Vegetable Seed Trials

SEEDS OF
QUALITY

Two Novelties Of Outstanding Merit

DIANTHUS SWEET WIVELSFIELD

This new *Perpetual Flowering Hardy Annual* has proved phenomenally successful—and will be eagerly sought after in 1931. The improved strain has **bright vivid colors**—and a very even growth.

500 seeds \$4,—1000 seeds \$8,—5000 seeds \$35.—

NEW MARIGOLD AFRICAN ORANGE “ALLDOUBLE”

Any strain of African Marigold that will come fifty per cent double is considered good—sixty is excellent. We are pleased to announce, however, that the variety ALLDOUBLE, which in every respect is identical to “Orange Prince” comes hundred per cent double.

1/4 oz. \$1, — 1/2 oz. \$2, — 1 oz. \$4.—

Begonia semperflorens "Glow"

Begonia "Froebelli"

BEGONIA SEMPERFLORENS

We have always made a specialty of Begonia seeds, and have always been intent on securing the best the market affords. We wish to call attention to Begonia **Glory of Erfurt**, **Fire Sea**, **Zauberin**, **Broadcast**, and **Rosabella**. We introduced these varieties a few years ago, and they still maintain their position as five of the very best varieties.

This year we take the pleasure to introduce to our customers another **Novelty** of outstanding merit. "*Begonia semperflorens* "Glow" (Glut) "Glow" is a considerable improvement on the well known "Fire Sea". It blooms profusely, the color of the blooms is a very dark red, the foliage is darker as those of the Fire Sea. It grows very compact and symmetrical.

There is no doubt that "Glow" will turn out as one of the very best **Red** flowering Begonias on the market at the present time.

	1/128oz.	1/64oz.	1/32oz.

Finest Mixed	2.00	4.00	8.00

**CINERARIA HYBRIDA GRANDIFLORA
MAXIMA**

This plant attains a medium height. The large flowers in ten to twelve-inch umbels extend well over the foliage. The leaves are larger than those of Multiflora Nana, and for this reason Maxima is a more decorative plant.

It finds a very ready market for Mother's Day sales.

FERN—SPORES

Spores will do about equally well in pots or pans, which should be supplied with coal cinders for drainage, Soil for sowing spores on is best composed of five parts, in the proportions of two parts good garden soil, two parts of finely screened peat and one part of sharp clean propagating sand. Leaf-mould may be used instead of peat, if easier to procure. This soil should be thoroughly sterilized. Make soil level, firmly pressed and thoroughly watered with sterilized water. Three or four hours after watering will be the best time to sow spores. Do not cover spores with soil. The spore pots or pans should be kept tightly covered. A temperature of 65o F. should be maintained in the propagating house.

LARKSPUR (continued)

Exquisite Pink Improved

A new strain true Exquisite Pink in color with a wonderful improved new form. An upright habit similar to our Perennial Delphinium and best of all, this new improved strain comes practically 100% true. The color is a beautiful Soft Pink Shaded Salmon.

1/4 oz. \$.50 1 oz. \$1.75 4 oz. \$6.00

Exquisite Rose

A beautiful shade of rose-pink, several tones deeper than Exquisite Pink Improved but with the same new improved Delphinium form and coming quite true.

1/4 oz. \$.50 1 oz. \$1.75 4 oz. \$6.00

La France

Larkspur La France is very floriferous, the large, well-formed, double flowers being well placed on the long stems to set off its attractions. It is vigorous growing, and is more resistant to mildew than the older Stock Flowered varieties. The color is a pleasing salmon-pink, a shade closely resembling the popular Antirrhinum Jennie Schneider.

1/4 oz. \$.75 1 oz. \$2.50 4 oz. \$9.00

Los Angeles

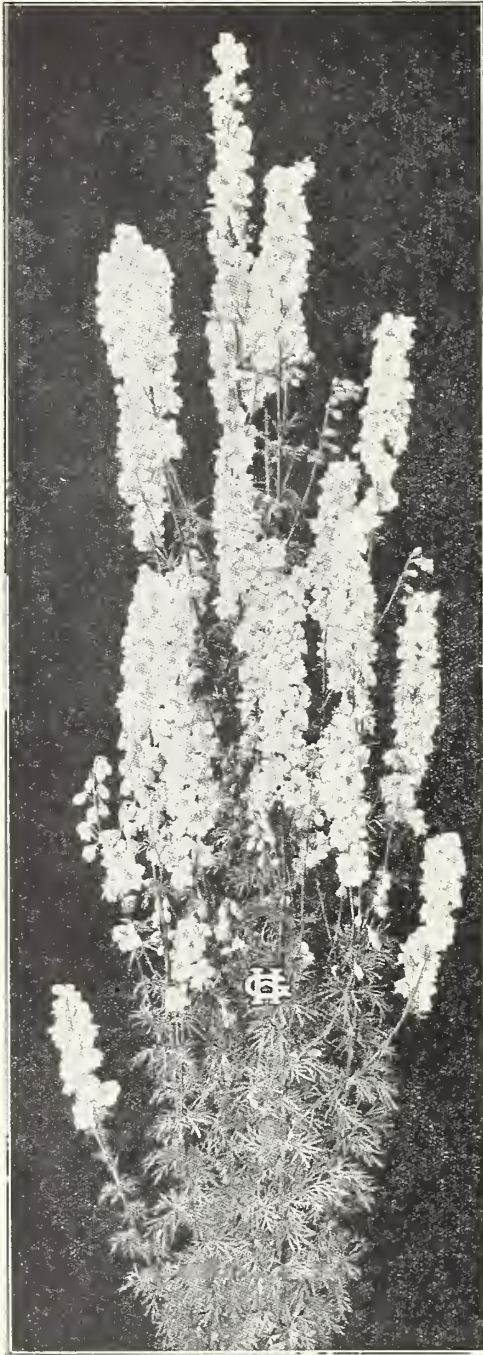

Los Angeles is of the same growing habit as La France, but with a richer color-something between La France and Rosy Scarlet. The foliage of Los Angeles is a much darker green, making the large, double flowers stand out more prominently.

1/4 oz. \$.75 1 oz. \$2.50 4 oz. \$9.00

WHITE SPIRE

A new dazzling pure white double Larkspur with the improved upright delphinium-like habit of Exquisite Pink Improved.

1/4 oz. \$.75 1 oz. \$2.50 4 oz. \$9.00

**PANSY
ROGLI GIANTS**

Swiss Pansy

A wonderful new class of Pansies which we highly recommend to our customers. The imposing 3 or 5 blotched flowers, which on long vigorous stalks surmount the strikingly large and healthy looking foliage in the most graceful manner, are of enormous size, three inches and over in diameter, perfectly round in form with overlapping petals.

The beauty, brilliancy and riches of colors being the most striking—very rare and entirely new tones—never before seen in any Pansy Mixture.

1/8 oz. \$2.00	1/4 oz. \$3.50
1 oz. \$12.00	4 oz. \$42.00

**GLIEME'S WORLD GIANT

--	----------------	----------------	--------------

PANSY EXPOSITION PHANTASY HIMALAYA (Ice Pansy)

(Winterblooming Giant Pansy)

The main advantage of these new Pansies over all hitherto existing ones is the extreme earliness of flowering, in connection with an unusual hardiness. In Central Germany they begin to flower in February already, even beneath the snow, are in full bloom the first part of March, at a period, where all other sorts of Pansies begin to bud only, and continue to flower until the summer. The flowers are very large, well formed and fragrant. This class of Pansies is deserving of the strongest recommendation for bedding and cutting.

PETUNIA GRANDIFLORA NANA

(Large Flowering Dwarf Petunias)

The plants of this strain will attain a height of only 8-9 inches, branch out considerable but will grow in close formation making it unnecessary to tie them. The pretty round bushes carry their flowers well above the foliage. The flowers are large in a great variety of colors. These plants are suited especially for pot plant purposes or can be used in flower beds.

Pyrethrum Ptarmicaeflorum

PYRETHRUM PTARMICAEFLORUM

A wonderful new species from the high mountains of the Canary Islands. Foliage is silvery-white and carried on long stems. Useful as pot—bedding—and border plant. Will grow in any soil and best on places where the plants have always the full benefit of the sun. In the late fall cut the stems back and cover with peat, pine-needles or leaves, or winter the plants under glass. They will grow again early next spring. Highly recommendable for pot-plant and cutflower growers.

WALLFLOWER "EARLY WONDER"

Planted in January or February, these plants will bloom in June, planted in March they will bloom in July, etc. Thus, it will be seen that it is possible to have blooming plants during the entire year. It is to the best advantage to sow in June, July, August and September in order to have blooming plants outside in the fall or in the cool houses in winter or spring. Early Wonder will grow to a height of 30 inches. It will branch out, these branches also being laden with beautiful flowers which are well suited for cut flower purposes during the cool season.

PERENNIAL--FLOWER SEEDS

Early in May is the ideal time to begin to sow seeds of rockery plants and indeed all the hardy herbaceous sorts. Sow the seeds as evenly as possible, shoosing, if possible, a day when there is not much wind. If the soil is not very fine it may be lightly tamped before the seed is sown. The covering of these seeds is a most important step; it is much easier to fail through giving too much covering than too little. Very fine seeds such as Campanulas need very little covering at all. Larger sorts such as Iberis, cover just out of sight, or with about one-eighth of an inch very fine soil. There are some sorts of Perennial seed, which will not germinate until about 6 months or even the following spring (for instance Helleborus, Paeonia, Phlox, Trollius, etc.)

We believe it is a good plan to sow the seed as soon as it arrives, even if this is midwinter. The action of the frost on many species seems to help germinate.

ASTILBE ARENDSI HYBRIDA

ASTILBE ARENDSI HYBRIDA

Showy plants of very vigorous growth, producing many-branched, feathery heads of flowers in June and July. They will thrive in any good rich soil if given plenty of water during the growing season. Very useful as pot plants.

- Emden.** Immense trusses of large flowers of a pretty lilac-rose color. Early flowering. 20 inches.
- Frieda Klapp.** Of upright growth, with pretty long spikes of dark carmine-purple color. Late flowering. 32 ins.
- Gloria.** A recent introduction that is conspicuously beautiful with its dense, feathery plumes of brilliant dark pink, shaded lilac. Dwarf. Very useful for bedding, and as a pot-plant.
- Gloria Purpurea.** Deeper color as Gloria.
- Granat.** Dark crimson flowers in strong divided spikes. One of the finest Astilbes.
- Gunther.** Long-feathery pyramidal spikes of glowing light pure rose color. Large leaves on dark red, hairy stems. Very free flowering.
- Hyacinth.** Dense flower spikes of delightful rose color.
- Kriemhilde.** Magnificent salmon-rose color and pretty feathery spikes. Foliage green on red stems.

“Hollyhock” Delphinium

Queen Mauve, an exceptionally lovely, eyeless mauve with a very graceful spike, 3 ft. long, wide at the base, and tapering to the top, with but few side-shoots. The color is an exquisite shade of pale horfense violet, shaded with Salvia blue.

Sealandia, the broad spikes tapering towards the top are sheathed with parma-violet flowers, tinted sky-blue. In the center of each petal is a small dark eye. A valuable late-flowering variety.

Sunshine, soft pale mauve shaded Forge-me-not blue.

Wales, in size it is colossal. Approaching 5 ft. in length, from the base to the tip, the spike tapers to a point from a width of nearly 9 inches. Royal purple self, with small white center.

Welsh Boy, very dark gentian blue, fine spike and habit.

Seed of Bees

“HOLLYHOCK” DELPHINIUMS

A Distinctive Race with Spikes like Cathedral Spires.

Bees’ “Hollyhock” Delphiniums have been exhibited at all the large shows IN OPEN COMPETITION and have never been beaten.

The chief distinguishing features of the “Hollyhock” Delphiniums are:-1/ the extraordinary length and the tapering and spire-like shape, of the spikes; 2) the statuesque beauty of the plants as a whole; 3) the indescribably rich and varied tints; 4) the very remarkable extension of the flowering period-many varieties bloom well into August; 5) the unmistakable Hollyhock-like stature and stateliness.

Black-Eyed Susan, hugh massive spikes of pale blue set off with a very large black ‘bee;’ hence its name

Cambria, spikes long and very full Large semi-double flowers of glorious helio, splashed Venetian blue

Coquette, tapering spiral spikes, 4 ft. long, amethyst-violet flowers, delicately shaded blue and set off with golden-brown center.

Happy Thought, Flowers enormous, outer petals smalt-blue on groundwork of pansy-violet, shaded rosy-amethyst. Each perfect bloom is set off with a gold and nigger-brown ‘bee’ in center. A superb late flowering sort.

Ideal, manganese violet shading to cornflower-blue in the center of the flower, dark bronze bee-like center.

Jenny Jones, a statusque beauty, blooms of pansy-violet with vivid flashes of gentian blue. Spikes of great height.

Purple Splendour, lovely cornflower-blue with crinkly inner petals, shaded amethyst.

VEGETABLE SEED

All vegetable seeds offered will be delivered to your door postpaid in any quantity up to ten pounds in weight. Larger quantities will go forward by express at the purchasers expense. Write for "quantity" prices.

BEANS

Dwarf Green Podded Varieties:	½lb.	1 lb.	10 lbs.
Emperor William, very long podded, white seeded	\$.20	\$.35	\$2.80
Best of All (Hinrich's Giant,) pods very long and fleshy, of finest flavor20	.35	2.80
Best of All Stringless, extra fine20	.35	2.80
Ilsenburgh, earliest15	.25	2.00
Long Sword, longest podded, early, white-seeded20	.35	2.80
Dwarf Butter or Wax Podded Varieties:			
Rhineland (Earliest of All) extra fine30	.50	3.75
Emperor William, very hardy and most productive20	.35	2.80
Flageolet Wax, very large pods, white-seeded20	.35	2.80
Best of All (Hinrich's Giant,) extra20	.35	2.80
Black Wax, the best of the dwarf, black-seeded wax varieties20	.35	2.80

BEET

	⅓lb.	¼lb.	1 lb.
Long Dark Blood Red	\$.15	\$.25	\$.80
Extra Early Egyptian, one of the very earliest with small top; roots distinctly flat and moderately thick, very dark red15	.25	.80
Round Dark Blood Red, extra selected15	.25	.80
Swiss Chard, Silver, its yellowish-green large leaves are used as greens and the middle leaf-rib served like Asparagus15	.25	.80
Swiss Chard, Lucullus, an improved type of Chard. Of more upright growth than the silver variety20	.35	1.00

BRUSSELS SPROUTS

	1 oz.	¼lb.	1 lb.
Improved Dwarf (Gonsenheim,) moderately early	\$.15	\$.50	\$1.75
Hercules, semi-dwarf, thickly covered with very solid sprouts15	.50	1.75

WHITE CABBAGE

	1 oz.	¼lb.	1 lb.
Copenhagen Market, very fine, nearly as early as Jersey Wakefield, stem short, heads large, round and solid, with few outer leaves of an upright growth.	\$.30	\$1.00	\$3.00
Charleston Wakefield, about one week later than Early Jersey Wakefield, but the conical heads are fully one-half larger20	.60	2.00
Early Jersey Wakefield, the most widely known and popular extra early variety; heads a broad cone shaped and very solid25	.75	2.25
Glory of Enkhuizen, excellent medium early, short-stemmed variety. Heads large, round, very solid, with few outer leaves. One of the most satisfactory for kraut making30	1.00	3.00
Large Flat Brunswick, extra fine20	.60	2.00
Large Flat Magdeburg (Sauerkraut) extra20	.60	2.00

RED CABBAGE

	1 oz.	¼lb.	1 lb.
Early Blood Red Berlin, heads solid	\$.20	\$.60	\$2.00
Giant Zittau, heads very large, deep blood red25	.75	2.25

SAVOY CABBAGE

	1 oz.	¼lb.	1 lb.
Bonn Advent, yellowish-green, best for winter planting, first reproduction	\$.20	\$.60	\$2.00
Earliest Dwarf Ulm, extra fine, green curled15	.50	1.50

CAULIFLOWER

	¼ oz.	½ oz.	1 oz.
Extra Selected Early Dwarf Erfurt , the finest strain of the Erfurt Cauliflower, producing very solid, pure white heads of the very finest quality; seldom fails to form a good sized head	\$.60	\$1.00	\$1.75
Dry Weather (Danish Giant) , one of the very best varieties; especially adapted for growing in dry locations60	1.00	1.75
Early Large Erfurt , best for late30	.50	.90
Veitch's Autumn Giant , a large vigorous, late variety; heads large, firm, very white and well protected by large, dark green foliage; stem rather long25	.40	.75
Algiers Giant , very large heads, very white, extra fine25	.40	.75

CARROT

	¼ lb.	½ lb.	1 lb.
Half Long Red Francfort , pointed	\$.20	\$.35	\$1.00
Half Long Gonsenheim , excellent medium early variety20	.35	1.00
Long Red Brunswick (Red Survey)20	.35	1.00
Improved Long Orange , an excellent intermediate season, standard sort, roots 12 ins. long, about 3 ins. broad at the crown, tapering regularly to a point; deep orange color20	.35	1.00

CELERY

	½ oz.	1 oz.	¼ lb.
Easy Blanching , a new variety, resembling Golden Self Blanching, but the leaves are green and the stalks blanch white instead of yellow. It is also more hardy and less liable to blight. An excellent winter keeper as well as an early celery. One of the easiest to blanch and of best quality	\$.25	\$.45	\$1.50
Emperor, or Fordhook , a valuable selection from Columbia. Plant quite dwarf and stocky, with large, full, light yellow heart. Stalks broad, thick and crisp. Follows Self Blanching in season. Very tender and too brittle for shipment to distant markets	\$.20	\$.40	\$1.25
Giant Pascal , a standard winter Celery of vigorous, compact growth. The plants are productive, with short upright leaves of a rich dark green color; stalks short, thick and very broad20	.35	1.00
Golden Plum, or Wonderful , blanches quickly with a full heart and rich, golden-yellow color. Apparently more disease resistant than other yellow celeries. A very desirable sort50	.90	3.00
Golden Self Blanching Dwarf , the plants make a uniform, dwarf, and compact growth, with quite thick, waxy yellow stalks of superior flavor. Crisp and nutty. The finest early Celery in cultivation30	.60	2.00
Improved White Plume , very early; leaves light, bright green; easily blanched a beautiful silvery-white color, a popular variety for early market20	.35	1.00
Pink Plume , quite identical with White Plume20	.35	1.00
Winter Queen , of medium height, broad light green stalks; very solid and crisp; blanches well20	.35	1.00

CELERIAC (Turnip-Rooted Celery)

	½ oz.	1 oz.	¼ lb.
Large Smooth Prague , one of the largest; smooth and almost spherical	\$.10	\$.20	\$.60
Large Erfurt , short top, smooth10	.20	.60
Apple-Shaped10	.20	.60

CHERVIL

	½ oz.	1 oz.	¼ lb.
Curled , used for flavoring soups and salads	\$.10	\$.20	\$.50

CHICORY

	½ oz.	1 oz.	¼ lb.
Witloof (French Endive) , the plants form long, parsnip-shaped roots; the roots are forced in frames or greenhouse and the new growth of lettuce-like leaves is cut and served as a salad	\$.20	\$.35	\$1.00

CRESS

	1 oz.	4 oz.	1 lb.
Extra Curled (Peppergrass,) a small, curled plant, having fine pungent flavor and used as a salad	\$.15	\$.40	\$1.25
True Water , for growing along banks of ponds and streams; wholly unlike Extra Curled; leaves are quite large and thick40	1.25	4.50

CUCUMBER

	1 oz.	¼lb.	1 lb.
German Conqueror , fruits long, slender, dark green, at the lower end light striped	\$.30	\$1.00	\$3.00
French Cluster , short green fruits good for pickling15	.50	1.50
Extra Early Russian Cluster , hardy and productive, fruit small15	.40	1.25
Middle Sized Green Erfurt Improved , a strong grower and free bearer20	.50	1.50

EGG PLANT

	½oz.	1 oz.	¼lb.
Black Beauty , fruit very dark purple, which color it holds for a long time	\$.25	\$.50	\$1.50
Early Dwarf Purple , fruit small and oval-shaped, deep dull purple in color30	.60	2.00
Early Long Purple , one of the earliest and most productive sorts; club shaped fruits; rich purple25	.50	1.50
Florida High Bush , of strong, upright growth, holding its fruit well above ground; fruit similar in form and size to New York Purple, though not so dark in color25	.50	1.50
New York Improved Purple , the favorite market variety Plant large, spreading and spineless, producing 4-6 large oval fruits of dark purple color25	.50	1.50

ENDIVE

	1 oz.	¼lb.	1 lb.
Broad Leaved Batavian (Escarolle,) one of the best varieties for salads; leaves of upright growth, broad, more or less twisted and waved, bright deep green, with a nearly white midrib	\$.10	\$.30	\$1.00
Green Curled Winter , the most hardy and vigorous sort; leaves bright, deep green with the outer midribs usually showing a trace of rose; readily blanches a creamy white10	.30	1.00

KALE OR BORECOLE

	1 oz.	¼lb.	1 lb.
Dwarf Curled Scotch , a handsome, very finely curled, dwarf spreading variety; foliage long and of an attractive bright green; very hardy	\$.10	\$.30	\$1.00
Dwarf Curled Siberian (German Greens,) leaves are large and rather plain in the center, but cut and frilled at the edges; color is a bluish-green10	.25	.80

KOHL RABI

	1 oz.	¼lb.	1 lb.
Earliest Green Dreienbrunnen , best open ground sort, extra fine	\$.20	\$.50	\$1.75
Early Purple Vienna , early and with small top; bulbs medium size and purple in color; flesh white20	.60	2.00
Large Green or White , quite hardy and most productive; grown mostly for stock feeding15	.45	1.50

LEEK

	1 oz.	¼lb.	1 lb.
Summer (French) early , thick	\$.20	\$.50	\$1.75

LETTUCE

	1 oz.	¼lb.	1 lb.
Grand Rapids , the favorite loose-leaved forcing lettuce, and does well in the north for early planting outside. A most handsome and attractive lettuce of fair quality15	.45	1.25
Large Yellow Dresden , white-seeded, excellent	\$.20	\$.60	\$1.75
May King , a handsome small, extremely early, compact heading variety; leaves light yellowish-green, tinged reddish-brown at the edges, while the heart blanches a rich golden yellow; quality fine15	.45	1.25

ONION

	1 oz.	¼lb.	1 lb.
Ailsa Graig , an exhibition variety of large size, specimens having been grown to weigh over 3 pounds each; bulbs oval-shaped with pale straw-colored skin; exceptionally mild	\$.35	\$1.00	\$3.50

PARSLEY

	1 oz.	¼lb.	1 lb.
Champion Moss Curled , a compact growing sort; leaves are a uniform dark green color, very finely cut and so closely curled as to resemble bunches of moss ..	\$.10	\$.25	\$.85
Large Rooted Hamburg , the edible roots of this variety resemble a small, thick, parsnip in shape and color, and are extensively used for flavoring soups and stews; leaves plain10	.35	.85

PARSNIP

	1 oz.	¼lb.	1 lb.
Long Smooth White , the best and most productive of the long Parsnips	\$.10	\$.25	\$.75
Early Round White , the earliest of all Parsnips, easily grown and easily harvested ..	.10	.25	.75

PEAS

	¼lb.	1 lb.	10 lbs.
Abundance , wrinkled-seeded, a very free bearer	\$.10	\$.30	\$2.00
Belladonna , wrinkled-seeded10	.30	2.00
De Grace , round-seeded, early, excellent for forcing10	.30	2.00
Express , round-seeded, the earliest, very dwarf10	.30	2.00
Kentish Invicta , green, round-seeded10	.30	2.00
Saxa , very early, round-seeded10	.30	2.00
Senator , wrinkled-seeded, green, a free bearer10	.30	2.00
Telephone , a standard high quality, large podded Pea for home gardeners and market growers, wrinkled-seeded10	.30	2.00

PEPPER

	½oz.	1 oz.	¼lb.
Chineses Giant , one of the very largest of the mild red Peppers, brilliant glossy scarlet color	\$.40	\$.75	\$2.25
Early Dwarf Red Squash , a medium sized flat, or tomato-shaped, variety; flesh thick and mild; color bright red25	.50	1.50
Harries' Earliest , the earliest pepper we are acquainted with, Fruits mild and sweet, similar to Bull Nose in form. The best pepper for the home garden ..	.30	.60	2.00
Neapolitan , a very early, productive, large variety and one of the sweetest and most mild. Fruits yellowish-green turning bright red at maturity25	.50	1.50
Oshkosh , a very distinct, desirable, large variety. While the fruit is bright canary yellow at maturity, during growth it is an intense, deep glossy green, making an attractive sort to market as "green peppers"; mild and exceptionally sweet50	.90	3.00
Pimento , a very thick fleshed, heart-shaped, smooth, mild, crimson variety, much used for salads.25	.40	1.40
Red Chili , of low growth; cone-shaped bright red fruits, very hot; used for pepper sauce25	.50	1.50
Sweet Mountain, or Mammoth , similar to Bull Nose, but more elongated; pendent fruits often grow six ins. long by four ins. in diameter; bright red, mild sweet25	.40	1.40

RADISH

	1 oz.	¼lb.	1 lb.
Express , round shaped, earliest bright scarlet	\$.10	\$.30	\$1.00
Non Plus Ultra, or Fireball , round rather than turnip-shaped, of medium size with a small top; bright scarlet; very early, and one of the best forcing varieties ..	.10	.30	1.00
Early Scarlet Turnip , a well-known variety, very quick grower10	.30	1.00
Crimson Giant , one of the best for outdoor culture. Intermediate in season.10	.30	1.00
Icicle , the leading long white radish and one of the earliest; flesh is crisp and tender and has an agreeable snappy flavor10	.30	1.00

RADISH (continued)

	1 oz.	¼lb.	1 lb.
Large White Summer Salvator, round; large size; skin and flesh pure white, crisp and fine. An excellent summer sort.	\$.10	\$.30	\$1.00

FALL OR WINTER RADISHES

Long Black Spanish, one of the latest and hardiest varieties for winter-use10	.30	1.00
Long White Spanish, resembles the above, except in color10	.30	1.00
Round Black Spanish, almost black skin, flesh white, crisp and pungent10	.30	1.00

SORREL

Large Leaved French	1 oz. \$.10	¼lb. \$.35	1 lb. \$1.25
---------------------------	--------------	-------------	--------------

SPINACH

	¼lb.	1 lb.	10 lbs.
Giant Eskimo, dark green, very hardy, excellent	\$.20	\$.50	\$3.75
Bloomsdale, Long Standing, plants very uniform, leaves intensely crumpled and blistered, dark glossy green in color20	.50	3.75
Early Giant Thick Leaved (Round Leaved), a strong, upright growing medium early sort20	.50	3.75
New Zealand, entirely distinct from the true Spinach; plant tall and spreading with numerous side shoots; leaves medium green, rather small and pointed; grows well in hot weather and under adverse conditions30	1.00	7.00

TOMATO

	½oz.	1 oz.	¼lb.
Bonny Best, about a week earlier than Chalk's Jewel; fruit somewhat smaller, very smooth, round, solid and uniform; color bright red	\$.25	\$.40	\$1.25
Chalk's Jewel, an exceptionally fine early variety, about ten days later than Earliana; fruit uniformly smooth, round and solid; color crimson; a good canning sort for the North25	.40	1.25
Crimson Cushion (Beefsteak), the largest of the bright red tomatoes, really a Red Ponderosa35	.65	2.25
Dwarf Stone, the best of the dwarf tomatoes; fruits large, smooth, round, very solid and of a dark scarlet color30	.50	1.50
Earliana, the earliest and best of the very early tomatoes; very productive for an early sort, fruit round, very smooth and solid; color bright scarlet25	.40	1.25
Early Detroit, a very fine, early, large-fruited, purple variety; fruits nearly globe-shaped, smooth and solid30	.50	1.50
Greater Baltimore, a main crop, productive, red fruited variety of the Matchless type; quite popular with the canners25	.40	1.25
John Baer, an early productive, red fruited variety on the order of Chalk's Jewel25	.40	1.25
Matchless, a very dependable, large, smooth, second early sort, makes a good canning variety; color cardinal red25	.40	1.25
Ponderosa, an exceptionally large, purple-fruited tomato, and for home use one of the best; fruit very solid, with few seeds35	.65	2.25
Red Head, a fine, large, bright red variety, as early as Chalk's Jewel and nearly as large as Stone and as productive; fruits nearly globe-shaped, very solid; an excellent canning variety35	.60	2.00
Red Rock, a fine selection of the Matchless type; medium early, round, smooth and bright red; a good canning variety20	.35	1.10
Royal Purple, fruits smooth and uniformly large in size, round and with little core; color deep pink, tinged purple; a mid-season sort25	.40	1.25
Stone, the standard and general favorite with truckers and canners; always dependable, very vigorous and productive; fruits round, large, solid, smooth and deep red in color20	.35	1.10
Trucker's Favorite, a popular purple fruited sort35	.65	2.00
Yellow Cherry, for preserves; similar to Red Cherry except in color30	.55	2.00

TURNIP

	1 oz.	¼lb.	1 lb.
Early White Flat Dutch , roots of medium size, smooth and clear white; of the very best quality	\$.10	\$.25	\$.75
Early Snowball ; very early, of medium size, round as a ball and pure white skin and flesh10	.25	.75
Improved Golden Ball , the best of the yellow-fleshed turnips; tops are small, roots medium size, round, smooth and deep yellow; flesh firm, crisp of most excellent quality10	.25	.75
Purple Top White Globe , almost a perfect globe in form, flesh and skin white, colored purple, or red, above ground; very fine grained and sweet; a superior variety10	.25	.75

HERBS

Pot, Sweet and Medicinal

	¼ oz.	½ oz.	1 oz.
Anise , used for flavoring	\$.10	\$.15	\$.25
Basil , sweet, leaves useful for flavoring10	.15	.25
Caraway , seeds used for flavoring10	.15	.25
Dill , used for flavoring pickles10	.15	.25
Fennel, Florence , a bulb-like vegetable formed above ground at base of leafstalk10	.15	.25
Lavender , leaves very fragrant20	.35	.50
Majoram, Sweet , used as seasoning15	.25	.40
Purslane , yellow10	.15	.25
Rosemary , leaves very fragrant15	.25	.40
Sage , a highly aromatic herb; most useful of all15	.25	.40
Savory, Summer , leaves for flavoring soups10	.15	.25
Savory, Winter , leaves for seasoning10	.15	.25
Tarragon (Russian)20	.35	.50
Thyme, Broad Leaved , used as a seasoning20	.35	.50
Wormwood , has medicinal qualities; splendid for poultry15	.25	.40

SUNFLOWER

Mammoth Russian , seed highly valued as food for fowls	1 oz. \$.15	¼lb. \$.35	1 lb. \$.75
---	-----------------	----------------	-----------------

GRASS SEED

Lincoln Park Lawn Seed , this is the standard mixture famous for 50 years, which is composed of re-cleaned, high quality grass and clover seed. It is unquestionably one of the best mixtures for establishing a permanent lawn....	1 lb \$.40	10 lbs. \$3.25	50 lbs. \$14.50
100 pounds \$25.00			
Shady Lawn Grass Mixture , for shaded places or sandy soil	\$.60	\$5.50	\$24.00
100 pounds \$42.50			
Kentucky Blue Grass (21 lb. seed) High germination	\$.50	\$4.50	\$20.00
100 pounds \$35.00			
Creeping Bent Grass , a valuable low growing variety	\$1.50	\$14.50	\$67.00
100 pounds \$120.00			

SEASONABLE GREENHOUSE PLANTS

During the season we shall be in a position to supply the trade with any quantity of young, strong, clean and healthy seedlings of *Cyclamen*, *Cinerarias*, *Calceolarias*, *Primula-Obconica* and *Primula Malacoides*, at standard prices.

Plants will be carefully shipped by Express at the purchasers expense.

“Mail your Orders” or “Write for Prices”

Cyclamen

CYCLAMEN

Best German Strain—All Colors—2¼ inch, 3 inch, 4 inch.

Ready to ship from May until September

CINERARIAS

All varieties as listed under “Seeds” in mixed colors—2¼ inch.

Ready to ship September, October.

CALCEOLARIAS

Strain *Kelway* and *Hybrida Grandiflora Dwarf* in mixed colors—2¼ inch.

Ready to ship November, December, January

PRIMULA OBCONICA

Berlin Specialty, Dark Red, Pink, or Mixed 2¼ inch.

Mueller-Mohnstein, Dark Red, Pink, or Mixed 2¼ inch.

Herman Fassbender 2¼ inch.

Ready to ship from June until October

PRIMULA MALACOIDES

Pink Dark Pink Red 2¼ inch.

Ready to ship September, October

PRIMULA KEWENSIS

Yellow 2¼ inch.

Ready to ship September, October

If in need of any of the above plants kindly mail us your orders. You may depend on our quality and quick service. All plants offered are guaranteed to be true to name.

ORIGINAL S. KUNDE & SOHN

DRESDEN, GERMANY

Florist Knives

Nursery Knives

and Shears

Kunde Knives and Shears are hand forged from the finest steel and are guaranteed as near PERFECT as tools can be made.

The Knives are known the world over for the wonderful edge they hold—due to the hardness of the steel and tempering, the correct bevel, ebonite or full shaped wood handles, large brass rivets and extra heavy brass linings.

In Shears Kunde originated the double cut principle; the cut coming from both sides is easier and does not require finishing with a knife for proper healing. The large bolt with security plate and the method of closure which does not allow pinching of the hand, are also distinctive features.

You will find these knives and shears to be most satisfactory not only for the way they do their work, but for the way they hold their cutting edges and their long life in continued service.

SHARPENING OF KNIVES

We recommend a Belgian Oil Stone. Whet circularly towards the edge with the blade flat and maintaining a pressure on the edge without lifting the back. Continue repeatedly on both sides until particles of steel appear on the edge. Remove these by drawing diagonally across the stone very lightly, lifting a little the back of the blade.

BUDDING KNIVES

No. 351. For trees and roses, 8 em., \$1.50 ea.

No. 31A. For trees and roses, 10 em., Strong brass lined Ebonite handle. \$2.00 ea.

No. 41H. A finely polished budding knife of buffalo horn and brass lining, 10½ em., \$2.50 ea.

No. 22H. Of buffalo horn and brass lining 10½ em., \$2.50 ea.

No. 23H. Same material, 10½ em., \$2.50 ea.

No. 131P. For budding and pruning. 10½ em., \$3.00 ea.

No. 123M. 10½ em., \$3.00 ea.

GRAFTING KNIVES

No. 21A. For camellias, azaleas, etc. Ebonite handle. 10 em., \$2.00 ea.; 10½ em., \$2.25 ea.

No. 22A. Blade more pointed. 10½ em., \$2.00 ea.

No. 23A. For vine, rose and tree grafting. 10 em., \$2.00 ea.

No. 24C. Curvated extra strong handle, 10½ em., \$2.25 ea.

No. 66 Pen Knife with stage handle and steel bolster, Very strong, 11 em., \$3.00 ea.

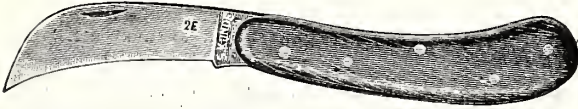

PRUNING KNIVES

No. 1C. Curvated handle and wider blade 11 cm., \$2.25 ea.

No. 1A. Straight flat ebonite handle, thin, blade. 10½ cm., \$2.25 ea.

No. 2E. Wood handle, easily fitting the hand or pocket. Strong brass lining and large rivets. 12 cm., \$2.75 ea.

No. 2G. Straight handshaped handle, narrow blade. For dividing plants, tubers, etc. 11½ cm., \$2.75 ea.

No. 1N. Strong brass lining, wood handle. Covered with brass on end. 12 cm., \$3.75 ea.

No. 2H. Stag handle, iron, lining and steel bolsters. 10½ cm., \$4.50 ea.

No. 4123R. For budding and pruning. 10 cm., \$3.00 ea.

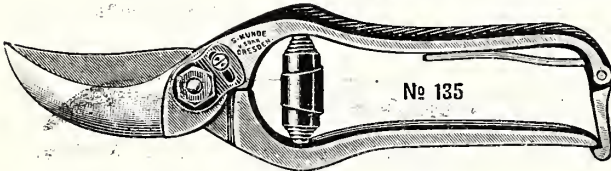

No. 411R. Ebonite handle and brass lining. For budding and pruning. 10 cm., \$3.00 ea.

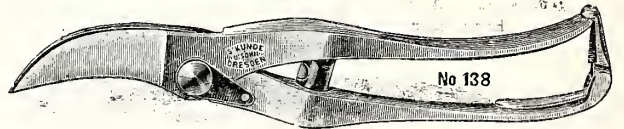

No. 3000. A heavy multi-bladed knife. Ebonite covering. 10½ cm., \$4.00 ea.

NORMAL DOUBLE CUT PRUNING SHEARS

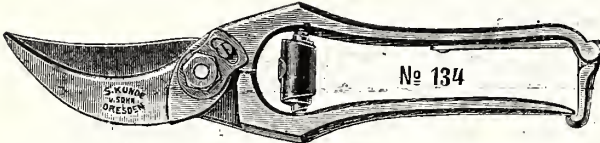

No. 135. Model 1879. Powerful double-edged Pruning Shear for trees and roses. Brass security plate for nut, both edges forged of best crucible steel. 20 cm., \$6.00 ea.

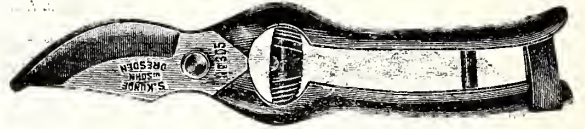

No. 138. Slender points and heavy frame, with draw-cut, obtained by placing bolt off center. Rubber covered handles. 20 cm., \$7.50 ea.

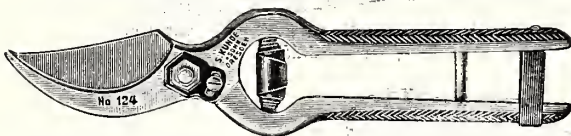

SINGLE EDGED PRUNING SHEARS

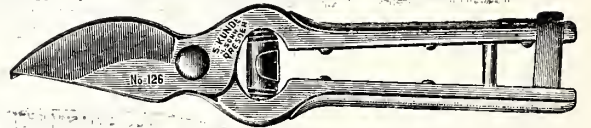

No. 134. Model 1879. A strong moderately priced shear. Brass security plate for nut, both edges forged of best crucible steel. 20 cm., \$5.25 ea.

No. 305. Heavy pressed steel and tempered blade. Hollow, comfortable grips. 22 cm., \$2.00 ea.

No. 124. Security plate for nut and leather closure. For general use. 20 cm., \$2.50 ea.

No. 126. Heavy frame with wooden coverings. Excellent for winter work. 20 cm., \$2.75 ea.

Prices include free delivery to you. 5% discount allowed on orders for 3 knives or shears and more.
