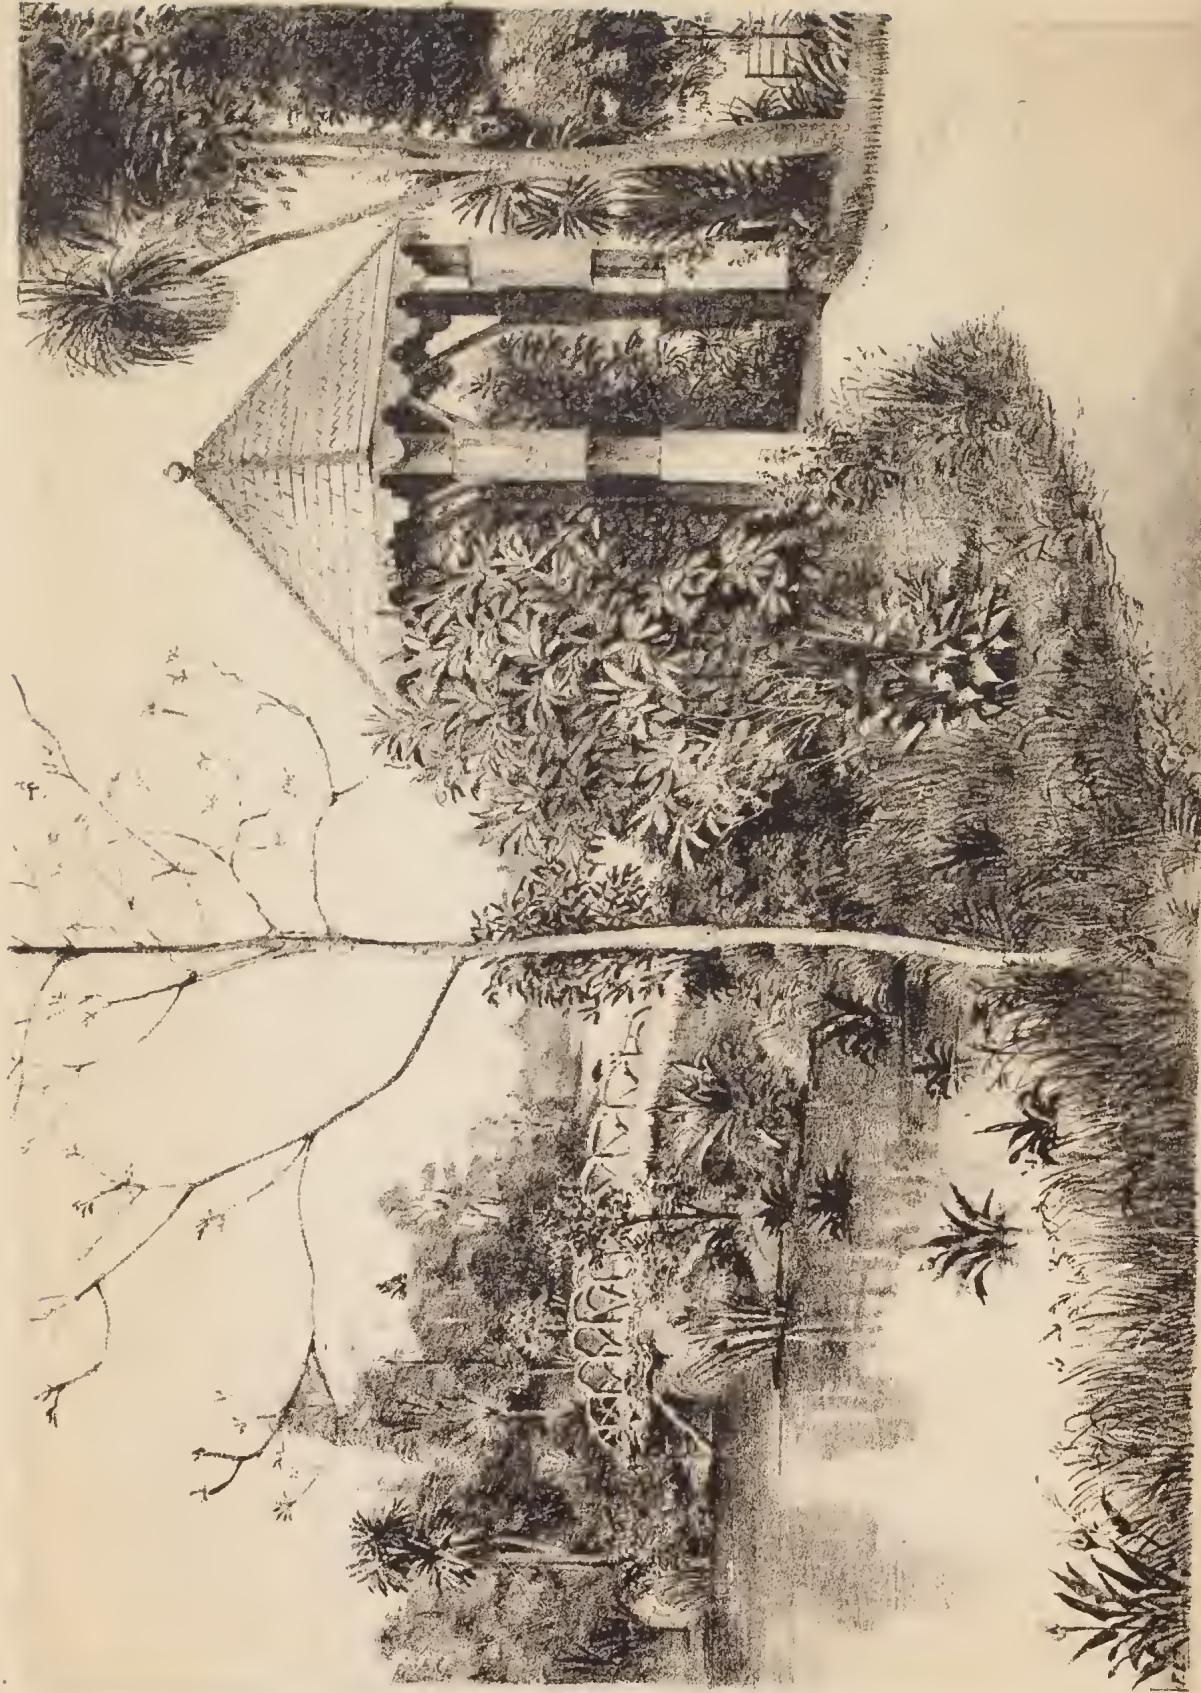

Celtis australis	Planera japonica	Ulmus campestris, var. purpurea	Ulmus montana
chinensis	Trema aspera	campestris variegata	montana, variety fastigiata
occidentalis	Ulmus americana	campestris, variety viminalis	montana, variety horizontalis
occidentalis, variety cordata	americana, variety pendula	chinensis	suberosa
rhamnifolia	campestris		

VERBENACEÆ.—EASTERN LAWN.

Callicarpa americana	Clerodendron tomentosum	Lantana crocea	Lippia, species, Bergamot-scented
angustata	Duranta brachypoda	grandiflora	Verbena bonariensis
cana	elliptica	grandiflora, variety alba	prostrata
lanata	inermis	lutea superba	venosa
macrophylla	mexicana	mixta	urticæfolia
purpurea	Plumieri	salvifolia	Vitex Agnus Castus
Cassellia integrifolia	stenostachya	Sellowiana	arborea
Citharexylon quadrangularis	species	urticæfolia	littoralis
subserratum	Lantana bicolor	And numerous varieties	Loureri
Clerodendron fragrans flore-pleno	coccinea	Lippia citriodora	

ZYGOPHYLLEÆ (including MELIANTHEÆ).—BUFFALO GRASS LAWN.

Zygophyllum foetidum	Meliauthus major	Melianthus minor	Melianthus Schimperi
glaucescens			

Pagoda and small Rustic Bridge north west end of lake

INDEX OF COMMON NAMES.
